The hair of the head grows faster
in summer than in winter.

BIG PIER IS BURNING.

Started With Three Heavy Ex-
plosions—Narrow Escapes.

New York, July 11.—The Thing-
valla Line Pier, at Hoboken, is on
fire. There were no steamers at the
dock when the fire started. There
were three explosions, and the whole
front of the pier, on which a large
quantity of merchandise was stored,
collapsed and fell into the river. The
loss is estimated at \$500,000.

There were 150 men on the pier
when the fire broke out, and many of
them had to jump into the river, their
escape landward having been cut off.
All were rescued. Several firemen
were overcome fighting the fire.

A stampede occurred in the bath-
house adjoining the docks, and two
children were injured.

TACOMA'S POPULATION.

Polk's City Directory Gives City 62-
642 Inhabitants—Increase of 7,177
to the Year.

Tacoma, Wash., July 11.—The ad-
vance sheets of Polk's city directory,
which were furnished to the newspa-
pers today, place the population of
Tacoma at 62,642. The names of in-
dividual persons mentioned in the di-
rectory is placed at 25,057, after
eliminating all firm and company
names. It is figured that the popu-
lation should be 2 1/2 per cent greater
than the number of individuals. Ac-
cording to the directory figures, the
increase in population for the last
year is 7,177.

TORRID HEAT IN NEW YORK.

Eleven Deaths Today—Sleeping in the
Parks and on Piers.

New York, July 11.—The heat con-
tinues, with 11 deaths up to noon.
The number of prostrations is not
so large as yesterday. Parks and
recreation piers will be kept open to-
night as long as the heat lasts for
sleeping purposes. Thousands took
advantage of this concession last
night. The Society for the Preven-
tion of Cruelty to Animals has ar-
ranged two horse baths. All fire sta-
tions have hose attached to wet down
teamsters and horses whenever they
apply for such attention.

SHOOTING AFFRAY AT RENO

SERIOUS RESULT FROM
STRIKING AN OLD MAN.

Pat Heran Puts Four Bullets Into a
Man Who Assaulted His Father—
Victim Is in Hospital—Shooter Is
in Custody.

Reno, Nev., July 11.—Last night a
serious shooting affair took place in
East Reno. William Williams was
mortally wounded by Pat Heran. The
quarrel started by Williams striking
Heran's father, who is an aged man.
Young Heran immediately emptied
the contents of his revolver at Wil-
liams, four balls taking effect. Heran
came to Reno and gave himself up to
the sheriff. His victim is in the hos-
pital and cannot live.

WEST VIRGINIAN HORROR.

Vengeance Is Meted Out to a Negro
Assaulter.

Bluefield, W. Va., July 11.—At De-
lin Monday, a negro kidnapped a
young girl, took her to the woods,
tied her with ropes and repeatedly
outraged her. He left her tied. He
returned Tuesday with food and again
assaulted her. This was repeated
Wednesday. Thursday a searching
party found the girl half dead. The
men resuscitated her, left her tied
and lay in wait and when the negro
came he told the girl he was now
going to kill her. The rescuing party
rushed out, seized him and completely
skinned him with sharp knives, then
tore the flesh from his bones, after
which they repeatedly fired shots in-
to different portions of his body. The
negro died in terrible agony.

INTERNATIONAL SHOOTING MATCH

Americans Are Putting Up a
Fine Showing in All the
Events

HARD BATTLE FOR THE GREAT
PALMA TROPHY AND RECORD.

The American Team Won the 900-
Yard Event, With England and Can-
ada Second and Third—Teams
From America, Australia, Canada,
France, Natal, England and Nor-
way.

Bisley, England, July 11.—The in-
ternational shooting match is being
held here today, with competing
teams from America, Australia, Can-
ada, France, Natal, Norway and Eng-
land. The weather is perfect, and a
great crowd is witnessing the shoot-
ing.

