Moscow and Genesee, Idaho, are building several miles of macadamized road into the country districts this season, as an experiment in road building. The business men of these two progressive towns, assisted by the county court, are doing this work for the purpose of demonstrating the possibility of macadam in the country and will continue the work indefinitely, if proper encouragement is given. The towns recognize the urgent need of closer communication between the city and the country, and in order to bring about this condition. \$2,000 is being expended this year in good road huliding.
