ground to draw from it would yield more water. Accordingly, two 10-inch pipes will be laid to the east-ward and at the end of the pipes the main line will be branched and will end in several pipes having perforat ed ends. The pipe will be sunk clear to the bedrock, and in this way is expected to be below the water level so that at all seasons of the year it will be able to draw water for the well.

By the new arrangement it is expected that the well will be full the year round, and that there will never be any further necessity for the use of the fire engine during the

Thanks to the arbitration of Conrad Platzoeder and the mystic influ-ences of the dice box, Pendleton is soon to have another brick building, and it is said, one of the finest in the city.

It will be remembered that for some time Joe Basler and Jo.n Schmidt have been arguing over the sale of the property on Main screet upon which both wanted to build a husiness block. But both of the men wanted to buy and neither to rell. At last Conrad Platzoeder got the men to set a price on their land and asked them to settle the matter by chance, but the men backed out the last minute and it was thought that the matter was over and done

But Conrad's mind was busy, and after much persuasion he got principals together last night and the was talked over. matter Schmidt offered \$12,800 for the place and this was \$50 less than the price. wanted by Basler. Both of the men stuck here, but the arbiter at last got them to shake dice for the result. If it is thought that brick cannot be got this fall the building will be put up as soon in the spring as the weather permits. The block will have 75 feet front and will be two stories and will be finished in as modern a manner as the money and plans of the owner and architect can

Sneak Thief Captured, But Escapes Before the Police Get Hold of Him.

The city was the scene of another hold-up this afternoon, and this time the affair took place in the light of the day, and not only that, but in a lodging house,

A man under the influence of liquor went into the Queen lodging house, back of the Queen Chop House, on Main street, and started to rifle a trunk in one of the rooms.
