### LAUNDRY EMPLOYEES' PICNIC.

#### Day of Great Enjoyment for Those Employed at the Laundry.

The excursion given to the employees of the Domestic Laundry by the management yesterday was a decided success in every way. The crowd took the train in the morning, when the other excursion run by the O. R. & N. started, and went to the springs at Bingham, where the day was spent. Part of the merry-making took their lunches and part of them ate at the hotel where the proprietor took all pains to make them at home. J. F. Robinson, who was the promoter of the picnic, wishes to express his appreciation of the kindness shown him and his excursionists by Mr. Avery, the manager of the hotel. Music had been taken along by the people, and games and a good time generally was the order of the day. The party returned on a special at 9 o'clock, tired, but well pleased with the day's pleasures. Those in attendance were: Lela Roach, Emma Krasig, William Peters, Mr. and Mrs. E. R. Frady, Mrs. Clarke, Frank Krassig, Katy Silke, Mrs. Arnsperger, Mrs. Jordan, Berkeley Halley, Jennie Henderson, Lula Hart, Mrs. Briggs, Tella Kuebler and J. F. Robinson.

### PLEASANT EXCURSION.

#### Eighty-Five People Went to Bingham Springs Yesterday.

About 85 people took advantage of the chance given by the O. R. & N. to go to Bingham Springs yesterday, and all of them report a very enjoyable trip. The people were taken in three coaches attached to No. 4, which passes through here at 6 o'clock in the morning, and were returned at 9 o'clock in the evening. Many of the people took their lunches and spent the day out under the trees and by the side of the creeks, while others spent most of the time chasing the elusive trout up and down the stream. Judging from the tales told by some of the returned fishers this morning, the fish there are not only eager to be caught, but most plentiful.

It is expected that the company will run another excursion during the hot weather and give everyone a chance to enjoy the trip.

### Visiting Here on Vacation.

J. L. Carroll, formerly of Pendleton, but now a carpenter at the Western Shoshone agency, Nevada, is in the city visiting friends. Mr. Carroll is on a 30-day vacation and will spend most of it here renewing old acquaintances.

### MEN WANTED IN WALLA WALLA ARE TAKEN.

#### Sam and Ed Hall Secured Money Not Belonging to Them and Fail to Make it Good to the Authorities—Will be Taken to Walla Walla.

Sam and Ed Hall, two brothers, are in the county jail with a term in the federal prison in prospect for them if the charge of obtaining a money order belonging to another by fraudulent means is sustained.

The alleged facts are as follows: Several days ago Sam Hall went to the postoffice at Walla Walla and asked for mail for his sister, Maggie Hall, a resident of that place. A letter was given him and he left. The next day a lady by the name of Maggie Hall came to the office and asked for her mail. When told that there was none for her, she said that it was strange, as she should have received a letter containing a money order from her brother at Garfield, several days before that time. A few days afterward Hall again came to the office and was questioned concerning the matter, and admitted having received a letter which was not the property of his sister, and that the letter contained an order for \$10. He promised to return the money, and left the office, that being the last that was seen of him.

The officers of this city were notified and were on his track for some time, but were unable to locate him. Sam Hall, accompanied by his brother, Ed, who was accessory with him in the matter, came to this city, but so covered their tracks that the officers could gain no clue as to their exact whereabouts.

In the meantime the circumstances had been told to Postmaster Livermore, and he had instructed his clerks to keep a lookout for any mail that might come to such a person at his office. Today there was a letter for Sam Hall, and he put in an appearance at the window for it. The general delivery clerk, Miss Privett, engaged the man in conversation and ascertained from him that he was from Walla Walla, and that he had a sister in that city by the name of Maggie Hall. Being satisfied that he was the man they were after, the police were called and Hall was overtaken before he had gone far and taken to the jail.

The brother, Ed Hall, was located in a local lodging house in bed, and was arrested by United States Marshal A. A. Roberts and taken to the county jail in company with the other brother.

The two men will be given an examination before United States Commissioner Halley, Jr., as soon as the witnesses can come down from Walla Walla to appear against them.

