TURKESTAN ALFALFA.

New Variety for This Country, But Apparently a Success.

Thomas Gahagan has at his office in the Bently, Hartman Abstract building, a sample of Turkestan alfalfa, grown without the aid of irrigation, on the top of a hill above the penitentiary at Walla Walla. The sample Mr. Gahagan has is fully two and a half feet tall and is not yet fully grown. It differs from the common species of alfalfa in that the top root is shorter and does not go to such depths in the earth. It was grown on the crown of the hill and in the common white soil of the Walla Walla country.

The owner mowed 90 tons from 40 acres last year and got a second crop for seed. This year the first crop will be allowed to seed. If the alfalfa will grow on top of the Walla Walla hills, Mr. Gahagan thinks it ought to flourish all over the Umatilla valley.

FREEWATER TIMES SOLD.

F. R. Fuller, of Pendleton, Will Take Charge Tomorrow.

Frank R. Fuller, who has occupied the position of foreman of the East Oregonian mechanical department for several months, will take charge of the Freewater Times tomorrow. While the deal for the plant is not yet closed Mr. Fuller goes to Freewater with the expectation of becoming owner of the paper within a few weeks.
He is a steady, capable man and the people of that thriving little city can rest assured that he will give them all the news all the time in a most readable form. The best wishes of a host of Pendleton friends, including the entire East Oregonian force goes with him in his new field.

BASEBALL CHANGES.

Jimmy Cox and A. Lindberg Will Join Pendleton's Team Soon.

Manager Brown has received word that Jimmy Cox and A. Lindberg will join the Pendleton team before the Dayton trip on Thursday next. Jimmy Cox is well known to the local fans, and Lindberg is a steady player and a fast man, so it is said. Marcus, the left-wheeler, will also go with the boys when they go up against the Dayton lads, and pitch a few crooked ones over the plate to fool the Daytonites. The Indians will be in a little better condition to take scalps in the coming series than at any time this season.

SPECIAL LEAVES AT NOON.

O. R. & N. Changes Time of Departure of Roosevelt Special.

The O. R. & N. has kindly consented to change the time of departure of the Roosevelt special on May 25, from 10 a. m. as advertised, to 12 o'clock noon, in order to accommodate the business men and workmen who could not stay all day away from town. There will be at least an increase of 30 per cent in the attendance from Pendleton on account of this change of schedule. Those who wish to go early and see the forenoon ball game can leave here on No. 8, at 8:15.

Passenger Engine Breaks Down.

Engine 402, on No. 5, the west-bound passenger train, blew out a high pressure cylinder head near Bingham Springs, this morning, and the train was delayed in Pendleton an hour. The passengers took breakfast here while the engine was being repaired, and the train left at 8 o'clock.

BEFORE HIZZONER.

Busy Day and Flush Times in the Police Court.

Judge Fitz Gerald had a busy day today. Many men of many colors were out to celebrate on Saturday and Sunday and their paths led to the city jail, much to the enrichment of the treasury and the employment of the police.

J. Williams, an Indian, was fined \$5 for drunkenness and paid his fine.

John Doe, another Indian, forfeited \$5 bail. He had imbibed too much firewater.

Frank Stone was fined \$10 for carrying concealed weapons, and was also taxed \$5 for being drunk.

William Hickey was fined \$10 for disorderly conduct and forfeited his bail.

John Williams was released under \$10 bail on a charge of disorderly conduct, and his trial was set for Tuesday at 10 o'clock. Williams is the proud possessor of a team of mules, and Saturday evening after having taken on a small jag, started to drive them over the town and over anyone else who chanced to be in his way. He was taken in tow by the police and lodged in jail, much to the interest of a crowd of spectators. Hickey was in this crowd and was arrested for causing a disturbance while the arrest was being made.

Bud Martin, one of the colored boys employed at Patton's shaving parlors, was arrested Sunday for being implicated in the window-breaking contest on Cottonwood street last Friday. His trial was set for 2 o'clock this afternoon, and his bail was fixed at \$10.

AT THE CAMP MEETING.

Interesting Sessions and Increasing Attendance.

The first Sunday at the camp was well filled with interesting services. The campers accepted the weather conditions with good grace and little complaint is heard.

At 9 a. m. yesterday the second session of the conference convened.

After the roll call and seating of delegates, the hour was given to a report from the Spokane Sanitarium.

This report showed the institution to be in a prosperous financial standing, while its medical and spiritual influence are expanding in due proportion.

Elder Burg, president of the West Oregon conference, preached at 11 a. m. His theme was, "God's Glorious Purpose Concerning His People."

It is noticeable in all these discourses that the speakers confine themselves strictly to the Bible as the basis of every subject.

Professor Prescott began at 3 p. m. a Bible study upon the "Sanctuary as Related to the Gospel." Friends from the city formed a fair proportion of the afternoon audience, and were heard to express their appreciation of the clear and forcible way in which the subject was presented.

The daily Bible study at 2:30 p. m. is a prominent feature of the meeting, and all Bible students would find profit in attendance.

"The Unchanging Law of Love" was the theme of Elder Snyder's discourse in the evening.

Today the conference passed resolutions intended to strengthen the educational and health institutions within her borders, whose special work is the training of missionaries for all lands.

Pair of Twin Colts.

