

# "The Breakers"

Where to Stop at North Beach.

The Breakers Hotel is conducted to attract the best patronage, and is a summer hotel that is unsurpassed on the Pacific Coast north of the famous California beach resorts.

The building has an ocean front of 100 feet, is 76 feet wide and four stories high, or 73 feet from the ground floor to the top of the observatory.

It has handsomely furnished rooms, single or en suite, for 230 guests, each room being carpeted.

The house is lighted by electricity with electric lights and electric call bells in every room, and these lights make it one of the most brilliant beacons on the entire coast.

The entire lower floor is thrown open to the public, and, being beautifully carpeted, the spacious reception room and large airy halls always form favorite gathering places for guests. The billiard and pool room is also quite popular for merry gatherings.

An Aeolian and Pianola in the commodious parlor furnishes delightful music at all times, and musicals are pleasant features during the entire season.

The Breakers has a regular orchestra which furnishes music for informal dances and balls, and the large dining room, with its smooth, hard floor, makes an ideal hall for regular dancing parties.

An abundance of fresh and salt water fish, clams, oysters, crabs and other sea food is always on our menu; our entire supply of milk, butter and cream comes from our own herd of Jersey cows, and poultry and eggs are supplied from the hotel farm adjoining the grounds.

There are hot and cold, fresh and salt water baths in the house, with private baths and toilets.

The waves of the ocean at high tide roll within 200 feet of the hotel, and the beach in front is superb for sun bathing.

On the grounds are bowling alleys, golf links, tennis courts and croquet sets; on the lakes, just back of the hotel, is a fleet of sail and rowboats, and on Shoalwater Bay, just east of the lakes, is a gasoline launch for parties of fishermen, picnickers or others who prefer the warm, still-water bathing to the tumbling of the surf.

All trains stop at the railroad station in the hotel grounds, and no crowding into hotel omnibuses or walking is necessary, since the hotel ground is a perfect velvety lawn, where the guests are practically landed at the hotel door.

The Breakers Hotel is located at Breaker Station, a regular ticket office, where all trains stop. It is one and a half miles north of Long Beach Station.

In purchasing tickets see that they read Breakers, Wash., and have baggage checked through to that point.

Telegraph and telephone connections in the hotel.

THE ELATERITE ROOFING CO.

Worcester Building.

Portland.

## PLANS FOR HEPPNER

VALUABLE SUGGESTIONS BY PUBLIC SPIRITED MAN.

J. W. Morrow Advocates Making a Public Park of the Flood-Swept Ground, Inducing the O. R. & N. to Build a Depot Up Town, and Offers to Donate Twenty Lots to Needy Persons Who Will Build Thereon.

Elsewhere in this issue, says the Heppner Times, appears a proposition and suggestions from J. W. Morrow which are worthy of the earnest consideration of Heppner citizens.

His suggestions in regard to a park and the necessity of a sewer system are timely and will doubtless meet with hearty approval. As he says, no more opportune time for thus beautifying and bettering the sanitary conditions of our town will ever present itself. All will admit that a sewer system is needed badly as a sanitary measure, while a park will not only afford a great convenience, but will greatly beautify our town if located as suggested.

Another very important matter is the proposition to induce the O. R. & N. to extend their line to the center of town and there build a depot. The convenience afforded by such a move is apparent to all, and while the proposition carries with it a very generous donation on the part of property owners in the district where it is proposed to locate the depot, it is a fitting recognition of the valuable and timely service rendered by the O. R. & N. to Heppner during her time of distress from the recent disaster.

Mr. Morrow's offer, not only to donate his lots along the banks of Willow creek to the O. R. & N. for truckage and depot purposes, but to give free gratis 20 lots on the hill between the court house and school house, one each to 20 families who lost their homes in the recent flood, is a very generous one.

The Times believes plans mapped out by Mr. Morrow, if carried into effect, will be one of the greatest improvements possible to encourage the rapid building of homes in our city. The free lots offered by him, to families who lost their homes in the flood, affords an opportunity for them to build on higher and safer grounds without additional expense for a lot.

Heppner has not been injured in a business way and it is only a matter of time until the number of new homes will exceed those washed away. The only question is how quickly this will be done.

### STORY OF LEO XII.

"The Prisoner in the Vatican" Visited His Dying Brother.

Rome, July 24.—Interesting personal stories about Leo XIII continue to fill the press and form a staple of conversation among all classes. Here is one that, whether or not it be true, is none the less interesting. As has been frequently stated, he is supposed never to have left the vatican since the conclave made him pope; but from a very good authority there emanates a story to the effect that once by night, in the disguise of an ordinary priest, he drove in a common cab through the capital of "the usurper" to a palace where a brother of his, who was a cardinal, lay dying. A woman who noticed the priest get out of the cab, swore that it was the pope she saw. Next day the cardinal, his brother, lay dead.

### WILL RETAIN PROF. COOK.

Olympia School Board Turns Down Petition for His Dismissal.

Olympia, Wash., July 24.—The Olympia school board this week dismissed the petition of 29 or 30 school patrons of the West Side protesting against the re-election of Professor Frank D. Cook, principal of Garfield school. The board refused to take any action against Professor Cook on the ground that the petition did not state sufficient facts upon which to base a dismissal. The patrons alleged that the principal was incompetent and whipped a boy to make him cry last winter.

### SOUFFRIERE THREATENS.

West Indian Volcano Shows Signs of Eruption.

Kingstown, Isle of St. Vincent, July 24.—The Souffriere volcano has been slightly agitated since July 19, emitting puffs intermittently, which caused clouds and low rumblings.

A severe earthquake shock was felt at 1:40 a. m. Tuesday, accompanied by a subterranean sound of choking, which shook the buildings here and threw the people into a state of consternation, fearing that a destructive phenomenon would follow the earthquake, similar to that of July 17, 1902, which preceded the eruption of September 3, 1902.

### Fighting Over at La Guyara.

La Guyara, July 24.—All fighting has now ceased. Castro officially advises that 1,500 were killed and wounded in the recent battle. General Ulanite was killed. Twenty-five revolutionary generals are prisoners, and all officers of low rank have been paroled. General Gomez captured 3,000 Mausers and six cannon.

## REFRIGERATORS

Refrigerators at your own price. Only a few left. We want to get the money tied up in our refrigerators into other goods so you can buy them for less than they cost us.

## RANGES

We are closing out our line of ranges and can beat any price in town in the range line. If you want a genuine bargain see us.

**Baker & Folsom**  
NEXT DOOR TO POSTOFFICE

## The Underwood Typewriter

Is the most practical Typewriter for SCHOOL or BUSINESS purposes

## BECAUSE

Its writing is always VISIBLE, the work is right "before the eyes" from the first letter struck until the communication is finished.

No heavy carriage to lift or slam.

Its marginal stops are in FRONT.

It has a tabulator which is a Part of the Machine. Others charge \$25.00 extra for tabulator.

Its type are cleaned in an instant WITHOUT SOILING THE HANDS. Corrections can be made in an instant without consulting a scale.

Its light action, ease of adjustment and simplicity, make it the easiest to learn.

It has two color ribbons which makes it very handy for ruling and legal work of all kinds. See sample work hanging in Post Office.

Put on trial against any machine. Any one in the market for a typewriter can have free use of my sample for trial before buying.

I can furnish the best of references from people in Pendleton who use the UNDERWOOD. Call and see machine and get terms.
