Portland, July 15.—Traveling pas-senger agents of this city are prepar-ing to begin an active campaign to secure the convention of the American association of traveling passenger agents at Portland in 1905. The Pacific Coast Association of Traffic agents indorsed the Portland movement at its Ashland meeting early this year, but since that time little has been done to keep the movement alive. An organization of the forces in favor of the Portland meeting is

The entire Coast delegation of the New Orleans meeting next November will aid Portland in making the fight for the 1905 convention. As Presi-dent T. F. Fitzgerald is a coast man and is willing to lend his influence to secure the meeting for Portland, this is an important factor in the fight.

It has been tacitly agreed that the meeting of traveling passenger agents in 1904 shall go to St. Louis, and this is the reason that the coast passenger agents are centering their efforts on the 1905 meeting. They will make a big showing at New Orleans and it is probable the same con-siderations that induce the traveling passenger agents to decide Louis will hold good for Portland,

ITALIAN DEMANDED MONEY HE COULD NOT PAY.

Brown Appeals to American Minis ter. Combes-Says He Is Confined in Vermin Infested Cell and Feeds on Banana Peels to Keep From Starving to Death.

Guatemala, July 15.—Minister Com-es has received a letter from Frank Brown, an American, and former resident of Mansfield, O., who is in prison in Solola, charged with assault, and is now investigating. Brown ac-cidentally shot an Italian slightly wounding him last September. The Italian demanded \$1,500. Brown is a poor man and could not pay the amount and the Italian caused his arrest. Brown has repeatedly appealed for trial but the government is unable to locate the complaining Italian, who has evidently left the country. Brown in his letter says: "I have no shoes, my clothing is in rags, I sleep on a stene floor in a vermin-infested cell. During the entire 10 months of my imprisonment, food has been inade quate; I have been reduced to cat ing banana skins and orange peel, thrown to me by the natives, to keep from starving to death." He closes by saying: "I am miscrable, and by saying: "I am miscrable, and therefore implore you, for God's sake, to procure my liberty. If you can, give me a just and immediate trial."
