### DROWNED AT WALLA WALLA.

Son of Professor Schnepfer Meets With Fatal Accident at College Place.

Walla Walla, May 25.—Hugo Schnepfer, 14-year-old son of Hugo Schnepfer, professor of German and a member of the faculty of the Walla Walla college, was drowned before the eyes of several companions in Garrison creek yesterday afternoon at a point several hundred yards south of College Place.

The pool was about 10 feet deep, and neighbors who were immediately summoned had considerable difficulty in raising the body to the surface. Dr. Stiles was called from town and made an effort to resuscitate the lad.

The boy's parents were at Pendleton at the time of the drowning, returning home last night. No funeral arrangements as yet have been made. Coroner Smith was undecided this afternoon whether to hold an inquest or not.

### Parasites Cause All Hair Troubles.

Nine-tenths of the diseases of the scalp and hair are caused by parasite germs. The importance of this discovery by Professor Unna of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff, because they do not, and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into little scales called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing, making the hair glossy and soft as silk.

Sold by leading druggists. Send the stamps for sample to the Herpicide Co., Detroit, Mich.

### WOMEN'S SYMPATHY Is Proverbial—Pendleton Women No Exception.

How much we owe to the sympathetic side of womankind! When others suffer they cheerfully lend a helping hand. They tell you the means which brought relief to them that they may profit by their experience. Read the testimony given here by a Pendleton woman.

Mrs. L. Hodson, of 717 Aura street, says: "While my kidneys have never caused me any trouble which made itself apparent in the kidneys themselves not in the secretions, I have been bothered more or less by an aching across the small of my back, then down and through my kidneys. When I caught cold it hurt me across my loins and made me feel lame and sore. I got a box of Doan's Kidney Pills at the Brock & McComas Co. drug store and used them. While I did not take them according to directions, being a poor hand to dose myself with medicines at all, they benefited me in every way, making my back stronger, and toning up my whole system."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

## RAILROAD TO BURNS

LINE FROM SUMPTER MAY EXTEND SOUTH.

Major Bonta, of Philadelphia, Has Two Parties of Surveyors in the Field—Bonds for New Corporation Floated in the East.

E. E. Cleaver, auditor of the Standard Consolidated Company of Quartzburg, and E. A. Hutchins, mining and electrical engineer, in the employ of Major J. W. Bonta of Philadelphia, were in the city last Friday on business, says the Grant County News.

Mr. Hutchins was contracting for supplies for a third crew of surveyors to be put in the field this week, for the purpose of rushing the work of survey on the electric road from Baker City to Prairie City. Two crews have been in the field for several weeks, but as the survey had to be completed by a certain date, it was necessary to secure the services of a third crew.

The bonds of the company, amounting to \$2,000,000 were floated in the East by Major Bonta last winter. It is reported that Sumpter capitalists offered to take up \$250,000 of the bonds after Major Bonta's return, but the money having already been raised, the offer was refused. Although the objective point of the electric road is Prairie City, it is thought that it will eventually be extended to Burns. A delegation of business men from Burns has been selected to consult with Major Bonta in regard to the extension of the line to Burns.

Engineer Hutchins stated to a News representative that on January 1, 1904, the road would be completed to Prairie City. The rails have been ordered in Europe and will arrive in Portland on the first of August. It was necessary to place this order in Europe as the factories in this country could not supply them for at least two years. All of the rolling stock has been ordered in the East and will arrive here during the month of August.

Major Bonta's company own the Oregon Wonder and Will Cleaver group of claims on Strawberry mountain.

### SWINDLER HELD.

Bogus Government Agent in the Toils of the Law.

Baker City, May 25.—E. W. Bates, U. S. G., the bogus government agent, was bound over for trial by Judge Fravillon yesterday in bonds of \$500. In default of the security Bates remains in jail.

Instances where Bates secured money from people on various fraudulent pretenses continue to be disclosed. His principal graft in this vicinity appears to have been to promise men jobs on survey parties and then borrow money from them.
