LABOR CONVENTION

WESTERN FEDERATION OF MINERS AT DENVER.

New Rules Adopted—Resolutions In-dorsing Socialism Are Agreed Upon—Stronger Support Voted to the Official Journal.

Denver, June 6.—After a warm debate, the convention of the Western Federation of Miners today reaffirmed its former declaration for socialism, by adopting the following resolutions: "Whereas, the natural resources of the earth, upon which humanity depends, are being swiftly concentrated into the hands of the privilege few; and,

"Whereas, political independence is a bauble and a delusion while the toiling millions bear the yoke of wage slavery on the industrial field; and,

"Whereas, no man among the vast army of laboring humanity can successfully assert his manhood while his necessities make him a suppliant at the foot of another for a job which he must have to sustain life; and,

"Whereas, the privileged few who own the jobs which the many must have must necessarily own the man; and,

"Whereas, capitalism can never be dethroned and wage slavery abolished until the natural resources of the earth and the machinery of production and distribution shall be taken from the hands of the few by the political power of the many, to become the collective property of all mankind, to be utilized for the use and benefit of all humanity; and,

"Whereas, the socialist party is the only political party in any nation of the world that demands that the land and the machinery of production shall become the common property of all, and that labor shall receive the full product of its toil; now, therefore, be it

Resolved, That the delegates of the Western Federation of Miners, in their 11th annual convention re-assembled, reaffirm the political policy of the 19th annual convention, believing that the principles enunciated by the socialist party will make the noblest 'work of God,' woman the queen of the home, and the child the bud and blossom of an emancipated generation."

The resolutions were adopted by a vote of 125 to 20. The convention adopted a resolution condemning the employment of child labor in mines, and limiting membership in the unions to persons over 16 years old. This affects coal mines especially. The convention concurred in a resolution from the Butte Stationary Engineers' Union condemning the American Federation of Labor for organizing a dual union there.

Union cards as a means of identification were abolished. Only dues books will be used, bearing the stamps that show standing and length of membership.

A fund of \$250 was turned over to the delegate of the Miners' Union at La Jarpe, Kan., to be dispensed in relieving flood sufferers.

A loan of \$27,000 was made to the Union at Sanden, B. C., for purchasing furniture for its hospital.

A telegram was received from Searchlight, giving notice that the miners there, numbering 400, refused to accept a cut in wages which the operators had joined hands to enforce when the new eight-hour law goes into effect June 31. This strike will involve 3,000 to 4,000 men.

A new code of signals, calculated to lessen the risk of accidents, was adopted, and will be put in use in all mines in the West.

The convention sanctioned the demand of Anaconda, Mont., smeltermen for higher wages.

The convention late today voted to increase the per capita tax 4 cents per month for the support of the American Labor Union Journal, a copy of which is to be sent to each member.

A committee of 17 members was named to draft a new constitution and report at this convention. In order to make this possible, the time of the convention was extended one week. A new constitution is made necessary by the rapid growth of the organization and its extension over a greatly enlarged territory. When the present constitution was adopted the organization had 18,000 members, while now it has 200,000, an increase of 100,000 within the last year. It now takes in many classes of labor not provided for in the old constitution.

GRAZING PERMITS.

Southern Division of Cascade Forest Reserve is Full of Sheep.

The secretary of the interior has just completed the examination of applications for grazing privileges on the southern division of the Cascade forest reserve, and has granted permits to 38 sheep owners.

The number of sheep included in the permits is 103,000 and according to older experienced stockmen this is a greater number than the area will support properly, during the grazing season.

With this year's increase added to the Crook and Lake county flocks, there is a scarcity of open range that will be keenly felt this season.
