APPENDIX REMOVED.

F. B. Holbrook, of Umatilla, Breaks the Record for Quick Work.

F. B. Holbrook, general manager for the Oregon Land & Water Company, at Stokes, went to Portland last Thursday on a short business trip, and while there submitted to an operation for appendicitis. Speaking of Mr. Holbrook's visit the Oregonian says:

"F. B. Holbrook, former councilman from the ninth ward, came down from Eastern Oregon last week, had his appendix removed at Good Samaritan hospital, and after remaining four days in the hospital, was able yesterday to be around on the street. He was circulating on the East Side yesterday among his old 'chums,' boasting on the fact that he broke the records in the appendix removal business. Four days is a very short time to be held in the hospital for so serious an operation, four weeks, sometimes longer, being the time generally required. The intimate friends of Mr. Holbrook say that only an ex-councilman from the ninth ward could hope to make such a remarkable record; and he admitted that there might be something in that."

YOUNG FISH PLANTED.

Experts Return Home to Clackamas From Bingham Springs.

Earl H. Wilson and Amos Oldenburg, the experts sent in charge of the consignment of fish from the Clackamas hatchery to Bingham Springs, returned home last night.

The trout have been planted in a specially prepared pond near the springs and are now in charge of C. W. Avery, who will be their sponsor and god father, as it were, until the little fellows are able to hustle for themselves in the swift waters of the Umatilla.

Mr. Wilson says the black spotted trout attain a length of 8 and 9 inches and the rainbow 10 inches and are the gamiest fish in the West except the Montana greyling, which stands at the head of the list for sport. The gentlemen who brought the fish from the hatchery say the pond prepared for their reception is the most perfect one yet found in the state by the fish commission.

With ordinary care they say the loss in the entire shipment will not exceed one per cent by the time they are turned into the river.
