perature in some parts of India rose
to 114 degrees in the shade.

COUNCIL MEETING

PASSED THREE IMPORTANT ORDINANCES LAST NIGHT.

Allows a Bill Presented by One Lung
—Agreement With the O. R. & N. Co.—City Attorney's Salary is Raised—Lee Street Bridge Declared Unsafe—Fire Hose Pronounced Defective.

After having missed one meeting, the council assembled last night at the regular time for the transaction of the city's business. There was a full house in attendance. Besides the mayor, Aldermen Sommerville, Jonsson, Dickson, Hartman, Howard and Clopton answering to the roll call.

An ordinance had been prepared by the city attorney authorizing the city to enter into a contract with the Oregon Lumber Yard of this city for the furnishing of all sand, cement and brick used in the construction of the new sewer. The ordinance was passed and the sewer committee will buy the material as directed.

An ordinance was introduced providing for the establishment of a grade in Byers' grove and the same was read three times and passed by the council.

The council by the passage of another ordinance authorized the city to buy all iron work and castings for the sewer from the Rigby-Clove foundry, and the sewer committee will buy the material of the local firm.

A bill was presented by the recorder from One Lung, a Chinaman, who has a piece of ground rented across which the new sewer must pass, asking that the council grant to him the sum of \$20 for damage done to his garden by the excavation. The bill was ordered paid, as was one by the recorder asking reimbursement in the sum of \$5 for money spent in buying stamps for the use of the city.

Fire Hose Out of Repair.
The fire committee, to whom had been given the task of examining the hose and equipment of the fire companies of the city, brought in a report on their work. They had looked over the hose of the various companies and found it to be out of repair and old. This condition was due in large measure they thought, to the fact that the men had not properly drained the hose after having used it at a fire, and they recommended that after each fire men be employed to care for the hose and be paid by the city at the rate of \$2.50 per day. The report was adopted.

An agreement was offered for the consideration of the council which had been drafted by the city attorney and the agents of the O. R. & N. railway, for a right of way along the side of their track and on the right of way of the company, on which the city could construct and maintain a portion of the sewer. The ground is at the lower end of the city, and where the plans of the sewer follow the line of the railroad for some distance. The agreement was considered by the council and deemed to be satisfactory.

Charles Carter, the city attorney, reported that owing to the fact that he was compelled to either neglect his own business or that of the city or the lack of time, he considered it to be impossible for him to longer hold the office of city attorney at the salary of \$25, and asked that he either be granted a raise of \$25 or that he be allowed to resign and that a successor be immediately appointed that he might relinquish the care and responsibility of the office. The council thought it inexpedient to make any change at this time, and accordingly the salary of the city attorney was raised to \$50 per month.

Lee Street Bridge is Unsafe.
James Means, the street commissioner, reported the Lee street bridge to be in an unsafe condition for the heavy traffic of the summer, and recommended that the matter be looked into by the council. The street committee was asked to investigate the matter and take such action as they deemed best.

Mr. Howard was put on the street committee in the place of one of the councilmen who is out of the city.
Objection was made by some of the aldermen that the contractors who have charge of the construction of the new brick building on Court street had piled their material so far out in the street as to interfere with the traffic along the street. The marshal was instructed to see that the material was moved within the limits granted by the council.

To Restrict the Use of Explosives.
The firecracker nuisance was discussed by the council and the marshal was instructed to call the attention of all dealers in Fourth of July goods to the state law regulating the sale of explosives. The text of the law is given below:

Section 1.—It shall be unlawful to sell, exchange, barter or give to any child under the age of 14 years, any explosive article or substance other than an ordinary firecracker containing 10 grains of gunpowder; or to sell, exchange, barter or give to any such child any firearms, or other device of a like kind, ordinarily used or ordinarily capable of being used in discharging gunpowder in a greater quantity than 10 grains; and it is hereby made unlawful in any event to sell, exchange, barter or give to any child under the age of 14 years, any instrument or apparatus, the chief utility of which consists in the

FOREIGN PATENT METHODS.

United States Commissioner Has Gone Abroad for Study.

New York, July 1.—The United States commissioner of patents, Frederick I. Allen sailed for Europe today on the steamship St. Paul and will spend five weeks abroad investigating the methods employed in the patent offices of Great Britain, Germany and France with a view of learning if possible anything that might profitably be adopted in the United States patent office. Mr. Allen will also take the opportunity to go to Switzerland and inspect the international bureau for the protection of industrial property located at Berne.

ALEXANDER BEAUBIEN.

First White Child Born in Chicago is Still Living.

Chicago, July 1.—Residents of the great western metropolis, with all its wealth and industries, its immense area and large population, find it difficult to realize that the city is still but an infant so far as years go, but this fact is strikingly illustrated in the case of Alexander Beaubien, who was retired from the police force today on account of age. Surprising as it may seem at first statement, it is nevertheless an historic fact, that Mr. Beaubien was the first white child born in Chicago. At the time of his birth Chicago was an outpost, with hostile Indians on all sides, and the only white residents were the garrison of Fort Dearborn and a handful of traders, of which Mr. Beaubien's father was one.

The sanitarium for consumptives at Frankfort-on-the-Main has windows that consist merely of openings, without glass, so that the patients are exposed to the air currents day and night all the year round.

New York city has more Jews than Jerusalem and London together.
