Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds, to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by Tallman & Co., druggists. Trial bottles free, regular size, 50c and \$1.

Driven to Desperation.

BRIGGSON ITEMS

SEVERAL CASES ILLNESS.
ONE BEING APPENDICITIS.

Will Be a Large Attendance at the Pioneer Picnic at Weston Next Week — British Columbia People Looking for a Location — Increased Attention Being Paid to Growing of Corn.

Briggson, June 1.—Grandma Hagen, who has been visiting at the Narkaus home for the past five weeks, has been quite sick. Her health has been very poor for some time. However, she seemed much improved yesterday, despite the fact that she is 71 years of age and very feeble.

Walter Farr took a load of potatoes to Pendleton yesterday, after having secured a sale for them at 75c per sack.

Charles Rose, of Weippe, Idaho, formerly a resident of this place, is visiting relatives and friends here, after an absence of several months. He reports everything flourishing in that section of the country.

R. J. Boddy has been confined to his home for the past few days with kidney trouble.

Abe Abrahamson was taken seriously ill last evening. It is feared he may have appendicitis. Medical aid was summoned, but nothing definite has been learned as yet.

Clark Killgore will move back to the Al Johnson place soon, where he will engage in cutting cord wood for George Payne.

Sam Rose's cheerful countenance once more greets friends and relatives after quite an absence.

John Blom came up from Pendleton yesterday for a few days' visit with his parents and friends.

James Killgore is moving his family from Hudson Bay to the mountains for the summer.

James Cargill, who has been attending the Adventist camp meeting at Pendleton, returned home yesterday.

Clarence Ross will drive the stage for C. W. Avery from Bingham Springs to Gibson Station the coming season, which begins about the 15th of the month.

Uncle Gus Johnson, of this place, has received word from his niece, Mrs. Anna Peterson, of Kaslo, B. C., stating they will come here to look for a location in the near future.

Quite a large acreage of corn and potatoes are being planted here this season. The corn is quite a new feature here, as the seasons were thought to be too short. However, small pieces of corn have been grown successfully for the past few years, and a good many are giving it wider attention now.

Pioneer Picnic at Weston.

Quite a number of persons from this section are making preparations to attend the Pioneer's picnic, to be held at Weston next week. As very few were able to be present at the Caledonians' picnic, which was held last week at Athena, on account of the cold, damp weather, which prevailed.

Rain and Hail Storm Sunday.

This section of the country was visited Sunday evening by quite a severe electrical storm, followed by a heavy shower of rain and hail. The rain was quite a welcome guest and the farmers looked smiling. However, the spring-sown grain is looking fine.

CATTLE MORE PLENTIFUL.

California Beeves Cheaper and in Better Condition Than Oregon Stock.

J. C. Loneragan will ship a carload of hogs to Seattle this evening, which he has bought of Rugg and McElroy. Mr. Loneragan has been in California and the south for some time, where he has been buying stock for the Seattle market. The stock there is much lower and also in better condition than the Oregon stock, owing to the early springs in that section and the bountiful supply of grass. If the cattle could be brought out of the country, they would make as good a profit as the Oregon bought cattle, with the freight added to their cost. The western market generally grades higher than the eastern at this time of year.

Mr. Loneragan will leave tomorrow for the Pomeroy country, where he has some large stock shipments to make. The stringency in the stock market seems to have passed off to some extent, as beef cattle can be now bought all around Pendleton.

Mr. Loneragan holds the reports to be greatly exaggerated concerning the heavy loss to stock in Montana. He thinks that \$300,000 will cover all the loss of all the stock. The stock were not so badly damaged as reported. One carload of Texas cattle died on the train, but stock acclimated to Montana was not seriously hurt. It was rather a benefit than otherwise, since the cold weather killed the weakly stock and those not in good condition.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell, and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists, price 75c per bottle. Hall's Family Pills are the best.
