The various harvester companies doing business in this county have taken orders already for 34 harvesters this season, which will make over 100 of these machines in use in the county. This does not seem to bear out the tendency in certain quarters to look upon farming as the slowest of the trades or professions, for while the learned profession of law can do no better than turn back the book of time 100 years or so, and appeal to Blackstone for theories that so surely causes that tired feeling to steal over the average judge, and the equally learned profession of medicine still buries its patients regularly and con-sistently under the rules and doctrines of Aesculapius, farming, the most progressive profession on earth, has gont ahead by gradual stages from the grain cradle or scythe with which a man could cut five acres a day, or the walking plow, with which he could plow two acres, of 25 years ago, to the steam harvester or plow of the present day, which will harvest or plow 60 acres a day. That cheerful optimist who wrote, "Whatever is to ber", provided the present day who was the present day. is best," probably never owned a wheat crop over which cold dry winds had blown for three months straight.
