USE PURE ICE INSTEAD.

Don't Run Any Risk—Use Ice From Boiled and Distilled Water.

"Owing to the low stage of the water in the city well it has been found necessary to pump some of the supply from the channel of the river. For this reason it is thought best by Dr. Cole, the city health officer, to call the attention of the public to the advisability of boiling the water used for drinking purposes."—E. O., July 22.

Better use pure ice, made from water that has been both boiled and distilled. It is cheaper than you can buy the water. Ross Ice Co., Phone Main 1781.

WANT HEAVY HORSES

AN ALBERTA BUYER IS AFTER UMATILLA COUNTY HORSES.

Regular and Capacious Market for Certain Descriptions of Horses in the Canadian Province—No Money in Shipping Cattle on Account of the Freight.

A. Y. Cameron, of Calgary, Alberta, Canada, was in the city today the guest of his cousin, Conductor Cameron, of the O. R. & N. Mr. Cameron is in this country looking for horses for the trade in his home province. He says that the stock market there is as well stocked with light stock as the market in this country, but that there is a great demand for heavy horses, and on those a good margin can be made. However, if the stock that is shipped in there is not heavy enough it will not sell, or if it does it will be sold for figures that will cut the profit in the shipment.

Thousands of people are coming into the country and they all want stock, for it is a stock country; but so much of the light stuff from the northern border of the United States has been shipped in that there is no demand for anything that is not heavy and large of bone.

Cattle cannot be shipped there from this country at a profit, for the freight is too high and the margin so small that the shipper will make nothing by the time he has fed his cattle and held them for sale.

Mr. Cameron left this morning for Spokane, from which place he will gradually work back this way, picking the best of the stock from the bands that he finds until he has made up a shipment of a hundred head or so, when he will put them on the train for the Alberta country.

HALF A MILLION DOLLARS.

Defaulter Made Big Money for the Firm He Victimized.

Buffalo, July 23.—Mrs. Frank La Bountie, the wife of the confidential clerk and bookkeeper for the new law firm of Wilson & Smith, who, it is alleged, used hundreds of thousands of dollars of his employers' money to carry on his extensive real estate deals, made a statement today in behalf of her husband. She said that her husband's operations were on a more extensive scale than thus far has been admitted. The figures now are approaching the \$500,000 mark, and the investigation is not nearly finished.

"My husband," said she, "has turned over to the firm property valued at \$400,000. When all is over Wilson & Smith will be able to realize a profit of at least \$100,000 from the operations of a man who was insam on the subject of real estate speculations and whose mental derangement is due entirely to being overworked."

La Bountie's salary from Wilson & Smith was \$52.50 a month.

New Houses Completed.

The new houses belonging to John E. Bennett and L. E. Tarbett, on Thompson street, are nearing completion. They are being built by L. O. Sheek and add greatly to the appearance of that portion of the city. Mr. Tarbett's house is nearly ready for occupancy as the papering and other inside work is about done, but Mr. Bennett's will not be completed for several days yet. Mr. Sheek will build a residence for himself on a lot adjoining Mr. Bennett's house, and overlooking Bluff street, from the point of the hill on Thompson. It is one of the beautiful sites for a residence in the city.

ACCIDENTALLY SHOT.

Baker City Citizen Meets With Serious Accident While Hunting.

William Moeller, who was accidentally shot and who was reported to be dying last night, is much better this morning and no fatal results are expected.

The accident happened on a hunting trip yesterday afternoon. Mr. Steincliff, of the Baker Cafe, left in company with Mr. Moeller yesterday afternoon for a hunting trip of several days' length.

The accident happened near Keating, which is 20 miles from Baker City. The two hunters had scarcely arrived at the camping spot before Mr. Steincliff in his eagerness to bag some game, began shooting. He was soon followed by Mr. Moeller.

The injury was inflicted after the usual manner of shooting accidents. Mr. Steincliff did not see Mr. Moeller and had peppered him with shot about 25 yards distance before he realized his companion was in the line of the shot.

Can anyone suppose that we would double the necessary cost of our brewing without a vital reason?

Would we spend so much on cleanliness? Would we cool the beer in plate glass rooms? Would we filter all the air that touches it? Would we age it for months? Would we sterilize every bottle?

We do it to attain absolute purity—to avoid the remotest possibility of germs—to make Schlitz Beer healthful.

Why accept a common beer, brewed without any of these precautions, when Schlitz Beer costs no more?

Your dealer may prefer to furnish a beer that pays a little more profit; but does it pay you to permit it? Isn't pure beer—Schlitz Beer—worth asking for?