The Americans from the start
showed excellent form and promise
to make a good fight for the Palma
trophy, which is offered for the best
high average made by a team.

After the 800-yard range event was
finished the English led the Ameri-
cans by three points, the score being
England, 554; America, 551; Canada,
536.

At 900 yards the Americans defeat-
ed the English. In this event the
score stood, Americans, 515; English,
504; Canadians, 494.

Almost the entire American team is
composed of members of the National
Guard of New York and Massachu-
setts.

The winners of the trophy have
the choice of range whereon the next
international event will be carried on,
and the prospect that it will come to
America next time is excellent.

Americans Win the Trophy.

Bisley, July 11.—The Americans
won the Palma trophy by the follow-
ing score: Americans, 1570; English,
1555; Canada, 1515; Austria, 1501;
France, 1240; Norway, also 1240;
Natal, 1231.

LIFE IMPRISONMENT.

Martin V. Lesia Was Sentenced To-
day at Portland.

Portland, July 11.—Murderer Mar-
tin V. Lesia was sentenced to life
imprisonment here today. He killed
his father-in-law two months ago and
kidnapped his divorced wife. A man
hunt found him in a lonely barn.

Must Hang.

London, July 11.—Dougal, the Mont
House murderer must hang, the peti-
tion for his pardon having been re-
fused.

HURLED 2000 FEET INTO ROYAL GORGE

Grand Junction, Col., July 11.—
Three engines and 20 freight cars on
the Colorado Midland jumped the
track in the Royal Gorge. Friday
morning and dashed to the bottom of
the gorge 2000 feet below into the
rocky channel of the Arkansas river.

Three engineers, one fireman and a
brakeman fell to sudden death with
the engines, two firemen jumping to
the ground in time to save their lives.

The point at which the horrible ac-
cident occurred, is the most pictur-
esque spot in America, and the track
overhanging the fearful gorge, a third
of a mile below, as it does, is in the
best condition that money and skill
can make it.

The train was headed east with
two dead or cold engines coupled
into the train next to the engine pull-
ing it. The speed was only about 15
miles an hour, when, without warn-
ing, the lead engine left the rail, and
the two dead engines and 10 loaded
freight cars, followed, all plunging in
the twinkling of an eye down the nar-
row chasm, only 50 feet wide at that
point, but over 2000 feet deep, into
the river below.

The Arkansas runs swift at this
point, and as the chasm is very nar-
row, the water is 30 feet deep in
places, and the wrecked engines and

CHICAGO RACE TRACK TROUBLE

Gambling Swindles at Wash-
ington Park Lead to Serious
Results.

WARRANTS OUT FOR ALL THE
JOCKEY CLUB OFFICIALS.

Collusion of Pinkerton Detectives
With Lawless Gamblers Charged,
and Warrants Include All Pinker-
ton Men—Twenty-Five Constables
Ordered to Shoot Their Way Into
Race Track.

Chicago, July 11.—Twenty-five con-
stables armed with pistols and in-
structions to shoot any one interfer-
ing, left for Washington Park race
track this afternoon, to arrest the
president and other officials of the
Jockey Club, and also all bookmak-
ers, including O'Leary, Weller and
Gardner and also the clerk of the
scales, race judges and all Pinkerton
detectives now on duty at the track.

A raid was attempted yesterday,
but the Pinkertons prevented any ar-
rests. Justice Bradwell's instruc-
tions to the constables said, "You are
to break up all gambling on that
track. Because, the Jockey Club is
rich and powerful, it does not miti-
gate the fact that they are common
gamblers. Pinkerton men should be
taught a lesson and made to respect
law. They are especially presumptu-
ous. Shoot your way into the park
race track if resisted."

CONSUL COLVIG RETURNS.

Dissatisfied With South American
Post Comes Home to Grants Pass.

