**Frost in Central Oregon.**  
Tuesday morning was something of a record breaker for the 14th of July in Eastern Oregon. A healthy frost adorned the landscape before sunrise and in some places ice was in evidence. We can afford to think of the suffering denizens of the torrid and sweltering East with pity and compassion as we inhale the deliciously cool, invigorating, life-giving ozone of grand old Gilliam county. Great is Oregon and fortunate are her people.—Condon Globe.

## USING RIVER WATER

### CITY HEALTH OFFICER SAYS BOIL YOUR DRINKING WATER

An Epidemic of Typhoid is More or Less Imminent While River Water is in Use Unless Dr. Cole's Advice is Universally Followed.

Owing to the low stage of the water in the city well it has been found necessary to pump some of the supply from the channel of the river. While this water is as pure as river water and surface water can well be in this country, yet it carries, as a matter of course, more or less of the drift from the rains and the debris that is bound to come in the water of a running stream open to the air. For this reason it is thought best by Dr. Cole, the city health officer, to call the attention of the public to the advisability of boiling the water used for drinking purposes. Whether or not the water is pure and free from all contaminating matter it will be wise for the residents of the city to follow this advice and possibly thus prevent an epidemic of typhoid, such as swept the city several years ago.

### VOTE AGAINST DISTRICT.

People of Milton Turn Down the Walla Walla River Proposition.

Milton, July 22.—By a vote of 89 to 53, the proposition to establish the Little Walla Walla Irrigation District was defeated at Milton yesterday.

### A NEW UNION.

How to Join and Get Quick Results at Small Cost.  
Why not join our union of piano purchasers and save a hundred dollars? You can do it and we can help you. This is how it is done: We can well afford to sell ten or more pianos cheaper than one so have organized a union of ten members. You join and pay \$10.00 down and \$10.00 a month, the piano is yours. Now here is the best part of it. Every time a new member joins, the price of your instrument depreciates in price \$10; in other words, when the union is filled every member gets his instrument \$100 less than regular price. For example, a regular \$300.00 instrument can be had for \$200.00 by joining the union. Don't delay taking advantage of this great opportunity, as it will only last a few weeks of the dull season. This, combined with our easy payment plan and exchange contract makes it possible for everyone to have an instrument. Therkelsen's Piano House, 315 E. Court street. Everything musical.

### Returned Home Sick.

Homer, the local agent of the company, and they had in contemplation an extended trip to Sumpter, Baker and Walla Walla, which was abruptly ended by Mr. Bingham's illness.

### To Erect Cannery.

J. Fulforih has the contract for building the cannery at Echo for the American Hare Packing and Cold Storage Company, and the lumber is now being delivered on the ground. By the provisions of the gift of a block of land from the city of Echo to the company, this building must be three times the value of the land. The packing company proposes to go beyond this provision and make the building worth at least six times the value of the land.

In shipping our order recently from a large Eastern toilet paper factory, an error was made and a much higher grade paper was sent—a fine tissue worth 12½c a roll. Rather than recall the shipment the factory turned over the entire shipment to us at the price of a cheaper grade.
