CATTLE TO SEATTLE.

Twelve Cars of Bees Being Loaded for the W. & C. R. Today.

J. C. Lonergan has bought 12 carloads of cattle for the Frye-Bruhn Company of Seattle and is loading them this afternoon preparatory to shipment over the W. & C. R. this evening. The cattle are all fat beef stock steers, and will be used in the Seattle market. They have been picked up around the county south and east of here, and are in fine condition for the butcher.

Twelve cars have also been ordered by the same company for a consignment of sheep to have gone out of here today for the same place, but there seems to be some mistake about it here, for the sheep have not arrived, and there are not enough sheep ready for the mutton market in the vicinity of the city at the present time to fill 12 cars, all of the stock having been taken to the mountain ranges. It is thought that the orders for the cattle cars became mixed and that two calls were made where one was meant.

POLICE COURT AFFAIRS.

Roll Call Record of the City Jail Was Broken This Morning.

W. E. Rose, who was arrested yesterday for taking too much firewater, forfeited his bail of \$10 this morning and failed to put in an appearance when the city court convened. This morning the city lockup had

the record roll call of the season, 21 men being incarcerated there when the police court was called at 9 o'clock. The men were all under a charge of vagrancy and all of them pleaded not guilty. They were all hard working men so they said, and were not able to get beds in the city, so were compelled to seek the hospitality of a box car as a place of rest for the night. Most of them were found guilty and sentence suspended until they could get out of the corporation limits. However, three of them were given jail sentences: John Kelly for 10 days, and Frank Felsch and Albert Walters for three days each.

Robert Summers was found guilty of the charge against him of having thrown Eddie and James Enwright under the feet of an approaching team on Tuesday last, and was fined \$1. He was given a lot of good advice by the court and allowed to go.

TWO FEDERAL CASES

TWO MEN BOUND OVER BY COMMISSIONER HAILEY.

Ed Hall Held for Trial for Fraudulently Collecting Money on a Money Order—Postmaster at Ukiah Bound Over Charged With Padding His Stamp Sales.

The case of the government vs. Sam and Ed Hall came up last night in the court of United States Commissioner Hailey. Clerk Proudfoot, of the Walla Walla postoffice, was here to testify in the matter, and after the testimony had been heard Ed Hall was held in \$250 bonds to appear before the federal grand jury at Portland in November. He was unable to give the required bonds, and is still in the county jail.

This is the case in which Hall asked for a letter for his sister and was given one containing a \$10 bill which proved to be the property of another woman by the same name, it being money sent from Grangeville, Idaho, by a brother of the owner of the letter.

Sam Hall was discharged, the evidence showing that he had nothing to do with the fraud.

Ukiah Postmaster Bound Over.

This morning the court was again convened to hear the preliminary examination in the case of Fred Hewett, the postmaster at Ukiah. For some time there has been a discrepancy in the reports of the office, and the inspector was sent to look into the matter. He found that the postmaster had been padding his report in the matter of stamp sales.

The postmasters are given a discount or percentage on the sales of all stamps, varying according to the amount of the sales. By padding the amount of the sales it is possible to make a good commission, and this is what was done, the stamp record being balanced by the use of the extra stamps in the purchase of merchandise from a Chicago mailing firm. The first purchase amounted to \$20.40 and was made on March 28, the second was for \$12.50 and was on the 20th of May last.

Hewett was arraigned this morning and waived his examination and was put under \$500 bonds to appear before the November term of the federal grand jury in Portland. He gave the bonds and was released.

DEPOT THEIVING.

Being Conducted on a Scale Not at First Suspected.

The theiving at the depot seems to be on a larger scale than was at first supposed, for the grocery firm of Oliver & Co. have reported some cases of systematic pilfering that has been going on for the greater part of a week. Peaches and oysters seem to be the chief things that the thieves want, for they make it a practice to take toll from every case that comes through. One case of oysters had eight cans emptied and the empty cans turned with the open end down and placed back in position. Several
