GOT WRONG MAN

MIGHTY CUTE TRICK TURNED IN MISSOURI.

Kansas City Police Made a Very Smooth Catch of a Brother of William Spannhauer, Alias Jesse James—Man Who Was Wanted is Still at Large.

The report that Jesse James, the man wanted here for the burning of a dwelling in the eastern part of the city on the day before Thanksgiving, had been caught at Kansas City, proves to have been a mistake, for it was the brother of the man that was held by the police at that place, and not the man wanted.

It was feared that the real name of the man was William Spannhauer, and that his parents lived in Kansas City, so a watch was put on the place and several days ago the chief of police of Kansas City wired to Sheriff Taylor that he had held a man answering the description given, and that he was found in the house occupied by the Spannhauer family. Instructions to hold were wired and a warrant sent, but the next word received by the sheriff was that it was Walter, a brother, that had been arrested and that the man wanted had been in the house at the time of the arrest and had profited by the hint and had made his escape, and that his whereabouts were unknown to the officers.

It seems that the officers went to the house to serve the warrant, and that Walter came to the door and as he resembled his brother very much he was placed under arrest, while the brother, overhearing the talk at the door, made good his escape before the mistake was known.

In this way all the work that has been put on the case by Mr. Taylor goes for naught, for it is not likely that the man will again run into danger after having been warned in so forcible a manner that he is wanted by the Oregon officers. There is no clue at present as to where he has gone.

To her many old customers, and for the public, who are not acquainted with her work, the Peoples Warehouse informs all that Mrs. Tilla Carlson has again taken charge of the art and fancy work department in their store, where she will give instruction from 8 a. m. to 6 p. m. Rate 10c per hour. She has novelties arriving every day.

SCHOOL AFFAIRS

MISS LILLIAN WATERS WILL TEACH NEXT YEAR.

Miss Parrott Has Resigned, and a Successor is to Be Chosen—Two Rooms in the Old Academy Building Will Be Fitted Up for School Purposes.

At the meeting of the school board last night the business of the year was closed up and the financial affairs of the last school terms were adjusted.

The matter of enlarging the capacity of the schools was considered and provision was made for two new rooms for the next year. The living rooms in the old academy building, formerly occupied by Professor and Mrs. Forbes, will be overhauled and made into school rooms. The other rooms in the various buildings will be renovated and put in first-class shape and the school will open next fall in good shape for the conduct of the year's work. It is considered too late in the year to undertake the construction of new additions or buildings at this time, and for that reason there will be no radical change in the buildings of the city.

Miss Lillian Waters was elected to a place on the staff of the Pendleton schools at the meeting last night, and will be in the city in time for the opening of the schools in the fall. Miss Waters taught at Heppner during the last year, and is an experienced teacher and of ability. She has taught in the public schools for the last five years and is a graduate of the State University of Colorado, and hence comes to this city with a good record and high credentials.

There is one other place to be filled on the staff, and that is the place made vacant by the resignation of Miss Parrott, who has for some time had charge of the primary department of the city work. The clerk of the board is now in correspondence with several teachers who have had experience in that part of the school work, and a selection for the place will be made at an early date. It is the desire and the intention of the board to secure for the position a teacher who has made a specialty of primary work, and who comes recommended for her excellence in that particular branch of the service.

WOMEN OF WOODCRAFT.

Will Not Levy Special Assessment for Heppner Relief.

Mrs. C. C. Van Orsdall, grand guardian of the Women of Woodcraft, whose visit to the circles of the Northwest was interrupted by the Heppner disaster, is enthusiastic over the unprecedented progress made by the order during the past year.

"Yes, the Women of Woodcraft are doing things," said Mrs. Van Orsdall to an East Oregonian reporter today. "We have gone over the goal set by the sixth anniversary campaign—40,000. When the certificates issued are finally reported through the financial department we will have close to 42,000 members. We issued 9,170 certificates during the campaign, beating our record last year for the same time by 1,430. We have over 500 circles now, or an increase of 63 new chapters since September 1. Our record-breaking month for certificates issued was April of this year, the figures standing 3,256.

