

DON'T WANT A ROAD

PRESENT CONDITIONS SATISFY WALLOWA PEOPLE.

Well Known Railroad Man Returns From an Extended Visit to the Interior—Says an Enterprising Man Could Make a Fortune at Wallowa Lake.

Brown as a berry, Kit Carson, traveling freight agent for the Northern Pacific, has returned from a thousand mile trip on the headwaters of the Snake and in the Wallowa country, occupying three weeks, says the Walla Walla Statesman.

Mr. Carson was a passenger on the new steamer Imnaha plying on the Snake between Lewiston and the Imnaha mines, on her maiden voyage two weeks ago, and describes the new service made possible by the enterprise of Eastern men as opening up to travel and capital a vast territory on the upper Snake river country, much of which is little known to the outside world.

Mining interests on the upper Snake, Mr. Carson declares, are reaching huge proportions and a vast section of the country will be developed for agricultural purposes within a very few years. The trip up stream was without incident, except where lines had to be run ashore to aid the little boat to stem the swift water of the rapids.

From the Imnaha section Mr. Carson staged across country to Wallowa and has spent the past week in the vicinity of the lake and Joseph in the interests of the company.

"The Wallowa country and valley is a veritable paradise and the inhabitants know it," he said. "The result is that they do not care for immigration or even a railroad. They are rolling in land and wealth. Conditions around Wallowa lake show much of the primitive state of 50 years ago. There are a few scattering farms and campers as usually make it headquarters for a few weeks' sport in hunting and fishing but as to permanent improvements or enterprises there are very few."

An enterprising man with some capital could turn the head of the lake into an excellent summer resort and make money at it. "It is necessary, of course, to stage it in for 50 miles, Eight being the nearest railroad point."

"The Wallowa country and valley is a veritable paradise and the inhabitants know it," he said.

EDWARD IN IRELAND.

Uproarious Reception in Prospect at Dublin Tomorrow.

Dublin, July 20.—Despite the refusal of the Municipal Corporation to prepare an address of welcome to King Edward, the latter is assured of a warm welcome when he reaches Dublin tomorrow. The city is overflowing with visitors, including a considerable number of American tourists.

near the point at which his majesty will make his official entry into the city are being rented for large sums as it is understood the same quaint and interesting ceremonies will be observed as on the occasion of the last visit of Queen Victoria.

The full official program has not yet been announced, but from what can be learned it appears to be unlikely that their majesties will travel much in Ireland, as the yacht will take them to Cork, and afterward to Belfast. One of the days spent at the viceregal lodge may be given up to a motor run to Curragh, of which King Edward has very pleasant memories in his early soldiering days. But it will not be possible to make a stay there, as the headquarters but barely suffices for the needs of the commander-in-chief.

TEXAS GRAIN RATE CASE.

Hearing of Cases Before Interstate Commerce Commission.

Fort Worth, Texas, July 20.—Considerable interest attaches in shipping circles to the interstate commerce commission hearings here this week. The purpose of the hearing is to investigate rates and methods of handling shipments for export from Missouri, Kansas, Nebraska, Oklahoma and Indian Territory to points in Texas and to ascertain, if possible, if any special privileges are being granted by the railroads in violation of the law.

Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Deafness Can Not Be Cured By local applications as they can not reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by Catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.
