STRIKE SPREADING IN OMAHA TO OTHER TRADES.

Business Men in Omaha Ask Governor to Order Out Troops, But He Refuses-New Wage Scale Will Be Considered Tomorrow.

Chicago, May 6.- The first sign of a break in the laundry workers' strike which has inconvenienced a greater number of citizens than any Chicago strike in recent years, came today when it was announced that a number of dissatisfied small laundry owners had decided to sign the union's demands and co-operate with the strikers in establishing large co-op-erative plants. Despite the refusal of the laundry machine makers to sell the strikers machinery the unions have secured options on enough second-hand machinery to start a number of plants. Hotels and restaurants, are in utter despair today, Many are entirely out of clean linen, the pat-rons getting no napkins. Clean sheets are nothing but a memory,

Omaha Asks for Troops.

Omahn, May 6.—Appeals have been made by the business men to the governor for troops to aid in suppressing the labor troubles here, but the executive stands firm in his declination to dispatch militia until the state of the public peace demands it. Employers fixed today as the time to break the strike and the refusal of the governor to send troops it is feared will give union teamsters courage to repeat acts of violence.

Wells Gets Street Sprinkling.

The bids for the sprinking of streets were opened and W. S. Wells was found to be the only bidder. He offered to do the work at \$120 a month per team, and the council ordered the bid accepted. This will bring the expense of the street sprinkling about \$490 above the bill of last year, but in view of the fact of last year, but in view of the fact that feed and labor are both higher, the council considered the bid reasonable.