"But best of all, in my judgment, is our financial development. On June 29, our cash balances in the United States National Bank of Portland, stood \$103,205.78, divided as follows: Benefit fund, \$61,488.73; reserve fund, \$27,235.12; general fund, \$14,480.93.

"The draft in payment for the whole issue of the Pendleton sewer bonds will be turned over to the city authorities tomorrow. This means an investment of \$32,012 by the order in Pendleton securities."

"Then your order will not call an extra assessment on account of the Heppner disaster?"

"Certainly not," replied Mrs. Van Orsdall. "There is no need, as you will readily see by noting our benefit cash balance."

DRUNKEN INDIAN.

Frank Parr Makes Himself Disagreeable and is Jailed.

Yesterday afternoon Frank Parr, an Indian well known about town, caused a little excitement at Therkelson's piano house, and as a result was lodged in the city jail. Parr had found some whiskey in some quarter unknown, and was some the worse for wear. He was in the alley back of the piano house, and started through to the street. It evidently was his intention to go through another house, for he seemed at a loss when he found himself in the room.

Mr. Therkelson's baby was in the room and Parr picked it up. Being drunk, the action scared the mother of the child and she called to the father. He came to the back of the store and the Indian, becoming a little stubborn, Mr. Therkelson put him out into the street, where he was taken in custody by one of the officers, and lodged in the jail. There was no charge made against him and he was let out last night on \$10 bail and has not shown up since.

BAND AND BALLOON

WILL BE IN PENDLETON ON THE FOURTH OF JULY.

Two Contracts Were Made And Could Not Be Broken—Ninth Cavalry Band is the Best On the Coast, and the Aeronaut the Most Nervy in the United States.

While the city has decided to have no official celebration on the day of the Fourth, there will be several interesting things here on that day, and all of the people who come to the city will have plenty of events to amuse and entertain them.

The Ninth Cavalry band from Walla Walla, will be here to fulfill the contract that was signed before the celebration was called off, and will furnish music throughout the day to all of those who may be in the city. This is one of the best bands on the coast, and a day spent in listening to the music that they furnish will not be spent in vain.

Another thing that will be of interest will be the balloon ascension, or rather ascensions, for there will be two of them. The man who will be here also insisted on filling the contract that he had signed, and will be here with all of the entertainment that he had planned for the celebration. He will give two exhibitions, one in the morning and one in the afternoon, and from the reports that come of the work that he does the events will be of great interest and thrilling to watch. The balloon that he uses is the culmination of the balloon maker's art, and will make a spectacular appearance in the air. It is 65 feet in height, and is made to represent the American flag. The day will be a pleasant and a quiet one, and all who come will be glad of the time spent in the city.

RETURNED FROM DAYTON.

Local Sports Won None of the First Places at Tournament.

The delegation of the Pendleton sportsmen who attended the Dayton shooting tournament the latter part of the week have returned to the city, and report a most successful meeting at that place. Some of the records there were of the phenomenal order and will not be repeated for some time to come. One of the participants made a total of 50 out of a possible 50.

While the local men carried off none of the first places they made some very credible records and are well satisfied with the showing that they made while there. Those returning were H. J. Stillman, Sam Thompson, J. M. Spence, F. W. Waite and John Soule.

TWIN GIRLS BORN.

First Dual Event of the Kind in Pendleton in Over Two Years.

Cliff Dupuis, one of the printers of the city, is now wearing a happy smile and a contented countenance, for on Sunday evening the stork came to his house for a short visit and when he left the place was so generous as to leave behind him two pretty baby girls. This is the first time that the noble bird has been so kind to any of the residents of this city for over two years past, and Mr. Dupuis is correspondingly jubilant. The babes are both well and strong and the father will soon be bearing them out in the sunshine for the inspection of his many friends.

Boy Born.

Since Sunday night Mr. and Mrs. C. A. Sundon have been entertaining a baby boy at their home on West Railroad street. The youngster came to their home on that evening and will make his home there for the future.