Herman Kruger, of the Pendleton Electric Light and Power Company, is the proud possessor of a mare, and the mare is, since Saturday evening, the proud possessor of twins. Mr. Kruger is very proud of his team of little colts and has great hopes of raising them. At the present time they are as sprightly and bright as any colt, and show perfect vitality. Mr. Kruger has not as yet bought the buggy to which he will hitch his twin team, but is thinking of sending for a few catalogues.

Miss Jenkins Returns to New England

Miss Bessie E. Jenkins left on last night's east-bound train for Portland, Me., where she will be married to Mr. Charles L. Sawyer, of Boston. Miss Jenkins has made many friends in Pendleton during her stay here, and carried to her distant new home the best wishes of all.

Strawberry Picking Begins.

The first strawberry picking of the season in Umatilla county will begin in the Freewater neighborhood tomorrow. The berries are exceptionally large and the crop is good.

Marriage Notice.

On Sunday, May 10, at 10 o'clock a. m., Professor D. Lynn Gubser and Miss Rena Stoutenburg were united in marriage by Rev. Robert J. Diven, at the Presbyterian parsonage.

BRIEF NEWS NOTES.

L. W. Reed, of Bingham Springs, is the guest of the Hotel St. George.

Don't forget the camp meeting. Notwithstanding high winds, people are quite comfortable within the walls of the pavilion. Services at 2:30 and 7:45 p. m. every day this week.

The Palace Cafe, on Court street, has just been refitted. Heretofore the principal feature has been their quick lunch department, but they are now well prepared to serve regular meals.

TO SETTLE THE COUNTRY.

C. M. Pierce, of Weston, Says the Population Should Be Doubled.

C. M. Pierce is in town en route to Weston. He has just returned from Hot Lake much improved in health. Mr. Pierce is manager of the Weston Real Estate Association. He says that he finds homeseekers are going to Walla Walla and other Washington localities. Weston and other points in Umatilla county could direct a considerable portion of this stream of homeseekers by properly presenting her natural advantages. Few of those who are coming west have ever heard of Umatilla county. What is needed is judicious advertising. He says that farm lands near Weston have not materially advanced in value during the past several years. He knows of but one Eastern emigrant who has settled there of late. "Why," said Mr. Pierce, "we are in the rain belt at Weston. Our elevation is 1,800 feet. If we had properly advertised our resources and kept them before the public there is no reason why we should not double our population within a few years. Do you know that crops have never failed at Weston? We can raise 30 to 40 bushels of corn to the acre there. All that is needed is to let the Eastern public know of Umatilla county's merits and we will soon see the country settled up."

WILL TAKE A VACATION.

All the Members of a Pendleton Business Firm Quit Business for Four Months.

The butcher shop of Schwartz & Greulich, closed its doors today for four months while the four members of the firm take a much needed vacation. The present firm was organized in 1891 by H. W. Schwartz, Frank J. Greulich, John F. Greulich, and Chas. Greulich, and since that time the boys have not had a satisfactory vacation. If away for a month or six weeks they continually had their minds on their business and could not enjoy their rest.

Now they have decided to simply "shut up shop" for a time in order to get a complete rest. The four members of the firm will visit the Sound country and California, or wherever their fancy leads. The place of business will be open again about the middle of September, when the many patrons of the place will find the same accommodating firm as of old, ready to serve them.

TO COLONIZE ARID LANDS.

Union County Man Has a Gigantic Enterprise on Hand.

Dr. George O'Connor, who was formerly a practicing physician of good standing at Cornucopia, but who for the past two years has been looking after the settlement of Eastern people upon Eastern Oregon farming lands, is located at the town of North Powder, from which point he is carrying out his colonization scheme, says the Baker City Democrat.

It is understood that the doctor has listed about 38,000 acres of land for the most part situated in the North Powder section, the balance in Eagle and Pine valley and upon these lands he has arranged to settle a family upon every 160 acres.

Dr. O'Connor expects, so it is said, the highest state of cultivation in his colony to arrive here in June.

All these lands are susceptible to grain or alfalfa, and the colonists will not be subject to disappointment when they arrive here.

DYMENT'S NEW POSITION.

Severs Connection With Spokesman-Review to Work for Walla Walla Union.

Colin V. Dymont, who has been correspondent for the Spokesman-Review in the Pendleton, Walla Walla and Eastern Oregon district for the past six months, has resigned his position to accept a situation as night editor on the Walla Walla Union.

Mr. Dymont has made the Blue Mountain news in the Spokesman-Review an interesting feature, and has been very active in gathering and reporting accurately all the news in the entire mountain country during his term of service.

He will move his family to Walla Walla and assume the duties of his new position about June 1.

Allie M. Snyder, of Wallace, Idaho, will take the position resigned by Mr. Dymont.

Suit for Commission on a Land Sale.

The case of Earnart vs. Kennedy, a civil suit brought to recover commission on a real estate transfer, was tried this afternoon before Judge Fitz Gerald. The plaintiff sought to recover 5 per cent commission on the sale of a piece of land belonging to the defendant. The plaintiff alleged that he sold the land for \$1,000, according to an agreement, and the defendant answered that plaintiff was not authorized to sell the land for \$1,000 at any commission. The case is under discussion and the court will probably give his decision tomorrow.

Underwood a Good Machine.

Through the courtesy of John S. Kees, the local agent of the Underwood visible work typewriter, the East Oregonian office has had the use of an Underwood machine for the past few days, and finds it to be a very satisfactory and convenient machine in every way.