### ACCIDENT TO SPORTSMEN.

#### Half a Dozen Happy Shooters Too Much for the Cab Team to Hold.

Yesterday afternoon, after having shot over the traps, six of the members of the Sportsmen's Association shot over the bluff in a cab. Frank Roberts, F. W. Waite, J. M. Spence, Tom Ayres, A. D. Stillman and H. J. Stillman started home from the grounds of the association in a cab, and as they came down the hill the other side of the high school building the load became too much for the horses to hold on the grade, and the cab was driven over the bank by the side of the road. At the place where they went over the bank it is about 12 feet to the bottom of the gully alongside of the driveway, and the first thing the occupants of the cab knew of their danger was when they started for the bottom.

The cab landed on its side in the sand at the bottom of the gulch, piling the men up inside and breaking the glass in the doors and otherwise wrecking the vehicle.

H. J. Stillman landed on his side on the bottom of the pile and thrust his arm through the window. A. D. Stillman landed on top of his brother and was stunned by the fall. He stood up on top of his prostrate kinsman for a minute and then sat down. "Get out of this rig, H. J.," he admonished the prostrate victim. "I'm killed and can't move." The man on the bottom of the pile told the man on top to get out of the way if he was dead, and let some of the live men out of the wreck. After a good deal of persuasion the dead man crawled through the window and helped the rest of the crowd out. J. M. Spence maintains yet that his neck was broken, and keeps turning his head from side to side to make sure that it is still on his shoulders. Several of the passengers were scratched up to a greater or less extent, but as good luck would have it, none of them were seriously hurt. The damage to the cab was slight, the glass in the doors being broken and the lamp on the other side smashed.

### New Librarian.

Ralph Wade has been elected to the position of librarian at the rooms of the Commercial Association, in the place of H. C. Guernsey, who has resigned to enter other business in the city.

The recent slump in cotton knocked \$9 value off every bale of the product in the United States.

### Work Begun on Sample Rooms.

George Darveau has got the bricklayers to work on his sample rooms this morning and will have the walls up in a short time. The work has been delayed for some time by the scarcity of masons in the city, one building having to wait on the other. As it is only five men are at work this morning, but more will be put on the job as fast as they can be spared from the other buildings under construction by the contractor who has the sample rooms to build.

### Treatment in Walla Walla.

Madison Jones, a retired stockman residing in Pendleton, came to town yesterday accompanied by Mrs. Jones, who will take medical treatment—Walla Walla Union.

## STOCK SITUATION

### THERE IS NO SCAB IN UMATILLA COUNTY.

#### Ranges Are Still Overstocked With a Prospect for a Shortage for Forage—No Mangle Among Horses Except on the Reservation.

According to the opinion of the stock inspector the sheep of the county are practically rid of the scab that menaced them some months ago. There were several bands in the southern part of the county that were afflicted with the disease early in the season, but they have all been dipped and have received certificates and gone to the mountain ranges. Of course, it is yet too soon to say positively that they are permanently rid of the plague, but it is probable that with proper care that it will not make its appearance again.

The sheep situation is about the same that it was last year as far as numbers are concerned. The ranges are congested and not enough sheep have been sold to help matters very much, though the sheepmen are in better fix for the winter than are the stockmen, for the former have taken care to raise hay enough to feed through the winter. Between 130,000 and 140,000 sheep, young and old, have been sent to the summer ranges in the mountains this year; about the same number that were summered last season. It is due to the summering in part that the scab got its start in the county, for there the sheep were mixed with bands that were encroaching on the Umatilla range from Grant and Morrow counties, and these latter had the disease. But it is not all likely that it will spread again this year, for the men are on the lookout for the sheep from that part of the country and will not take any chances with them again this year.

The mangle is a thing of the past with the horsemen at the present time, at least, as that disease has been stamped out in this county. This does not take into account the horses on the reservation, for they always are mangled, and as they are not under the care of the county officers nothing can be done with them. However, they are all confined to the boundaries of the government land, and there is not much danger to be expected from them.

The cattlemen have a hard time of it this winter, for they have depended on the straw left from this harvest to carry them through the winter, and that is so short this year
