

AND QUEEN MURDERED

In The Throes Of A Military Revolution.

Zinzar, the Queen's Brother and Sister and Twelve of the Guard Are Also Killed.

King and Queen of Serbia, prime minister, and sister of the queen were murdered in the revolutionists in the palace at Belgrade, last night.

June 11.—A Belgrade, Serbia states that a revolution broke out at 2 o'clock this morning.

Dispatch from Cologne to agency, says a private Belgrade states that a proclamation issued by the king and queen.

June 11.—King Alexander Draga were assassinated by the military revolutionists.

party as premier. He immediately convoked the national representatives who were elected under the constitution of 1901, to meet here to arrange for the new government, and a new constitution.

Belgrade, after the assassinations, quickly returned to a state of comparative quiet. Although immense crowds gathered in the streets and discussed the news and argued right or wrong of the revolutionists' acts, there were no signs of further disturbances.

Public Indifference. The general public appears to feel no particular sorrow, but rather assumes an attitude of relief. Despite comparative quiet, however, an immense guard has been placed around the palace to preclude any further attacks.

Part of an Ancient Feud. A notable coincidence of this affair is that on this date in 1868, Alexander's great uncle was assassinated. This morning's tragedy ends an 80-year contest between the Georgevitch and Obrenovitch families.

Black Kara George, the peasant, drove the Turks out of the country and ruled from 1807 until 1817, when the Turks again got control.

All Europe Involved. Berlin, June 11.—Official information has been received that immediately after the assassination an interchange of views took place between the principal European governments.

The question is, can the powers look on passively while reigning sovereigns recognized by them and represented in their court are murdered? Also, can great monarchies tolerate proceedings utterly subversive of monarchy? The public is wondering what action the Kaiser will take.

It is possible Austrian troops will occupy Serbia in the nominal interest of public order. If so, Russia may retaliate by the occupancy of or war on the Balkan states.

Suspicious Austrians. Vienna, June 11.—Some suspicion of a Russian plot in the assassination of the Serbian monarchs is entertained in diplomatic circles here.

Alexander was born in 1876 and became king in 1889. He married Draga Machin, a widow, then aged 40, in 1900. He is the last of the Obrenovitches; in personal appearance he is similar to Roosevelt, energetic and impulsive.

The next new government proclamation is very concise and was issued last night after the king and queen were shot. It is as follows: "In this grave, fateful moment, the friends of the fatherland have combined to form a new government. It is convinced that Servians will

gather around and lend aid to maintain order and security throughout the land. The government hereby makes known that from today the constitution of 1901 comes into force."

It is also confirmed that Alexander was shot by Colonel Maschin. The corpses of the royal couple were thrown from a window in the palace. The new king will arrive here tomorrow.

Jackson, Ky., June 11.—Ewan, who is the chief witness in the Jett case, this morning told the authorities he had been offered \$5,000 as a bribe not to give testimony. He was the first witness in court today and testified he saw Jett and White together prior to the shooting. White went toward the courthouse door and turned and beckoned to Jett as Marcum came out. Rescuing is going on steadily, thousands being taken out of the flooded districts of South Broadway in East St. Louis since yesterday. Fully 1,500 more are imprisoned there, but are being removed at the rate of 100 per hour. They are being cared for at a big refuge camp on a high point of land on the rock road.

Looting Has Begun. The river current is swifter than ever before. Tugboats made vain attempts this morning to buck against it. Famine is threatened among the homeless thousands. Hundreds are in school buildings, surrounded by from 10 to 15 feet of water and without food.

LEGAL HANGING IN INDIANA. Young Man Will Pay the Penalty for Murder of His Wife.

Michigan City, Ind., June 11.—Unless Governor Durbin intervenes the execution of Ora Copenhaver, who has been under sentence of death for nearly a year, will take place in the state prison here tomorrow.

Copenhaver, who is scarcely more than of legal age, was a resident of Indianapolis and his crime was the murder of his young wife September last. Shortly before their dinner hour on the day of the tragedy Copenhaver called his wife to the door and without warning or giving her any inkling of his intent, drew a large revolver from his pocket and fired four shots at her, three of which took effect. The woman died at the hospital without regaining consciousness. Copenhaver, after shooting his wife, calmly walked to a neighboring store and telephoned to the police station, informing the desk sergeant that a murder had been committed. He then awaited the coming of the police and surrendered himself.

