WOMEN'S CLUB NOTES.

The vacation season approaches in the club year, and there will be but few more meetings.

The Thursday Afternoon Club held its annual election of officers at the home of the president, Mrs. H. C. Guernsey. The reports show the club to be prosperous in its affairs, and there is a record of good work done in the year past.

The program Thursday was "Prominent Women," and much enjoyed by the club and several invited guests. Mrs. Charles Colesworthy was elected president and Mrs. J. Halley, Jr., secretary for the coming year.

At the last meeting of the Woman's Club the committee on the flower show to be given by the school children later, reported that aster seeds had been bought and turned over by the committee to Professor Conklin in sufficient quantity to supply all who wished for them. The club voted to offer three prizes for the best exhibits of flowers raised by the children.

Mrs. T. C. Taylor, Mrs. Guernsey, Mrs. C. S. Jackson were appointed a committee or prizes to be given, and will report at the next meeting.

A committee was also appointed to correspond with Dr. Bard, of Walla Walla, to see if his services could be secured to give his lecture on "Ideals of Life," at the next meeting of the club. If Dr. Bard gives a favorable answer due notice will be given to the public.

A large package of Lewis and Clark exposition leaflets has been received by Mrs. C. B. Wade to be distributed in Umatilla county. These will gladly be supplied to any one having correspondents in other states. They are of a size suitable to be sent in a letter.

Hundreds have already been sent out through the agency of the state federations. Mrs. Wade will send them to the president of the Massachusetts Federation to be distributed at the federation convention to be held this month, and to all of the succeeding conventions during the year.

The Friday Afternoon Club, of Athena, will give an "Oregon Day," near the middle of this month, to which Pendleton club women are invited. It is hoped that quite a number may be able to go.

The Athena clubs are quite interested in the Lewis and Clark work, and will distribute leaflets for their first work. They are already planning for exhibits of women's work in the fruit canning and jelly lines.

Mr. Boyd, of the Athena Press, has also offered the use of his columns for any matter the committee for Umatilla county may wish to publish.

We have heard of a Willamette valley newspaper man that charged \$5 to give an account of a Lewis and Clark Club meeting in his town. It has often been remarked that there is a great difference between Eastern and Western Oregon methods, and this is ample proof. A public-spirited press makes a public-spirited community, and that is what makes Eastern Oregon towns different in many ways from the mossy valley burghs. Pendleton, Athena, La Grange, Union and Baker City papers have given most generously of their space to women's clubs and their work for many years.

BASIL BUSHMAN IN CUSTODY.

Charged With Stealing a Horse From Peter Shallal.

Sheriff T. D. Taylor went to Portland today after Basil Bushman, held there upon complaint of Peter Shallal for larceny.

On Friday last Bushman borrowed a horse of Shallal, which the latter valued at \$40, alleging that he wished to hunt some horses strayed from his land. During the day Bushman sold the horse to A. McMasters for \$20, and took the first train to Portland. In the meantime Shallal had discovered the theft and informed the police. A description was wired to Portland and the fugitive was arrested as he got off the train at that city. He will be brought back to Pendleton for trial.

On a Visit to Spokane.

E. D. Weaver, of the East Oregonian typographical force, accompanied by Mrs. Weaver and daughter, Gwendolin, left for Spokane and Colfax Sunday, for a month's visit.

SCOURING MILLS

STARTED THIS MORNING FOR SEASON'S RUN.

Over a Million Pounds of Wool in the Warehouse Now—Four Carloads a Day Coming.

The Pendleton Wool Scouring mills started work this morning with 13 men from San Francisco at the scouring tables. By Thursday morning the scouring machines will be ready to run and when they start the working force will be increased to 25 men.

The first of next week a night force will be put on and the mills will be run night and day for the rest of the season, carrying a payroll of about 50 men and boys.

The mill had on hand when it started 1,125,000 pounds of wool, and more is coming in at the rate of about four car loads a day.

Last season the mills scoured 3,500,000 pounds of wool and graded about 750,000 pounds of the amount scoured. What the mill will do this season is not yet certain; it may have a greater run than last year, or it may have a less. The price of wool governs the run of the mills to a great extent. If wool is cheap and easily gotten the run will be greater; if the market is tight the run will be lighter.

Most of the output from the mill is shipped to Hartford, Conn., direct. In fact, nearly all of the total amount goes East, for the wool the Pendleton mill uses is not a drop in the bucket compared with the entire product of the year's work. Some wool last year was shipped to Oregon City, but it was a small amount.

The Pendleton concern has virtual control of the local wool market, as they can more easily handle the sandy wool of this part of the country, paying higher prices to the growers and still make a living profit, than can the outside mills.

HOTEL PENDLETON OPEN.

Thirty-five Well Furnished Rooms Now Ready for Occupancy.

Hotel Pendleton will have 35 rooms ready for occupancy this evening and hope to have as many as 40 or 45 by tomorrow evening. The management have a large force of men at work and everything is being rushed ahead as fast as possible.

When the house is once more in complete running order it will be one of the best equipped hotels on the Pacific Coast. All of the outside rooms are to be connected with telephone service and to have a fire alarm bell, and every convenience that is known to the hotel world to be included in the list of attractions of the new house.

The building has been renovated and remodeled from the top to the bottom. New carpets and new beds have been put in all over the place and the entire interior has been newly painted, plastered and papered.

The management hopes to have the dining room open for dinner tomorrow afternoon and it may be possible that it will open at noon.

As fast as the force at work can put things to rights the hotel will be pleased to receive the patronage of all of its old friends and all the members of the traveling public who are in the city. It will assure them the best of treatment and every consideration.

SOUTHERN OREGON FRUIT.

More Spraying Done This Year Than Ever Before.

A. H. Carson, member of the state board of horticulture from the Southern Oregon district, recently submitted a report, from which the following extracts are taken:

Spraying has been done to a greater extent than any former year, as orchardmen of all classes now realize that their success, if they grow clean fruit that can be sold in the market, it must be sprayed carefully.

Gasoline power to run spray pumps in this district is increasing rapidly. Fruit men find gasoline power much cheaper than labor on the spray pumps, as well as more effective. There are 50 gasoline engines in use in Josephine county alone.

"About 1,200 acres of new orchards were planted in Jackson county the past winter, the apple leading all other varieties of fruit in acreage."
