### SCALP HUMOURS TO PREVENT FRAUD

NEW CODE OF PROCEDURE TO SECURE SCHOOL LAND.

Proof Must Follow Presumption of Title-State to Be Governed by Same Rules as Individuals-Proof Must Be Furnished of Non-Mineral Character-Opportunity Given for All Reasonable Contests,

Washington, June 12.-Because of the number of frauds that have been recently perpetrated in school land transactions in several western states, the secretary of the interior has issued a specific circular, directed to registers and receivers of local land offices, prescribing the manner of adjustment of the grants to the several states and territories made in character of the lands sought to be selected as indemnity selection, is involved. The regulations provide:

Presumption of Title Not Proof.

First-When a school section is identified by the government survey and no claim is at the date when the right of the state would attach, if at all, asserted thereto under the mining or other public land laws, the presumption arises that the title to the land has passed to the state. but this presumption may be overcome by the submission of a satisfac tory showing to the contrary. Appli-cations presented under the mining laws covering parts of a school sec-tion will be disposed of in the same manner as other contest cases. State Must Give Satisfactory Proof.

Second-The state shall not be permitted to make selection in lieu land within a school section alleged to be mineral in character, and for that reason excepted from its whether returned by the s surveyorgeneral as mineral or otherwise, in the absence of satisfactory proof that the land was known to be chiefly valuable for mineral at the date when the state's right thereto would have attached, if at all. The proof kind of mineral dismust show the covered upon the land and the extent thereof, when and by whom the discoveries were made, as far as practical, whether any claim to the land was asserted under the mining laws at the date when the state's right thereto attached, if at all, and so by whom, the nature and extent of the mining improvements placed upon the land by the mineral claim-ant, and what efforts have been and are being made to develop the land in good faith for mineral purposes. If, in any case, the proof does not clearly show that the base land was known to contain valuable mineral deposits and to be chiefly valuable on account of such deposits, at the date the state's right would have attached thereto, a selection in lieu thereof will not be permitted. A certificate of the proper authorities that the base lands have not been sold. encumbered or otherwise disposed of must also be furnished.

Proof of Non-Mineral Character.

Third-Where the land sought to be selected in lieu of land within a school section has been returned by the surveyor-general as mineral, notice of the proposed selection must such legislation as shall paralyze first be given by publication for 60 days, with posting in the local land

office during the same period, and satisfactory proof submitted as to the non-mineral character of the selected land. Upon compliance with this re-quirement, and in the absence of al-legation that the land is mineral, the selection may be received, if other-wise regular, certified and forwarded as required by rules

Can Only Be Secured by Contest.

Fourth-Where land sought to be elected in lieu of land within a selected in Heu of school section has not been returned by the surveyor-general as mineral but is alleged by way of protest to be mineral, or where application for patent therefor is presented under the mining laws, the proceedings in such cases will be in the nature of a contest, and will be governed by the rules of practice in force in contest

May Be Contested.

Pinth-Where land sought to be selected has not been returned as mineral but is within a township in which there is a mining location, claim or entry, publication thereof must be made, at the expense of the aid of the support of common schools state, for a period of 60 days, with where the mineral or non-mineral posting for the same period in the character of the lands sought to be district local land office, and during such period of publication the local land officers may receive protests or contests as to any of the tracts claimed to be more valuable for mining

than agricultural purpose Sixth—A determination by the land department that a portion of the smallest legal subdivision in a school section is mineral land, will place that entire subdivision in the class of lands that may be used as a basis for indemnity or lien selection.

The legal fees payable upon se lection will not be received until you are advised by this office that the lection may be admitted. In the meantime you will take no action looking to a disposal of the land.

To Forestall Further Frauds.

The foregoing regulations were brought out largely to forestall furschool land frauds in Eastern Oregon. The department became firmly convinced that indemnity selections were many times made in Oregon where the school lands relinquished were not, in fact, mineral in character, and the stringent regulations have been promulgated with a view to requiring actual proof of their mineral character before lieu selections are allowed. Furthermore, the power of the local land of-ficers has been curtailed, and the decision will hereafter be made in the department at Washington, upon the showing of facts, presented by local

OPPOSED TO MORMONISM.

Marion County W. C. T. U. Pass Anti-Polygamy Resolutions.

The Marion county convention of ie W. C. T. U. held in Woodburn the W. C. last week was well attended, every union in the county but one being represented. The reports showed greater progress and more effective work in all departments than ever before in its history. The sessions were enthusiastic and instructive. Especial mention is made of the address given by the county president. Mrs. Steele, of Turner, to ladies only on the subject, "Mormonism as I Saw It." Nearly every seat in the hall was taken and the appreciative audience went away from that meet-ing with the feeling that this evil which has been so stealthily creep-ing over our land should be met with

polygamy.

What Others Say About the Underwood

J. S. Kees, Pendleton, Oregon.

Dear Sir—Re lying to your enquiry, I beg to say that I purchased an Underwood typewriter in 1896, and it has been in continuous hard use ever

since.

I have not seen any of the new models, but this is a specimen of the work done by my machine after nearly seven years usage. I would not exchange it for any other make.

The only repairs I have had to the machine is to have the platen renewed twice during the time I have had it.

This was rendered necessary by the large amount of tabulating work, and the hard usage it was subjected to in manifolding.

Signed—Yours Truly, S. B. CALDERHEAD.

ROYAL SCANDALS.

Banishment and an Allowance for an Erring Princess,

Paris, June 12.-Finale may now be written to the long and unsavory story of the Saxon royal family scandal, which has been a choice tithit in the mouths of scandalmongers since the sensational flight of the Crown Princess Louise with the French tutor, M. Giron. According to a despatch from Vienna the Grand Duke of Tuscany went to Lindau to-day to meet his daughter and to conclude arrangements for her future. As already announced it has been de-Victorie, widow of the former Count Chamberlain, Count Chambord, has been secured for her abode

A Fortunate Princess.

The princess, everything consider-d, may count herself as fortunate in the ending of her romantic esca-pade. Other fair connections of European royal families have done less and fared worse, as for instance the unhappy princess of the same name, daughter of King Leopold of Belgium and wife of Prince Philip of Coburg. As a result of an intrigue with an Austrian army lieutenant the unfortunate princess was confined in an insane asylum by her relatives and there she still remains imprisoned, though from all reports she is perfectly sane. Numerous other cases of late years might be cited to show that many a royal scandal has ended less fortunately for the woman involved than that of Princess Louise of Tuscany.