Jealousy was ascribed as the motive for the deed. Copenhaver was speedily tried and convicted of murder in the first degree. An appeal to the supreme court afforded no relief to the condemned man as that tribunal upheld the verdict of the lower court.

GAMBLING IS NOW A FELONY. NEW DEAL BEGAN LAST NIGHT IN WASHINGTON.

Spokane Gamblers Announced Their Intention of Staying Closed in Good Faith Awaiting Court Decisions in Test Cases. Spokane, June 11.—For the first time in 16 years the gambling houses have closed their doors in conformity with the new state law which went into effect at midnight making gambling a felony. GRAIN MARKETS. Quotations Furnished by Coe Commission Company—R. L. Boulter, Local Manager, 120 Court Street.

Minneapolis, June 11.—Wheat—In sympathy with fractionally firmer cables, the market opened firm. The government report was rather a disappointment to the bulls as it showed the condition of spring wheat to be almost perfect, while that of winter wheat has fallen several points since May 1. The report is based on the conditions prevailing June 1, while most of the damage done to winter wheat has occurred since that date, therefore the bearish interpretation by the trade is hardly warranted. We believe wheat has had break enough for the present and is a purchase.

COUNCIL MEETING. Decisive Steps Taken to Protect the Business Districts From Danger of Fire.

Restrictions Made to Govern the Style of Buildings and Character of Repairs That Can Be Made Inside the Designated Territory—Discussion of Sewer Exit—Will Enforce Ordinance Against Trash Fires.

PASSAGE OF NEW FIRE LIMIT ORDINANCE.

The council met this morning at 10:30 for the purpose of passing the fire limit ordinance. Mayor Halley called the meeting to order and Councilmen Clouton, Dickson, Johnson, Hartman, Howard and Somerville were present.

The ordinance had been prepared by City Attorney Carter and was read and passed. The fire limits are as published in yesterday evening's paper, and in addition the ordinance prescribes the kind of buildings to be erected in the area designated.

New Buildings Inside Limits. All buildings one story in height must have walls at least eight inches thick on the sides. All buildings of two stories must have walls 12 inches thick and buildings of three stories must have the first story not less than 16 inches and the second story 12 inches thick.

The roofs must be covered with tin or corrugated iron and the whole structure must be made as fireproof as possible. The walls must be constructed of stone, brick, iron or cement and no wood or combustible material shall be used where iron or steel will do as well.

No wooden building, tent or cloth-covered structure may be built, moved or repaired without permission from the council, and in case of damage by fire any such building may not be rebuilt if in the opinion of the council it is in such condition that it may be declared a nuisance, or a menace to the public safety.

Bill Amended and Allowed. The bill put in by the morning paper some time ago for printing, and disallowed because of exorbitant charges, was again considered. The management agreed to take back 500 copies of the instruments which had been wrongly printed and also to knock off \$7.50, charged for the extra work. The council therefore paid the amended bill of \$49.50 as being more reasonable.

Question of Sewer Exit. B. L. Oliver was present and again spoke for the petition presented by the residents of the lower part of the city adjacent to the exit of the proposed new sewer. The question was discussed from the standpoint of the council and the petitioners, but no action was taken in the matter. It is the opinion of the sewer committee and of the city engineer that the sewage will be no nuisance and the matter was allowed to rest as it is. If it proves to be a source of discomfort or a menace to the health of the neighborhood the council can take steps, after its completion and trial, to effect some remedy.

City Scavenger Appointed. A colored gentleman by the name of Stewart wanted to become the city scavenger and the council expressed willingness provided the gentleman aforesaid wanted to take the risk. All of Pendleton's scavengers in times past have gone to the penitentiary and it seems to be a hoodoo.

Refuse Fires Must Be Stopped. The council discussed the practice of some of the business houses and offices in setting fires of paper and other refuse in the back yards of the business district, and it was decided to enforce the ordinance against such things. The council then adjourned.

Wants a Statement From the Banks. Washington, June 11.—The comptroller of the currency this morning issued a call for a statement of the condition of the banks at the close of business Tuesday.

After a fierce fight in a car at Chicago, crowded with picketers, detectives arrested the murderers of Dr. J. B. Forbes, who was killed May 29 in a drug store by two thugs.
