Notice to Tax Payers.

You can save the county expense by calling at the assessor's office to give in your personal and city property. So many have employment away from home during the day that it is extremely difficult to find them. In order to see such persons and adjust their assessments the assessor will not only remain in his office during regular office hours, but will, for two weeks, keep his office open in the evening from 7 to 9 o'clock. You are earnestly invited to call soon and go over your valuations with the a sessor personally.

MRS. SEARS. OF SUMPTER. ADDS TO PASSENGER LIST.

Bouncing Boy First Sees Light of Day on O. R. & N. Train, Going 40 Miles an Hour-Conductor Would Not Repeat Experience.

No. 5, the west-bound local passenger train which left Pendleton Wed-nesday morning on time, was doomed to experience a greater novelty than that of being once more on

time, before reaching Portland, The train left Pendleton in charge of Conductor Maher, and in taking up his tickets he noticed nothing unusual among the passengers and was congratulating himself on the the smooth running trip that had fallen

But while counting his tickets and checking them up, near Troutuale, the train speeding along 40 miles an hour, within 30 minutes of Portland. an elderly gentleman who proved to be a doctor, informed him that a woman, Mrs. Sears, of Sumpter, in the chair car, was in a delicate situation and would undoubtedly add another passenger to his list before reaching Portland.

The conductor was at first horror struck. It was too near the end of the run to allow such an annoying thing to happen. Beside this, No. 5 was on time once, and he would not stop and lose five minutes arguing the case with the woman, for a month's salary.

At first he swore vengeance of Conductor Nash, who turned the wo man over to him in this condition, at the end of his run at Pendleton Then he softened again and thought Mr Nash was not to blame. His first thought was to ask Jim Randall, the engineer what to do, as he always did on all previous perplexing occa-sions. But he happened to think that Jim was always out on the road when such things happened at home and his wife attended to them, so Jim would not know.

He then determined to put on a front and ask the woman to wait till she got to Portland; she had waited this long, she could cer-

tainly put it off 25 minutes longer. While he was frantically wonder While he was frantically wonder-ing what to do, things were happen-ing over in the chair car, and by the time he had resolved to make the best of it. a 10-pound bouncing boy had been added to his passenger list and his bosom swelled with pride to think of the good luck of the youngwho might have been born in ster. the North Powder desert, had it not been for the fact that his train was on time.

His feeling of enmity toward the little woman who had caused the trouble was swept away. He admired her for her judgment, as she had evidently intended to reach Portland ed, and had only missed her guess by 20 minutes, a feat which even an O. R. & N. conductor could complish.

The mother and child were made as comfortable as possible and the embarrassing occurrence had been handled so gracefully that all the passengers present assured the conductor that if they should be called upon to go through a like experience they would not hesitate to entrust their case to an O. R. & N. passenger conductor.

Cavairy Horses Purchased.

As advertised in the local press, Government Contractor was in the city yesterday to examine and purchase horses for the United States cavalry service and is well pleased with the result of the sale day at this city. About 60 per cent of the horses offered for sale were purchased at good figures, and Mr. Metzger and the gover left last night for La Grande, where they will meet the horsemen of that locality tomorrow. Mr. Metzger expects to return to Pendieton in about 10 days and leaves Zoeth Houser as his agent here, to whom inquiries concerning cavairy stock may be addressed

INDIANS NOT WANTED.

Hood River Berry Men Bar Out Red Men as Pickers.

Hood River, May 29.-For the Warm Spring squaws have been the chief pickers in the world-famous Hood River strawberry crops, but this year Indians will not be allowed in the fields

All winter the Warm Spring Indians have had the smallpox among them, and while the virulent form has practically disappeared, the disease still exists among them in a light form, and many of the squaws work without cessation, while sporting a full blossomed case of smallpox, in this mild form.

The fruitmen recognize this state of affairs and will bar out all Indian pickers and if necessary quarantine against the tribe. This will be tine against the tribe. This wi a severe blow to the Indians, their chief source of revenue is the work afforded by the Hood River berry patches, and when they are shut out there, certain want stares them in the face.

Another Version.

A boy stood on the quarter-deck And spied a ten-inch gun. Which, barren of the slightest speck.

Was glittering in the sun. With curious eager eyes the boy Into the gun did peep, And then he clambered in—oh, joy And soon was fast asleep. For target practice came along

Five joily tars, oh, ho! And with a mighty boomty-bon, The ten-inch gun let go! Now in the town of Aintohum

Russell Sage's Jest.

Only on high occasions does Mr. Sage permit himself to jest. Ordi-narily his habit is what the late Joseph Cook made so much of as the "soul's laughter at itself." But when he can get a dig in at the expense of a great nabob of the financial world, he does so in the most sar-

His chance came last week with the departure of Mr. Morgan for Europe, which—as readers of real estate news will recall—had been pre-ceded by the announcement that ar. Morgan had sold his "troublesome Park Avenue flats. Thus spake

Uncle Russell; "So Morgan has gone, eh? And he has disposed of his interests in those Park Avenue flats. Well, 1 don't know about the flats on Park Avenue, I'll bet you a doughnut against a double-eagle that he has not parted with his interest in the flats on Wall street."—New York Mail and

CHRONIC SORES

Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, solves, soaps and powders is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health.

If you have a chronic sore write us. No charge for medical advice.