Portland, July 11.—The announce-
ment that G. W. Colvig had left his
post as United States consul to Co-
lombia and was on his way to his
home in Grants Pass occasioned con-
siderable comment concerning the
probable naming of his successor,
a matter that will fall to the Oregon
delegation.

Mr. Colvig received his appoint-
ment through Senator Mitchell, to
whom he swung the whole of Huger
Herman's following in the senatorial
contest of 1901. It has been known
for some time that Colvig was dis-
satisfied with his present appoint-
ment and would not remain in South
America. In view of the fact that
Senator Mitchell owes him so much it
is deemed not impossible that Col-
vig will be privileged to name his
own successor.

In an interview this morning both
of Oregon's senators stated that noth-
ing was being considered at today's
gathering relative to appointments.
That being the case, it is understood
that Mr. Colvig's successor has not
been selected.

WIDE OPEN AGAIN.

Bremerton Saloons Permitted to Run
By Court.

Seattle, Wash., July 11.—The sa-
loons in Bremerton, the little town
near the Puget Sound navy yard which
were closed by the council a few
weeks ago because the navy depart-
ment objected to them, have all re-
opened despite the protest of the
council. The keepers have sued in
court to determine the right of the
council to revoke their licenses and
the courts have allowed the saloons
to open until the case can be heard.
More trouble is now expected from
the navy yard, and it would not be
surprising if an order issued directing
all vessels to leave there that are
now in dock for repair.

MAY YET BE RATIFIED.

Prospects Better for the Panama Ca-
nal Treaty.

Panama, July 11.—A remarkable
change is taking place in Colombia.
It is now generally believed in offi-
cial circles that the canal treaty will
be passed. It will probably be taken
up by the Bogota congress July 20.
Several petitions have been sent to
the president asking him to favor
canal legislation.

UNEMPLOYED ON THE ROAD.

Movement Begun Similar to that of
"Coxey's Army."

Trenton, N. J., July 11.—Mother
Jones and army left here at 6 this
morning. Had made three miles by
noon on the march toward New York,
which will be continued late this
afternoon. They got little financial
assistance here.

BRISTOW FOR THE SENATE.

Proposed to Beat J. R. Burton for a
Re-election.

Topeka, July 11.—Kansas politi-
cians are agitated today over a report
from Washington that Fourth As-
sistant Postmaster Bristow will be a
candidate for the United States sen-
ate, to succeed J. R. Burton.

OLD DOCTRINE IN NEW LIGHT

BRITISH STATESMEN MAKE
ASTONISHING ADMISSIONS.

Propose That Uncle Sam Run a Fi-
nancial Half Way House Between
South America and European Cred-
itors.

London, July 11.—In conversation
with American officers at the king's
dinner at Buckingham palace yester-
day evening, members of the cabinet
expressed a desire for an extension
of the Monroe doctrine. Recognizing
the paramount influence of the United
States in the western hemisphere,
Great Britain, they said, wants Wash-
ington to exercise control in some
way over the financial obligations of
the Central and South American
States.

United States as a "Bumper."

Apparently Great Britain, not desir-
ing a repetition of the Venezuelan af-
fair, favors the adoption of means
whereby the smaller republics will be
compelled to meet their obligations
without pressure from Europe.

ROBBED IN DAYLIGHT.

Beaten by Robbers Who Did Not
Know Money Was in Bank.

San Francisco, July 11.—A daylight
robbery, which for mystery and dar-
ing is almost without parallel in this
city, was committed at 314 Gough
street about 3 o'clock yesterday after-
noon. Mrs. Bridget Annie Hughes,
wife of Thomas E. Hughes, a brick-
layer, was viciously attacked in her
home by either two or three men, who
knew that only the night before she
had been paid \$500 for injuries sus-
tained in a street car collision. They
believed this money was in the house
and cruelly beat and choked Mrs.
Hughes in their attempt to force her
to disclose its hiding place, but they
only secured a few cents in change
in a purse they tore from her dress.
The booty they sought was in the
bank.

