Ladies' **Oxfords**

the ideal Summer Shoe for \$1.

Our entire line of Ladies' Tan O.fords, \$2.00 to \$4 00 values for One Dollar.

Oxfords are essentially a summer shoe. If we don't get rid of our stock at the beginning of the season we will have to carry them over until next season and rather than do this we will sacrifice our complete line at cost and even less. They are all new goods, latest shaped toes and stylish heels in all the popular shades of tan and com-plete sizes. They are not old, shelf worn goods, but are new, bright and fresh goods, such as you seldom see on sale.

Homesick for the Willamette and Its Green Fields.

A. M. Dalrympie, the traveling representative of the Pacific Homestead of Salem, was a visitor in the city today and has gone to Heppner, where he will represent the Salem Statesman in the field there.

Mr. Dairympie has been over the

Echo country on a bicycle and has had a hard trip through the sand and sun. He sighs for the fields and flow-ers and grass of the valley, and longs for the comforting shade of the trees. He says that as soon as an all wise providence and the business of his house will allow, he will make some of the longest and tallest strides for the home of his childhood that mortal man ever made. He is homesick for his wife and the babies and the green fields far away, where man may dream the hours away in peaceful content, undisturbed by the hum of untiring industry, the wash of the deluge and the whirl of the sand. He is going home if he has to walk.

RETURNED FROM ALBERTA.

It is a Great Country, But Has No Edge on Oregon.

W. H. Hawley has returned from a where he has been for the past two weeks on a business trip. Mr. Hawweeks on a business trip. Mr. Haw-ley thinks the country there has a great future before it, for it has not great future before it, for it has not only a fine agricultural district, but is one of the best cattle countries on the continent. However, Mr. Hawley is satisfied with Pendleton for a while yet and has no thoughts of leaving this place for any other country.

O. R. & N. Booming Alfalfa.

R. C. Judson, of the O. R. A. N., was in the city last night and left was in the city last light and letter this morning for Astoria, where he has to be this evening. Mr. Judson is booming the dry land alfalfa culture, and thinks that the country around here will in time be much entabled by the residue. riched by the culture of that species of the plant. He says it is an esof the plant. He says it is an es-tablished fact that alfalfa will grow all over the hills of this vicinity, and hopes in the near future to see all of this country made green and productive by its culture.

is so worn by the water that it is al most illegible. The book was found far down the creek in a pile of debris and is the only thing that remains of the once happy home.

"What is needed now is labor and money. The people have all the sympathy that they need, for all the country is in mourning with them, but their immediate need is to take care of the dead and to provide for

those left destitute by the storm.
"The orphans and the broken families are the ones that need the first attention and after they have been made comfortable as they have been, toe first thing to do is to help straighten out the awful tangle in the business of the town and clear away
the wreck. This will take money and
labor and it is this that the people
want at the present time."
When Mr. Carter left the city at

5 o'clock yesterday evening, there had been 218 bodies taken out and identified. He does not think that th list will mount much above that fig-

Country Is Changed.

Dan Richmond and John Schmidt have returned from a trip to the scene of the Heppner horror and the report they bring back is one of terror. The houses are torn and thrown about and the whole face of the land is changed. The rails of the O. R. & N. are scattered about and twisted into all kinds of shapes and left lying in places where no one would have thought that they could be driven. Unless one has seen the thing no idea could be formed of the force of the water and the horror of the scene.

Reports Not Exaggerated.

A. F. Rugg has returned from Heppner and tells of the gruesome sight to be seen there. He says that the matter can not be painted in any blacker colors than it deserves. The conditions there are simply indescrib-able and no one can begin to tell the

Shot for Looting.

A special telegraphic dispatch from a private party at Heppner to the East Oregonian today, says that three unknown men were shot there for looting, this morning, but the Pendleton people returning from Heppner say that there was no loot-ing being done and that the bodies are being gathered up and the prop-erty closely guarded so there is no opportunity for this sort of detesta-

ble work.
The temper of the citizens there would not tolerate a looter long in their midst and the report is probably

Incorrect List of Dead.

There is so much confusion in re-ports from Heppner regarding the number and names of dead that a great deal of unnecessary worry has streat deal of unnecessary worry has been caused. The Portland papers still publish the name of T. W. Ayres, Sr., among the dead, which is incorrect. T. W. Ayres, Sr., father of T. W. Ayres, of this city, is alive and well, but J. L. Ayres, a cousin of T. W. Ayres of this city was lost. The East Overonian will applied. Oregonian will publish another list of dead tomorrow. possible. taken from the records at Heppner.

Gus La Fontaine-I am in favor of doing away with the celebration and giving all of the money and more, to Hoppner, for the people there need it

Demott—I think that we should go on with the celebration and help Heppner on the side. We have already contracted so many debts that we will have to pay, that there will be but a little of the Fourth fund left, and we have gone too far to go back. We should raise the money for the relief outside of the Fourth and have the celebration as well.

too far to retreat. We have spent lots of the fund and contracted for more, so that there would be but a little sum left to send to Heppner. We can raise far more for the relief than we can for the Fourth and we should not throw the Fourth at this late date.

Mike Gratz—I am in favor of hav-ing the celebration, for I think we can do more good by having it than by stopping now. Too much of the money has been spent to make a big sum for the relief, and it is too late to quit. I am willing to subscribe more to the Heppner fund than I did to the Fourth, but I think we can do nothing by stopping the celebration.

C. R. Dutton-I feel that the cele-bration should be called off and the money diverted to the relief fund. Swearingen Bros.—I think the celebration should be called off, for

there are too many people here who have relatives lost and it would take the life out of the celebration. I think all of the bills should be paid pro rata and a new list started necessary for the relief of the people at Heppner.

Many others of the signers could not be seen, but from this list can be read the trend of the public mind. All of the men are in favor of helping the destitute at the stricken city. and most of them want to give more than they have subscribed towards than they have subscribed towards the Fourth. The only thing that is not certain is the policy of the thing: whether it will be the best thing to have the celebration, or to call it off. Some think that it will not be the best thing to have a celebration in the face of the columity and some the face of the calamity, and some are of the opinion that it will help the people there by holding the cele-bration here. The matter will be discussed at the meeting tonight and decided after the careful consideration of those who have the thing at heart, and who know the various de tails of the work as it has been trans-acted from the first.

Ben A. Campbell, of Portland, who is the regular man on the Pocatello and Portland mail route, and who was in the wreck at Pocatello a few days ago, passed through the city last night for his home at Portland. He was badly bruised, and had to have stitches taken in his scalp as a result of the wreck. His many friends in this city will be pleased to learn that he is not seriously injured.

TO SHUT DOWN CAMPS.

Puget Sound Lumbermen Agree to Close Camps Temporarily. Seattle, June 18.—At a meeting of the Puget Sound Lumbermen's Asso-It was unanimously voted to suspend all work in every logging camp on the Sound controlled by the members until August 3. This means that more than 4,000 men will be thrown out of employment. The shutdown was brought about by the ten dency of weakness in the market for logs. The members assert that if operations were continued throughout this month and next that by August the prices would be so low that there would be no profit in the sale of logs. Hence the order to shut down, which takes effect immediately. Fully 80 per cent of the shingle mills of the Sound are already closed for the same
