THE DEWEY ESTATE

LEFT OVER TWO MILLION IN MINES AND MONEY.

Palace Hotel at Nampa Will Be Run on Present Plans—Thunder Mountain to Be Developed as Was Intended by Dead Man.

"I will carry out my father's plans. I know his wishes in regard to all his enterprises, completed and uncompleted, and it will be a pleasure to me to observe them. I have been raised in Idaho and love the state as he loved it, and his work of upbuilding shall continue as far as lies in my ability to perform."

These generous and noble words were uttered by E. H. Dewey to a Nampa Leader reporter, and if there were any fears entertained as regards the continuance of the colonel's work, these words of his son will allay them. As is known, he has been left sole trustee of his father's immense estate, with power to bond, sell, mortgage and do anything that his judgment may deem wise and expedient for the best interests of the property and heirs.

The estate consisted of property in Buffalo and Tonawanda to the value of \$40,000 or over; of mining interests in Owyhee, Custer, Shoshone and Idaho counties of immense value and easily converted into money if so desired; of large property interests in Nampa, including the hotel, and same in Owyhee county, all figuring up very close to \$2,000,000 is disposed of at the present time, being more than all estimates hitherto published. Mr. Dewey stated that the hotel, would continue to be run on its present plan, which guarantees Nampa the finest hotel in Idaho for many years to come. As soon as immediate business here can be attended to he will go East to perfect his plans for the extension of the Idaho Northern, but does not expect to begin work on this extension until fall, owing to the difficulty in getting suitable labor during the summer months, but he expects his trains to be running to Horseshoe Bend by early spring of next year.

In regard to Thunder Mountain, Mr. Dewey stated that he expected Mr. Barnsdall here shortly to make arrangements for development work in their mines in that district. At least a portion of the big 100-stamp mill would be taken in as soon as the wagon road would permit, and probably all of it, but said that his company was now figuring on establishing a new cyanide process for saving the gold, which might be adopted, as it offered prospects for a much greater saving.

Change in Time of President's Special Train.

On request of various business people of the city, the O. R. & N. Co. has changed the time of the special train leaving Pendleton May 25th for Walla Walla to leave Pendleton at 12 o'clock, noon, instead of 10 a. m., as advertised heretofore. Make a note of this and bear in mind the special train leaves at 12 o'clock noon. This change in time no doubt will be appreciated by the business people, and public generally, as it will only be necessary to be absent from the city one half day in order to make the trip to Walla Walla. Those desiring to leave earlier in the day can do so by using the regular train at 8:15 a. m.