Leaving their victim covered with
blood, half unconscious and lying in
the hallway, the robbers made their
escape. Two men were seen leaving
the apartments.

Convict Suicides.

Salt Lake, July 11.—E. W. Hamil-
ton suicided this morning by hanging
in the penitentiary. He was serving
three years for an attempt to kill. He
came here from Chicago, where be-
fore he was arrested, he made a run-
ning fight with the police. Recently
he fought a duel with knives, with a
fellow-convict and attempted to es-
cape.

RUSSIA WILL TRY MURDERERS

Over 800 Arrests of Jew
Killers Ordered by the
Czar's Government.

FIFTY-FOUR ARE CONVICTED
OF MANSLAUGHTER.

Trials of the Accused Will Be Held
in September—Distinguished Law-
yers Retained by the Government
—Vigorous Prosecution Will Be
Made—World Is Aroused.

Washington, July 11.—Advises re-
ceived today concerning the Kishi-
neff massacre shows that the storm
of protest from the civilized world
has had a good effect on Russia. The
government has been moved to vig-
orous action.

Eight hundred arrests have been
made, and 350 cases remanded for
trial in the lower court. Four hun-
dred and fifty cases have been sent to
the court of appeals, of which 53 were
indicted for manslaughter.

Trials of those accused of murder
will take place in September. The
services of four distinguished lawyers
have been secured to assist in the
prosecution of the murder cases, and
three others equally distinguished, for
the prosecution of the synagogue
property cases.

ATHENA CORN AND WHEAT.

Clark Walters Has 80 Acres of Fine
Corn—Wheat Crop Spotted.

Clark Walters, of Athena, one of
the pioneer farmers of Umatilla coun-
ty, was in the city today and reports
the corn and wheat crops of that vic-
inity in excellent condition.

Mr. Walters has 80 acres of corn
that now promises to make from 23
to 26 bushels per acre. The past
week has been most highly satisfac-
tory for corn, and the wheat crops
are also ripening fast.

Mr. Walters says that more and
more corn will be raised in this coun-
ty as the farmers come to understand
its value as a feed, and also as a
diversity for the soil. Some soils are
benefited greatly by the cultivation
and fertilizing consequent on a corn
crop. In that vicinity, increased
wheat yields have been secured by
alternating with corn.

One of the greatest values to be
derived from a corn crop in this
country is from its use as feed. No
grain will make better fat or make
it quicker than corn. The shredding
machine used in the East has been in-
troduced at Athena, and the fodder
cut up into a fine grade of feed, which
is eaten up clean by stock.

Much of the soil of Umatilla county
is especially adapted to a corn crop.
The climate is also highly conducive
to growth and when farmers learn to
rest their soil by changing crops, the
output of this cereal will form one
of the most profitable crops raised.

Mr. Walters visited Minacota last
year after an absence of 26 years, and
was surprised to find such an in-
creased corn area and so many dairies
in that state. He thinks the same
change will gradually come to the
West, although not in so large de-
gree.

Speaking of the wheat crop in the
vicinity of Athena, Mr. Walters says
it is somewhat spotted. Some fields
will yield 45 bushels per acre and
some but 15 bushels.

Henry James to Come Next Week.

London, July 11.—Among the nota-
bles to sail for America next week
will be Henry James, the famous nov-
elist, whose last visit to the United
States was made 25 years ago. He
has become so attached to his Eng-
lish home that until recently, he had
no thought of returning to America.
But now he has changed his mind.
He intends to make a long stay and
subsequently to publish his experi-
ences and impressions of the United
States, revisited after a quarter of
a century, in book form.

Massachusetts is free from the re-
peated murder trial farces of New
York. There is only one appeal pos-
sible there—from the jury's verdict
straight to the highest court.

Grasshoppers in the neighborhood
of Forsyth, Mont., have devastated a
strip of country 50 miles wide and 70
miles long.
