

## Ladies' Oxfords

the ideal Summer Shoe for \$1.

Our entire line of Ladies' Tan Oxfords, \$2.00 to \$4.00 values for One Dollar.

Oxfords are essentially a summer shoe. If we don't get rid of our stock at the beginning of the season we will have to carry them over until next season and rather than do this we will sacrifice our complete line at cost and even less. They are all new goods, latest shaped toes and stylish heels in all the popular shades of tan and complete sizes. They are not old, shell worn goods, but are new, bright and fresh goods, such as you seldom see on sale.

Remember, your choice of many pretty shapes and styles for ONE DOLLAR

DINDINGER WILSON & CO.

## NOW IN OPERATION

ICE ON MARKET TOMORROW BY ROSS COLD STORAGE CO.

Process of Making Ice is Very Interesting — Twenty-eight Thousand Pounds of Ice Made at One Charging of the Vats—Most of This Year's Output Will Be Sent to Walla Walla.

There is one place in the city that is as cold as the fabled icy mountains of Greenland even when the sun is smiling his warmest summer smile, and that place is the new Ross Ice & Cold Storage Plant near the depot. The engines in the big plant were started the first time about 4 o'clock on last Friday and have been running most of the time since. The temperature of the various rooms and of the big freezing tank has been gradually reduced until it is winter around the biggest part of the structure.

### One of the Largest Plants in State.

The new institution is one of the largest in the state, and when it is running to its full capacity will turn out as much ice or more than any one plant in the city of Portland. The ice room will have a normal capacity of 14 tons a day when it is running its usual rate and time, but this amount could be almost doubled under pressure.

It has nine refrigerator rooms, four of which are ready now to receive their load of goods. In fact, there is quite a consignment of everything from beer and butter to meat and fruit in the house at present time. It seems like another world to step in out of the sun and the heat into the dark and cold, where all of the pipes that line the room are covered with an inch of ice and the thermometer registers only 10 above the zero mark. But there are four of those rooms now ready, and anyone overcome with the heat of the summer sun can, by the payment of so much a pound for storage privileges, seek the cool and dusk of one of the places and snooze the time away untroubled of the heat of the outer world.

These rooms are rented by the month to the patrons of the place, who then have the privilege to store as much as the room will hold, but if they have not enough to warrant the renting of a room they can have their goods stored at so much a pound.

### Twenty Tons of Salt to Make Brine.

The ice room has a capacity of 14 tons to the day, and will begin to freeze tomorrow. The tank is a large, rectangular box made of heavy timbers and is double lined and packed between the layers. This is filled with brine, and for the first charge it takes 20 tons of salt at \$22.50 a ton to make sufficient amount of salt water to cover the freezing tank. In this brine are set 196 cans of distilled water, each holding 300 pounds, and from this water the ice is made. When the water is frozen the cans are lifted out by means of a traveling crane and put on an automatic dump. This is a carriage made to just hold one of the freezing cans, and when the can is put in it the steam is turned on around the outside of the frozen can and the mass of ice is thawed loose from the sides of the receptacle and allowed to slide out into the chute that leads to the storeroom. This storeroom has a capacity of 500 tons of ice.

It is the intention of the firm not to go into the ice retailing business here to any great extent this year, most of the output of the plant being shipped to Walla Walla. That city has endeavored to get the new company to contract to furnish them ice for two years, but the management wishes to cater to the local trade more than to the outside market, and they refused the contract. Next year the firm expects to sell about their full capacity to the home trade.

Mr. Ross has sent East for an up-to-date ice wagon, and it will be here the middle of the week. It is an ice wagon as they are understood by the ice man, and will be something new in the city when it comes, being a thing of beauty and worth \$300.

### RATES REDUCED TO CHICAGO.

Railroads Engage in Rate Cutting and Fares Take a Downward Turn.

On account of a rate war now being waged between the through lines, the fares from Pendleton to Chicago over the O. R. & N. have been reduced \$3.50. The first-class fare from Pendleton to Chicago is now \$59.50 and the second-class \$43, taking effect June 20.

It is not known how long the reduction will remain in force nor whether further reductions will be made. It seems to be part of a scrap between the lake steamer lines and the roads and will probably not result in any serious cut in passenger fares.

### NEW PIANO HOUSE.

Will Be Opened in a Few Days at Failing's Stand.

