WILL BUILD A NEW CHURCH.

Organizations All Over State Will Help Heppner Episcopalians.

Rev. W. E. Potwine left for Weston this morning for a visit to that place, where he has charge of the church. The Episcopal churches of the state are all helping the church at Heppner to rebuild, and for this purpose collections are being taken at the Sunday services to be applied on that fund. The Church of the Redeemer gave \$17 at the meeting yesterday, and the other churches throughout the state also contributed. It is hoped by this means to raise at least \$1,000. Bishop Wistar Morris, of Portland, has given \$500 toward the fund as a private subscription.

Next Sabbath the churches of Heppner will hold a union memorial service in the Christian church at that city for the dead of the flood. Revs. John Warren, A. K. Glover and W. E. Potwine will be in attendance and assist with the services.

WAREHOUSE LAW

REQUIRES A LICENSE FROM PERSONS IN THE BUSINESS.

Must Also Give Bond of Not Less Than \$1,000 Nor More Than \$50,000 — Detailed Statement of Business Done Must Be Filed June 15 With County Clerk—Only a Few Have Complied.

On the first of July a new law will go into effect that is of much interest to this section, since it relates to the management of the wheat warehouses of the state, and provides for the conduct of the same.

The law was passed at the last session of the legislature, and was framed to protect the farmers and all those who had occasion to store grain in the warehouses of the state.

The law is found on page 263 of the General Laws for Oregon for 1903, and provides that all persons engaging in the business of storing grain for hire or otherwise, shall, on or before the first day of July, 1903, procure from the county court of the county in which the business is carried on, a license authorizing such persons to engage in the business of storing grain, and the license shall be placed in a conspicuous place in the office of the company.

It is the duty of the county court to see that all persons so engaged shall furnish undertakings in some sum to be determined by the court; said sum to be not less than \$1,000, nor more than \$50,000.

On the 15th day of June of each year all persons or firms engaged in the business of storing grain shall furnish to the county clerk of the county in which the business is conducted, a statement showing the amount of grain in store, and also a statement showing the amount represented by outstanding warehouse receipts, which shall be kept for public inspection.

If any person or persons, or corporation or corporations so engaged shall neglect to comply with the requirements of the law and shall attempt to carry on their business without first securing the license as provided they will forfeit to the state the sum of \$50 for each and every day they so violate the law; said sum to be treated as a fine and collected in the same manner as are all fines and penalties.

The provisions of the law apply generally to any and all persons or firms owning or operating any place, whether warehouse, gristmill or other place where grain is stored for compensation or otherwise, and was framed to protect the farmers from fraud on the part of the bailees. Only a few of the warehouse men of the section have as yet complied with the law, and it is probable that they have not remembered that it goes into effect at this time. It is necessary that they comply with its provisions before they open their places for this year's work, or they will be liable to the fine as specified.

SUIT FOR DAMAGES.

Also for an Injunction to Prevent the Use of Timber.

James Davis filed today by his attorneys, Halley & Lowell, an injunction suit against W. L. Bryson. The plaintiff alleges in his complaint that he is the owner of 40 acres of land in the northwest quarter of the southwest quarter of section 34, township north, range 35 east, near Meacham; that the defendant has entered upon said land, which is covered with timber, and has cut and destroyed timber to the value of \$250; that defendant is insolvent and unable to respond to the damages herein; wherefore, the plaintiff prays for a decree enjoining the defendant from cutting said timber, and for damages to the sum of \$250, together with the costs and disbursements of the action, and that a temporary injunction be granted, and for such other relief as the court may deem equitable and just.

ADJUDGED INSANE.

Jacob Jerind Believes People Are Trying to Poison Him.

Jacob Jerind, a native of Austria, was today examined as to his sanity by Judge Hartman, and Dr. Cole and adjudged insane. Jerind is a sheep herder, and has been working near Heppner for some time, but came to this city about two weeks ago, where he was taken in charge by the authorities here. He believes that people are trying to poison his food, and came into the sheriff's office about two weeks ago, asking for protection. He will be taken to the asylum as soon as is convenient by the sheriff.

An Enterprising Firm.

F. W. Schmidt has introduced a pleasing innovation which will be appreciated by the public. It is an electric annunciator which is suspended over the edge of the curb. A person may drive up in front of the drug store, reach up and touch the electric button and summon a clerk to come out and take his order. It will doubtless prove a business getter.

Mrs. Mary Wilkins, wife of Charles Wilkins, Umatilla Indian agent, died last evening at 9:40 at the agency, after an illness of six weeks.

Mrs. Wilkins has been a resident of Pendleton for 22 years. She was born on the Willamette river two miles below Harrisburg, on May 28, 1860. Her parents, Mr. and Mrs. John Ulery, crossed the plains from Pennsylvania in 1849 and settled in the Willamette valley. Her elder sister, Mrs. W. C. Moran, is a resident of Eugene, and the younger sister, Mrs. Frank C. Winter, resides in Seattle. Both sisters, a brother, George Ulery, of Palouse, and a nephew have been at her bedside during her illness and are now here, but the other brother, John Ulery, is in British Columbia, and could not be communicated with.
