Entered at Pendleton postoffice as second-class matter.

Three things are given man to do—
 To date, to labor and to grow—
 Not otherwise from earth we came—
 Not otherwise, our way we go!

Three things are given man to be—
 Cheerful, undoubting and humane.
 Surviving through the direst fray,
 Preserving the untarnished strain.

Three things are given man to know—
 Beauty and Truth and Honor.
 These
 Are the nine virtues of the soul,
 Her mystic powers and ecstasies.

—Bliss Carmen.

INJUSTICE TO PENDLETON.

F. H. Newell, chief of the United States geological survey, gives out the information that Pendleton is headquarters for a company of fraudulent land locators, which is mercilessly robbing innocent settlers by locating them on lands which they are led to believe will be irrigated.

Mr. Newell has not visited Pendleton nor the irrigation reservation at Echo, and his interview in Tuesday's Oregonian is unfair to this city and to every citizen who has spent a day with friends looking over the Echo land with a view to filing.

There is no company nor individual in Pendleton operating as locators on any irrigation tract; there is no one here who has acted in that capacity at any time during the excitement accompanying the withdrawal of that land, and Mr. Newell's story is absolutely unfounded.

This long-range interview would lead the public to believe that Pendleton harbors a fraudulent concern, ready to fleece the homeseeker on the slightest opportunity by claiming to have inside knowledge of irrigation plans.

This interview from Mr. Newell will go to many places where there are intending homeseekers for Oregon, and coming from one so high in authority will do untold injury to this locality.

In justice to the community Mr. Newell should make thorough investigation before spreading broadcast such information.

There is a class of land hunters in every community that is just as culpable and just as detrimental to the interests of the country as the land locator. On the slightest provocation this eager, greedy class of investors fly to new fields and the first thing they do is to offer to "pay" for "inside" information.

Being ignorant of land numbers, they must necessarily hire some one to "show" them and they do not make a kick on any price that is charged them for this service, until they find out they can't use the land nor get a fortune out of it in a day or so.

They go into the proposition with open eyes, pay willingly all the expenses of the transaction and then, seeing that their judgment was poor, cry "fraud," and give the people and the community a black eye.

Some woeful tale from one of this class of eager investors was probably the basis of Mr. Newell's interview.

The school land board of Oregon has closed but two loans with districts since the law fixing the rate of interest on school funds at 5 per cent went into effect. While many dis-

tricts are issuing bonds which cannot be sold in scarcely any instance at less than 5 per cent interest, very few of them are taking advantage of this law. The state has a quarter of a million in school funds accumulated, which should be in use in improving school property in Oregon, instead of foreign capital, with which loans are purchased. It is better policy to employ home capital in improving schools if possible. By doing this the interest otherwise sent to outside points, is kept at home to swell the total fund that is again loaned out for the benefit of Oregon school children.

Ex-Congressman Loud, who was very active as chairman of the house postoffice committee, in keeping down the salaries of postal employees, is now accused of being implicated in the postoffice frauds. He was beaten in the last election through the influence of prominent clerks in the mail service, who went to California and "plugged" against him on account of his objections to a raise of salaries. It now dawns upon the people that his own salary was being constantly increased by ways that were once dark, but which are now being brought to light. It is not always the case that the man who objects to prosperity for others, refuses it himself.

All the lynchings do not occur in the South, and it is safe to say that if the same provocation were presented in the Northern states, the lynchings would go merrily on just as they do in the South. Delaware gathered a crowd of 4,000 yesterday in about an hour and tortured a negro to death. Many people doubted that this much vitality existed in Delaware.

Governor Chamberlain voices the ringing sentiment of a virile, aggressive young state, when he says to the Ohio Manufacturers' Association that the prosperity of Oregon depends more upon the latent forces of her industrial life and the activity of her people than upon the political color of the president of the United States.

Freewater and Pilot Rock enjoy the distinction of making the largest per capita donations to Heppner of any other towns yet reported. Freewater gave \$408 and Pilot Rock \$450, and neither of them have over 400 population.

Roosevelt has become desperate in the postoffice scandal situation, and as a last effort to bring the thieves to justice, employed the most prominent democratic lawyer in Baltimore to assist in the prosecutions.

The Portland butchers are now after the scalp of Dr. Woods Hutchinson on account of his stringent meat inspection regulations. The people who eat meat are with him.

So far the cities of Portland, Athena, Prineville and Pendleton have called off their Fourth of July celebrations, out of respect for Heppner.

RACE PROBLEMS.

