NOTES FROM ECHO

ECHO IS UP TO DATE ON
IRRIGATION ISSUES.

Will Send a Full Delegation to the State Convention at Baker City, June 5—Preparations Being Made for a Big Alfalfa Harvest.

Echo, June 1—A refreshing shower fell here last night, which was of material benefit.

Citizens' Association.

Chairman L. A. Osteb has called a meeting of the Citizens' Association for Friday evening, June 5, at 7:30 o'clock, at his office for the purpose of discussing the advisability of sending a delegation to represent the interests of the association at the semi-annual irrigation convention to be held at Baker City in this month.

Other matters of importance will come up also for the consideration of the association at this meeting. Echo will surely send a full delegation to the irrigation association meeting, as no doubt very important matters will come before it.

R. B. Stanfield and daughter returned from Pendleton this morning, where Mr. Stanfield has been working on the assessment rolls for the past week, and where the daughter has been attending school.

Farmers are making active preparations for the coming alfalfa harvest and are employing quite a number of men.

Night Operator at Huntington.

Henry D. Patterson, who has been filling the position of operator for the O. R. & N. here for the past month, in the absence of Operator C. S. Mudge left last night for Huntington where he has a position as night operator. "Harry" made quite a number of friends during his short stay here, and his accommodating ways and genial disposition promise for him a successful future.

Mrs. Gulliford came down some days ago to visit her sons here.

Dobbins Owners Busy.

Baker City, June 2.—North Powder miners are getting into the field for a busy season. The John Dobbins property, which is largely copper, and which is pronounced the most likely showing in that section, will be active soon now, as the owners are on the ground ready for work. The surface showing here is a vein defined for a long distance, with one known shoot having good values. A shaft sunk last year to a depth of 20 feet in this shoot is all in ore.

Americans Not in Danger.

Washington, June 2.—The state department today received a cablegram from Consul General McWade, at Canton, that all foreigners in Yunnan Fu are safe, thus allaying all fear that the party of American engineers for whom the gunboat Callao was sent up the West river had been assassinated.

Congress of Chemistry.

Berlin, June 2.—The Fifth International Congress of Applied Chemistry opened in Berlin today with eminent scientists in attendance from all parts of Europe and from America and Australia. The purpose of the congress, which will be in session through the remainder of the week, is to promote the scientific and economic interests of chemical work by introducing uniform standard methods and regulations throughout the world.

There are 170 militiamen on duty at Jackson, Ky., and the feudists are all lying low.

The Baker City electric plant was burned Saturday night. Loss, \$25,000.

Can anyone suppose that we would double the necessary cost of our brewing without a vital reason?

Would we spend so much on cleanliness? Would we cool the beer in plate glass rooms? Would we filter all the air that touches it? Would we age it for months? Would we sterilize every bottle?

Schlitz

We do it to attain absolute purity—to avoid the remotest possibility of germs—to make Schlitz Beer healthful.

Why accept a common beer, brewed without any of these precautions, when Schlitz Beer costs no more?

Your dealer may prefer to furnish a beer that pays a little more profit; but does it pay you to permit it? Isn't pure beer—Schlitz Beer—worth asking for?