B. F. Scott and Henry Stewart, of this city, have decided to open a new piano house in the rooms now occupied by the Jesse Failing furniture stock, and the goods will be here in a few days. For the past few days the two men have been in Portland, where they have bought a large stock of pianos, organs and stringed instruments and when they open the new house they will have on display a

fine line of musical instruments and music. The new firm will handle the pianos of the Eiler piano house of Portland, and perhaps will also have the agency for other makes not handled by that house.

Messrs. Scott and Stewart are both young men of fine business records, and it is expected that they will make a success in this new venture, as they have a thorough knowledge of the business.

### HEPPNER RELIEF FUND RAPIDLY GROWING.

(Concluded.)

It was decided to send laborers to meet what appeared to the meeting to be the most urgent present need and volunteers were called for. A large number responded, but only 40 were accepted by the committee, many being barred on account of being either too old or too young. The entire party of 40 will leave Free-water for Heppner this afternoon.

The mayor appointed a committee to take charge of the present and prospective measures originating in Free-water for the alleviation of the conditions at Heppner. The committee is as follows: J. W. Arnold, F. R. Fuller, F. P. Miller, Henry Stanley and Jeff Kerry.

### Police Court Affairs.

Octave Picton, a Frenchman, was fined \$5 this morning in the city court for drunkenness, and in default of the amount was sent to the city jail for three days.

James Spellman and H. Hukland were arrested last night for sleeping at the depot and raising a disturbance there, and were tried before the city court this morning and fined \$5 each, which they paid and left the city.

### Row in Chinatown.

An Soon, a Chinaman, was fined \$30 for disorderly conduct, in police court this morning, as a result of the disturbance in Chinatown yesterday afternoon. Goey, the other party to the affair, was dismissed. The trouble arose over a Chinese woman whom each man claimed as his wife.

### Horses to Canada.

Tracy & Kimball shipped two carloads of horses from here this morning over the O. R. & N. The final destination of the stock is Lethbridge, Canada, but five cars more will be picked up at Kennewick and the shipment will be unloaded in Montana for grazing before going to Canada.

### Boise Badly Scorched.

Boise, June 22.—The most disastrous fire in the history of Boise visited this city Sunday morning at 3 o'clock. One-half a block in the center of the wholesale district was completely destroyed, and the loss is estimated at \$160,000.

During the past 60 years over 100,000 colporteurs have distributed literature for the American Tract Society.

## PERSONAL MENTION.

T. Donovan, of La Grande, is in the city on a short visit.

J. F. Krebs, of Meacham, was a visitor in the city Sunday.

M. F. Wilson, of Weston, was a Pendleton visitor yesterday.

Mrs. J. R. Stafford, of Boise City, is in the city the guest of friends.

Mr. and Mrs. Lee Hale, of Heppner, are registered at the Golden Rule.

T. D. Swearingen went to Athens and Helix today on a short business trip.

Miss Burns, of Spokane, is the guest of Miss Maude Crawford, at her home in this city.

Mr. and Mrs. J. W. Weston, of Walla Walla, are the guests of friends here for a short time.

Cloyd Oliver, of Echo, returned to his home this morning, after a short business visit at this city.

Mrs. H. M. French, of Oakesdale, Wash., is the guest of Pendleton friends here for a short time.

Harry Conner, of the legal department of the O. R. & N., was in the city between trains last night.

A. L. Waffle, of the furnishing goods department of the Boston store, is in Heppner with the relief party from this city.

Thomas G. Hailey has returned from Heppner, where he went with the funds raised here by the city and several fraternal orders.

Fred Lockley and wife left Sunday morning for Salem, where they will attend the wedding of Mrs. Lockley's sister, which occurs Wednesday.

Mrs. Frank Pike and daughter, Gertrude, formerly of this city, passed through last night en route to their home at Telocaset, from a visit in Portland.

Charles Cockburn and Fred Evans, of Milton, passed through Pendleton Saturday night en route home from Heppner, where they had been working in the relief party.

Jack Vincent, the young son of Dr. F. W. Vincent, started for Yaquina this morning, where he will visit relatives for the summer. The young man took a lunch along and started out with all the confidence of a seasoned traveler.

Miss Eva Froome left this morning for Portland, where she will attend the meetings of the Eastern division of the State Teachers' Association, and will visit friends for a time. Before returning to her home Miss Froome will also visit at the seaside for a few weeks.

### Child Ate Glass.

The infant child of Mr. and Mrs. Lowe, who live on Thompson street, ate a quantity of broken glass Saturday evening. Dr. Ringo was called immediately and the child is apparently as well as usual this afternoon.

## Toilet Sets
