Enormous Damage in and Around Chicago to Trees, Poultry and Fruit.

STORM CAME WITHOUT WARNING, AND AT NOON.

Entire Telephone Service of the City Is Discontinued—Horses Crazy by Pain Run in Every Direction and Do Great Damage—Many Live Trolley Wires Down.

Chicago, July 21.—A phenomenal hailstorm broke over this city at noon today, being a reactionary storm following the excessive heat that has prevailed for days and that was very oppressive this forenoon, following a night that was suffocating.

The volume of hail broke all records in the history of Northern Illinois. Not only did an immense quantity fall, but many were of uncommon size and all were driven by a strong wind in the city untold thousands of panes of glass were broken—skylights, and the windows in upper stories of the houses in the business section suffering most.

The parks and residence districts immense damage was done to trees and shrubbery, which were cut and riddled indescribably. In most cases the trees and shrubs were not only completely denuded of their leaves, but all of this year's growth was cut and broken off.

The few reports from the suburbs that are slowly coming in, assert vast injury to the market gardens and orchards. Many of both are completely ruined for this year.

The hailstones were from the size of a pea to three ounces in weight, their impact hurt people and animals badly. Several people were caught in the parks and severely beaten by the hail.

The entire telephone service of the city has been discontinued, but owing to the abruptness of the coming of the storm there were many cases of electrical shock before the conditions were fully realized and the service shut off.

Throughout the storm there was a heavy downpour of rain and a high wind, and constant lightning.

## EXTENSION IS NOW CERTAIN

Harriman System Has Decided on a Puget Sound Terminal Via Spokane.

BRITISH COLUMBIA WILL BE DIRECTLY TRIBUTARY.

Claimed That the Projection Will Make the Distance Between Spokane and the Sound Less Than by Either the Northern Pacific Railway or the Great Northern.

Tacoma, Wash., July 21.—D. O. Mills, a director of the Harriman railroad system, and controlling owner of the Bellingham Bay & British Columbia Railroad, has formally ordered an extension of the Bellingham Bay road across the Cascade mountains to Spokane.

The distance from Spokane to tidewater will be 295 miles, 19 miles shorter than the Great Northern and 50 miles shorter than the Northern Pacific. The terminals on Bellingham Bay will be 100 miles nearer the Pacific ocean than the Northern Pacific and Great Northern terminals at Tacoma and Seattle.

The inevitable result of this extension will be to divert immense quantities of freight and passenger traffic as well, toward the Northwest from Pendleton, which now goes westward from that point. With the completion of the extension freight and passenger alike, can reach the Sound and British Columbia as well, without transferring to another system as is now the case.

Freight and passenger traffic over the Harriman system destined for the far northwest will be greatly stimulated, the Harriman lines being very much more than now, effective competitors of the Northern Pacific and Great Northern, for this line of business.

## BOY RUN OVER BY A WAGON.

Bruised and Crushed Across the Abdomen, and Injuries Probably Fatal. Clarence, the 10-year-old son of William Bowers of Cold Springs, is at the hospital as the result of an accident which happened at the ranch yesterday afternoon about 5 o'clock.

Mr. Bowers was hauling water, using for the purpose a wagon having on it nine barrels, which were filled with water and taken to the place where it was needed.

The boy was picked up in an unconscious condition and brought to the hospital in this city, where Dr. C. J. Smith was called to attend the case. It was found that the child had sustained injuries to his abdomen which are of a serious nature, and from which it is not likely that he can recover.

The sufferer was made as comfortable as possible, and was resting as well as could be expected at the last reports, though it is not thought that he will live for a great length of time.
