IMMENSE PIPE ORGAN.

One of the Largest in the World is at Yale University.

New Haven, Conn., June 20.—In Woolsey Hall, of Yale University, one of the greatest pipe organs in the world was dedicated today to the memory of John S. Newberry, late of Detroit, Mich. The organ, which cost upward of \$25,000, is the gift of Mrs. Helen H. Newberry, who gives it in memory of her husband.

Set in the frame work of the grandly proportioned proscenium arch of the big memorial hall, with a frieze of superb beauty, and relieved by the beautiful white ornamentation of the walls and gallery, the organ stands out in splendid beauty. The instrument is 110 feet wide, 25 feet deep and 40 feet high. It is composed of a great organ, swell organ, cholororgan, solo organ, pedal organ (augmented), besides having compass, adjustable combinations and pedals, all of which are decided improvements upon instruments which up to a few years ago were considered the acme and the wonder of the organ builders' art. The organ has some of the largest scaled and heaviest weighted diapasons of any instrument constructed, and it also contains the first double-tongued reed stop ever built in this country.

A WOMAN, TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and cures baldness. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Sold by F. W. Schlot & Co.

BANNER IMMIGRATION YEAR.

More Foreigners Came to America to Live During Past Year Than in Any One Year Previous.

Washington, June 20.—The immigration to the United States, including Porto Rico, for the year ending today, is just a little above the volume of immigration in 1882 which was the "top year" in the history of this country. Although the exact figures will not be forthcoming for several days, it is reliably estimated that the total number of immigrants arriving at the 17 entry ports of this country during the 12 months amounts to nearly 785,000, or about 5,000 more than in 1882. In the month of May there landed in New York alone nearly 100,000 aliens.

Bowdoin Commencement.

Brunswick, Me., June 20.—The commencement exercises at Bowdoin college, which commences tomorrow and continue five days, will include the dedication of Hubbard Hall, the new college library building, given by General Thomas H. Hubbard, '57. Tomorrow the baccalaureate sermon will be delivered by President Hyde. The library will be dedicated Wednesday afternoon, when Gen. Hubbard will make the presentation address. The building will be accepted by Chief Justice Melville W. Fuller, who was graduated from Bowdoin in 1853.

STABBING AT PRAIRIE CITY.

Jack Turner Slashed With a Razor From Shoulder to Knee.

Blood was shed at Prairie City last night, says the Baker City Herald of Friday.

Scott Hyde took the star part in a serious cutting affray at that place, which occurred in a barber shop, and which resulted in Jack Tucker being slashed on the right side from his shoulder down to his knee.

Hyde took to the hills to escape arrest and at last reports is still a fugitive from justice.

The details of the affair have not been received.

Hyde has relatives in this city.

Tucker is said to be a man of quarrelsome temper.

The two men came together in a barber shop and after a wordy war over some matter, Hyde drew a knife and slashed Tucker, escaping to the hills.

Tucker is seriously, but not fatally injured.
