GEN. MILES' REPORT

HAS BEEN HELD UP FOR THREE MONTHS.

Administration Afraid to Let the Truth About the Islands be Known—Civilian Reports Branded as Political Capital.

Washington, May 8.—The report of General Miles regarding his personal observations in the Philippines, though presented to the war department in February last, has just been given to the public.

There is always much official reluctance at Washington to let the people know anything satisfactory regarding conditions in the Philippines.

When a civilian writes accusing officers or privates in the United States army of cruelties or inhumanity in the Philippines, a chorus of indignation arises from the imperialists who swiftly convict the accuser of an unpatriotic intention to "smirch" the fair fame of the American army. But no one will have the hardihood to say that the commanding general of the army, in the report above mentioned, was actuated by bad motives in relating numerous instances of torture and atrocities brought to his attention in the islands.

The first part of the report of General Miles indicates that the climate of the Philippines is decidedly bad for white men. He says troops which go there in the best of health and the prime of manhood are seriously affected by two or three years' service; that very few escape bad consequences and the majority are debilitated. In November last he found 17,574 troops on duty and 1515 sick. This army of occupation was scattered through 122 stations, nearly all of them remote, so that the service, he says, is depressing and demoralizing.

WOMEN'S SYMPATHY

Is Proverbial—Pendleton Women No Exception.

How much we owe to the sympathetic side of womankind! When others suffer they cheerfully lend a helping hand. They tell you the means which brought relief to them that they may profit by their experience. Read the testimony given here by a Pendleton woman.

Mrs. L. Hodson, of 717 Aura street, says: "While my kidneys have never caused me any trouble which made itself apparent in the kidneys themselves nor in the secretions, I have been bothered more or less by an aching across the small of my back, then down and through my kidneys. When I caught cold it hurt me across my loins and made me feel lame and sore. I got a box of Doan's Kidney Pills at the Brock & McComas Co. drug store and used them. While I did not take them according to directions, being a poor hand to dose myself with medicines at all, they benefited me in every way, making my back stronger, and toning up my whole system."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take no other.

See Doom of Small Colleges.

Chicago, Ill., May 8.—Representatives of nearly 100 colleges and universities throughout the country are attending the conference which opened at Northwestern University today to consider the relation of the college to the professional school. The conference arises from the general fear expressed among leading educators that the expansion of the American high schools and of the professional schools will ultimately destroy the usefulness of the college as a preparatory school for the professions. The conference will endeavor to agree upon some method of co-operation between the independent college and the university professional schools or independent professional schools, by which mutual recognition of work done in the respective institutions may be secured, thus insuring to the independent college equal privileges in this regard with the university college.
