Blacksmith shop in Pendleton for sale. See Earnhart, Association block.

## CROP PROSPECTS

ATHENA DISTRICT WILL YIELD MORE THAN LAST YEAR.

Fall Grain Will Probably Average 33 Spring Grain 22—Corn Acreage Increased 30 Per Cent—Barley Acreage Large.

J. Swart, O. R. & N. agent at Athena, who is in close touch with the wheat crop situation in that locality has made a study of the conditions this year, and in his reports to the officials of the company, places the prospective yield on territory tributary to Athena at 220,000 bushels for this season, against 206,000 in 1902.

His estimates are based on undeniable facts, which he has gathered from actual contact with the farmers and from close observation.

The wheat crop in the Athena and Weston district has suffered largely from "lodged" or fallen grain in past years. This loss was occasioned by the heavy straw falling down from its own weight and being beaten down by wind.

This difficulty is entirely absent this year. The straw is not heavy and rank, but is short and stout, all standing erect and the heads are well filled with extraordinarily plump grain.

There will be no lodged grain in that entire wheat belt this season. The cold spring weather held back the growing grain, until it could not possibly attain the dangerous height, at the same time the growing weather since the rain came, has filled the heads and strengthened the straw sufficient for good crops.

The yield of fall wheat in that district is conservatively estimated at 33 bushels per acre and of spring sown grain 22. The acreage of fall sown grain is about 800 acres greater than last year and while some fields will average 45 bushels, the general run of the district will be at least 33 bushels.

On the light soil farther back the yield will be lighter and some of the foothill crops will not come up to last year's yield.

The acreage of corn in the Athena and Weston district is 30 per cent greater than last year and the prospects now are excellent. The corn grown in this district is the Dakota Yellow Dent, and was introduced by R. C. Judson, industrial agent of the O. R. & N. It is a hardy, rugged kind of corn, and will grow during the cool nights that are often experienced in June in Eastern Oregon. It is now from one to two feet in height, dark thrifty green, and is growing nicely. Last year some of the corn crops in this district averaged 35 bushels to the acre, while the entire acreage averaged about 30 bushels.

The farmers are showing great interest in this crop, as the need of diversity is badly felt. The change of crop and the cultivation rests and enriches the land and corn as hog feed is far ahead of any other known grain. The acreage will probably be doubled next year, if this crop proves a success.

Farmers have hesitated to raise corn only because they have thought this to corn country. As its adaptability is proved, more of them will grow the crop. The amount of barley in this district tributary to Athena this year is 2,000 acres, against 1,500 last year.

All crops in that vicinity are thrifty and show excellent prospects. Some of the fall grain is showing the golden tinge and within the next three weeks the harvest season will have opened.

#### Stock Farm for Sale.

The Ogle stock farm, consisting of 3000 acres, about 250 head of cattle, plenty of water, grass and timber. Range has never been sheeped off. All under fence. Will grow all hay required. Call on or write to Bentley & Hartman, Pendleton, Oregon.

Automobile chairs will be one mode of transportation at the World's Fair, St. Louis. Their speed will be limited to three miles an hour.

## A Shrewd Investor

will be glad to know how the greatest accumulation of trust funds in the world is invested. A young man who is just beginning to accumulate and invest his savings will be interested in a booklet that describes the investments of The Mutual Life Insurance Company of New York. This information is found in "A Banker's Will." Sent free on application.

This Company ranks First—in Assets, First—in Amount Paid Policy-holders, First—in Age.

### THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK,

RICHARD A. McCURDY, President, Alma D. Katz, manager, Boise, Idaho, Frank L. Hammond, District Manager, Pendleton, Oregon.

### SIGNED ANOTHER MAN'S NAME.

E. B. Rinearson issued a Bad Check —is Being Searched for by the Officers.

Officers of the sheriff's office, are seeking E. B. Rinearson, a young man who passed a bad check on George H. Smith, a cigar dealer on Third street yesterday, says the Walla Walla Statesman. The piece of paper bore the name of C. N. Pentecost, the well-known farmer, and was for \$17.50. Rinearson has been about town for some weeks and spent part of his time at the cigar store.

#### Forced to Pest House.

Walla Walla, June 29.—Because the parents would not make them stay indoors, two children of a family named Lind, afflicted with smallpox, were forcibly taken to the pest house yesterday by County Health Physician Stiles. The Linas reside in Sprague street, and a few days ago two of the children were discovered to have smallpox. Dr. Stiles warned the mother to keep the children in doors, but complaints commenced coming in from neighbors Saturday that the children were being allowed to roam in the streets and chase other children in childish glee.

## BABY'S FUTURE

Something for Mothers to Think About.

Lives of Suffering and Sorrow Averted

And Happiness and Prosperity Assured by

Cuticura Soap, Ointment and Pills When All Else Fails.

Every child born into the world with an inherited or early developed tendency to distressing, disfiguring humors of the skin, scalp and blood, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest and most effective treatment available, viz., The Cuticura Treatment.

Warm baths with Cuticura Soap to cleanse the skin and scalp of crusts and scales, gentle applications of Cuticura Ointment, to allay itching, irritation and inflammation, and soothe and heal, and mild doses of Cuticura Resolvent Pills, to cool the blood in the severer cases, are all that can be desired for the alleviation of the suffering of skin-tormented infants and children, and the comfort of worn-out parents.

Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp of crusts, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchy and chafing, in the form of washes for annoying irritations and inflammations, and for many sanative, antiseptic purposes which readily suggest themselves.

### SPEAKING ABOUT

## Tooth Brushes

Have you noticed our tooth brush window? A good many stop to admire and talk about it. We have lately bought a large number of 25-cent Tooth Brushes. Every one is guaranteed to be satisfactory or money refunded.

We make up a tooth powder which we think has never been surpassed in cleansing properties. It is pleasant to use and perfectly harmless. Large bottle, 25 cents.

Commencing July 1st, for one week only, we will give one of our 25-cent Tooth Brushes FREE with each bottle of Dr. Mann's Antiseptic Tooth Powder or Liquid Dentofoam purchased. Only one Tooth Brush to a person. This offer holds good for one week only, and is made simply to advertise our Liquid Dentofoam and Powder to get more people to using them. Fifty cents worth for 25 cents. Buy a 25-cent Tooth Brush and we throw in the Powder; or buy the Powder and we throw in a 25-cent Tooth Brush.

Please tell your friends about this offer. For the convenience of the driving public we have installed an electric enuciator in front of our store. One may summon a clerk to take their order without leaving their carriage.
