USE PURE ICE INSTEAD.

Don't Run Any Risk—Use Ice From Boiled and Distilled Water.

"Owing to the low stage of the water in the city well it has been found necessary to pump some of the supply from the channel of the river. For this reason it is thought best by Dr. Cole, the city health officer, to call the attention of the public to the advisability of boiling the water used for drinking purposes."—E. O. July 22.

Better use pure ice made from water that has been both boiled and distilled. It is cheaper than you can boil the water. Ross Ice Co., Phone Main 1781.

Deafness Can Not Be Cured

By local applications as they can not reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

Grasshoppers are making quite a run and are feared very much just now.

VAN CLEAVE HAS SOLD SEVENTY-FIVE HORSES.

Thomas Sheridan Has Sold His Butter Creek Ranch—Alfalfa Crop Not So Heavy as Last Year, But the Quality is Good and Price Better—W. H. Babb Will Ship Horses to Canada.

Echo, July 30.—O. R. & N. Station Agent C. S. Mudge is building on his homestead.

F. B. Van Cleave returned yesterday from Wells Springs where he has been for the past week gathering his band of horses. He has sold the entire band of about 75 head to Thomas Sheridan of Butter creek.

Roadmaster Connel of the O. R. & N. dropped off between trains here this morning.

Thomas Sheridan has sold his fine ranch on Butter creek to T. B. Van Cleave. This consists of 160 acres, and is one of the most valuable properties on the creek.

D. C. Brownell was in today from Butter creek. He reports work on the second crop of alfalfa as progressing rapidly with promise of a good yield. The average yield is somewhat below that of last year on account of atmospheric conditions, but the price is much better, which will make the output far above last year's crop.

W. H. Babb came down from Pendleton yesterday and today is moving his household effects. He is also buying horses which he intends to ship to the Canada market in about 10 days.

A NEW UNION.

How to Join and Get Quick Results at Small Cost.

Why not join our union of piano purchasers and have a hundred dollars? You can do it and we can help you. This is how it is done: We can well afford to sell ten or more pianos cheaper than one, so have organized a union of ten members. You join and pay \$10.00 down and \$10.00 a month, the piano is yours. Now here is the best part of it. Every time a new member joins the price of your instrument depreciates in price \$10; in other words, when the union is filled every member gets his instrument \$100 less than regular price, for example, a regular \$200.00 instrument can be had for \$200.00 by joining the union. Don't delay taking advantage of this great opportunity, as it will only last a few weeks of the dull season. This, combined with our easy payment plan and exchange contract makes it possible for everyone to have an instrument. The Kleisen's Piano House, 315 E. Court street. Everything musical.
