FOR HIGHER WAGES

O. R. & N. EMPLOYEES MEET THE OFFICIALS.

New Schedule Discussed—Union of All the Forces on the Harriman System Very Probable—Enginemenn Now in Portland.

The Heppner disaster has delayed for a week the conference of O. R. & N. enginemenn with President Mohler, F. E. Holm, for the engineers, and O. E. Lemous for the firemen, both of La Grande, went to Portland on Sunday, June 14, the very day on which the Heppner cloudburst occurred, to meet the officials of the O. R. & N. for the discussion of a new schedule and for the adjustment of local grievances.

The entire energy of the officials has been bent on relieving the situation at Heppner and little progress has been made in reaching a conclusion with the employes.

The employes demand a higher rate of pay than they now receive, as a result of larger engines now in use on the mountain division out of La Grande.

Mr. Mohler has informed the men that a general raise of wages could not be granted, as the pay now averages fairly well with that of other roads. Some of the local grievances will be settled. One change that interests the engine men on yard engines is the reduction of hours in yard engine service from 12 to 10, for a day, with no reduction of wages. The Pleasant Valley helpers, two in number, will be "double crewed," as the Kamela helpers now are.

A movement is now on foot to unite in one general committee, representatives from the O. R. & N., the Oregon Short Line and the Union Pacific enginemenn. The O. R. & N. and the Short Line men have agreed to this union and the Union Pacific employes will join later, as their present schedule with the company expires in July. These three roads represent the Harriman system and one general committee will be chosen to meet the head officials of the system. In the effort to secure a uniform rate of pay, over the entire system.

This general committee of adjustment will have complete authority to fix rates of pay and arrange details of schedules, and will take much labor and expense away from local lodges. A standing salaried committee of adjustment will be chosen, if the union of the men on the three roads is consummated. This committee will be chosen by ballot from among the employes and will resign their positions to become permanent members of this employes' board.

Tarweed in Wheat.

Tarweed which is reported very troublesome by Eureka Flat ranchers this year never troubled that section before. Spring wheat is the crop affected this season and one theory advanced for the unexpected appearance of the pest is that the seed has been lying in the ground several years and that this spring when the surface of the ground was colder than the strata beneath, the seeds germinated. They are so thick in many fields of spring wheat as to ruin the prospect.—Walla Walla Union.

HERPICIDE
The Latest Scientific Discovery
is based on the principle, "Destroy the cause, you remove the effect."
Herpicide kills the germs that cause dandruff by digging up the scalp as they burrow their pestiferous way to the hair root, where they finally destroy the hair. Without dandruff your hair will grow luxuriantly.
Newbro's Herpicide
stops dandruff and falling hair, and starts hair growing within 10 days. One bottle will convince you of this.

NORRIS AND ROWE.

Trained Animal Shows to Appear Here July 7.

One of the best amusement enterprises in America today is the Norris & Rowe's big shows, which are to give two performances here Tuesday, July 7.

Everything good and entertaining in the trained-animal business will be seen with this clever exhibition, which is the largest institution of its kind in the country. Prominent among the many new and special features are the performing baby elephants in new acts never before seen in this country. Other novelties are the performing Siberian camels, the trained llamas and wonderful acrobats and tumblers. The performing buffaloes and Prof. Lamley's educated seals are also new features. Roman races and Olympian games and pastimes are new additions to the interesting entertainment. Human and animal clowns keep up a continual round of merriment, so that taken all in all, the visit of Norris & Rowe's shows to this city will be one long to be remembered. A grand free street carnival and parade will be given at 11 a. m. on the morning of the exhibition.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle

by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