Recognition of individual and of race is one of the questions of the hour, and it will compel attention more and more in spite of suppression or the atrocious manner of governing

Filipinos, or notwithstanding any effort to annex the unfortunate Cubans. The discoveries reported by General Miles as having been made by him in his tour of the Philippines, are disheartening to those who would believe the Anglo-Saxon race too far advanced beyond barbarism to have inclination for much less permit, the practice of cruelties such as those declared to have been perpetrated on the Filipinos.

The facts narrated—and to the writer some of these horrors were not long since admitted by one who had witnessed them—simply show that even civilization and culture have not yet wholly eliminated savage instincts from human nature and that where opportunity is given, oppression is most apt to be used. The Cubans remember this with such distinctness that even expediency cannot make the idea of annexation popular except with those speculators with political situations who thoroughly believe in attention to the individual first and the race next. Senator Newlands, in his plan for "inviting" Cuba to join the United States, can scarcely be thinking of any regulation of race differences. Nor is he considering, it would seem, the adding to the white population of our government, an additional immense black population, which must be estimated in that solution of the race problem which is already a sufficiently difficult equation.

That there is not felt in Latin countries the intense antagonism to the negro which the people of the United States cultivate, should be a credit mark to a greater breadth of mind and heart, but it should also be a reason why those Latin countries should not, by being absorbed into the larger government, become closed to greater freedom of the negro as a citizen and an individual or bring their quota of the black race to be placed in the trying position their brothers occupy under the stars and stripes. They would better not become citizens than as citizens to be disfranchised.—Overland Monthly.

James K. White and Charles Finley pleaded guilty to a charge of forgery at Astoria, Tuesday.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or had effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

DISAGREEABLE REFLECTIONS

The mirror never flatters; it tells the truth, no matter how much it may hurt the pride or how humiliating and disagreeable the reflections. A red, rough skin is fatal to beauty, and blackheads, blotches and pimples are ruinous to the complexion, and no wonder such desperate efforts are made to hide these blemishes, and cover over the defects, and some never stop to consider the danger in skin foods, face lotions, soaps, salves and powders, but apply them vigorously and often without regard to consequences, and many complexions are ruined by the chemicals and poisons contained in these cosmetics.

Skin diseases are due to internal causes, to humors and poisons in the blood, and to attempt a cure by external treatment is an endless, hopeless task. Some simple wash or ointment is often beneficial when the skin is much inflamed or itches, but you can't depend upon local remedies for permanent relief, for the blood is continually throwing off impurities which irritate and clog the glands and pores of the skin, and as long as the blood remains unhealthy, just so long will the eruptions last. To effectually and permanently cure skin troubles the blood must be purified and the system thoroughly cleansed and built up, and S. S. S., the well known blood purifier and tonic, is acknowledged superior to all other remedies for this purpose. It is the only guaranteed strictly vegetable blood remedy. It never deranges the system or impairs the digestion like Potash and Arsenic and drugs of this character, but aids in the digestion and assimilation of food and improves the appetite. Being a blood purifier and tonic combined, the humors and poisons are counteracted and the blood made rich and pure, and at the same time the general health and system is rapidly built up and good health is established, and this, after all, is the secret of a smooth, soft skin and beautiful complexion.

If you have any skin trouble send for our free book, "The Skin and Its Diseases." No charge for medical advice. Write us about your case.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

\$50.00 Given Away

To the first one handing us the nearest correct solution of the two following rebuses, we will give \$25.00 worth of furniture or other goods of your choice from our immense stock; \$15.00 worth to the second, and \$10.00 worth to the third.

The question is, how many different ways can the word "Furniture" and how many the word "Rader" be spelled in the following squares by spelling to the right, or downward, or any combination of down and right, or right and down, but always using contiguous letters but no two times, using exactly the same numerical letters, yet all spell the words "Rader" and "Furniture" correctly. For illustration, the word "Rader" may be spelled by using letters numbered 1, 2,

11, 12, 21, or 13, 22, 23, 24, 25, etc. The solution to be handed in sealed, giving only the number of combinations that can be made of each word, with no name attached, in order that the committee awarding the prizes will not

know who is in the contest. But if requested, each winner must be able to write, numerically, each of the various ways the number of times they claim. In order to identify all solutions we simply number each envelope containing an answer and keep a memorandum of each. No one will be allowed more than one answer. Prizes awarded July 25, 1903. There is no sure thing that the first solutions will be correct. So if you decide you want to change your solution after handing it in you can do so by placing your second in the numerical order we receive the latter. No one connected with the establishment will be allowed to contest.
