# HAD BRANDED HAND

CAREER OF JONATHAN WALKER, SLAVE STEALER.

Engaged in the Business of Running Off Slaves to Mexico to a Free Colony—Fined, Branded, Pilloried and Imprisoned—Died in 1878, Aged 79 Years.

Muskegon, Mich., July 31.—Interesting ceremonies are to be held here tomorrow in commemoration of the twenty-fifth anniversary of the death of Jonathan Walker, immortalized by the poet Whittier as "The Man With the Branded Hand."

Jonathan Walker was born in Harwich, Mass., in 1799 and in early manhood took a great interest in the slavery question. In 1835 he formed a compact with Benjamin Lundy for the establishment of an escaped slave colony in Mexico. The men owned a small vessel, and with it they assisted the slaves to get away to a place of refuge. They followed this practice for several years, and Walker had many harrowing adventures during the time. He was finally captured in July, 1844, and tried before a court at Key West. He was convicted of slave stealing, and the judge sentenced him to pay a fine of \$4,200, suffer seven years in prison, stand in the pillory for one hour and to have the letters "S. S." burned on the palm of his right hand.

Walker paid the fine, stood in the pillory, the branding part of the sentence was carried out and the suffering man confined in jail. There he remained for nearly a year until released. In 1863 he came to Muskegon county, and settled on a beautiful spot near the lake, where he remained until the time of his death, which occurred April 30, 1878. On the first of the following August a handsome monument to his memory was erected in Evergreen cemetery by Phottus Fish, a young United States navy chaplain, who had known the old man before his death and who had shared his views on the slavery question. The dedication of the granite shaft was made the occasion of a great gathering to pay tribute to the dead man. People assembled, not alone from the immediate vicinity, but from many parts of the country. On the face of the monument is a reproduction of the branded hand and the dates of Walker's birth and death.

## CONTEMPTIBLE MEDDLING.

The Old Letter-Writing Meliady Strikes Baker City.

Up in Baker City they have discovered a new pastime, satin having found some mischief for idle hands to do, and this time it is writing anonymous letters to married women telling of the alleged actions of their better halves, says The Dalles Chronicle. From the nature of the subject matter it will be seen that someone in Baker City has all their time to themselves or they wouldn't have time to undertake such an endless job. The same thing was attempted in The Dalles a few months ago and complaint brought to the Chronicle by the recipient of the same. We, however, considered persons who would stoop to such underhanded business beneath the notice of this journal and so persuaded the complainant to let the matter drop.

## ANTI-REBATE CASE

INTERSTATE TRAFFIC LAW IN FEDERAL COURT. Attempt to Restrict Railroad Carrying Charges to the Published Rates—Discrimination of \$1.17 Per Ton in Freight Charges on Coal. Norfolk, Va., July 31.—Railroad and business circles are awaiting with keen interest the outcome of the arguments begun in the United States district court here today in the application for a permanent injunction to restrain the Chesapeake & Ohio railroad from carrying coal or any other traffic at any greater or less rate than its published tariff rates, and also to restrain the New Haven road from receiving any rebate or advantage therefrom. The case is the first to arise under that section of the anti-rebate law which gives the interstate commission power to ask for an injunction to restrain a railroad from charging less than its posted freight rates.

## NEW OREGON ROAD.

Great Scheme for Opening Up Central Oregon Proposed. Burns, Ore., July 30.—Francis G. Burke, of Minneapolis, spent two days here making a personal examination of the country and a feasible route for a railroad which he thinks will be built from Salt Lake to the coast, terminating somewhere near Eugene. He expressed the belief that the \$10,000,000 recently paid the Union Pacific Company by Clark for the Oregon Short Line, will be expended on a road through this country to the Pacific Coast.

After an examination of the country he has concluded that the most practicable route for such a road would be across the desert from Stein's mountain, striking Lake county at a point where Oregon and California corners on the Nevada line, thence bearing northwest and passing through Crooked creek valley and up the Chewaucan valley to Paisley, and in a northwesterly direction to the low pass over the Cascade range on the headwaters of the north middle fork of the Willamette river. Nearly all the timber in this part of Oregon would be accessible to such a road. Mr. Burke goes from here to San Francisco thence to New York. A life-sized copper statue of Maudie Adams, the noted actress, is a proposed feature for Utah's copper display at the World's Fair, St. Louis.

# "The Breakers"

Where to Stop at North Beach.

The Breakers Hotel is conducted to attract the best patronage, and is a summer hotel that is unsurpassed on the Pacific Coast north of the famous California beach resorts. The building has an ocean front of 100 feet, is 76 feet wide and four stories high, or 73 feet from the ground floor to the top of the observatory. It has handsomely furnished rooms, single or en suite, for 250 guests, each room being carpeted. The house is lighted by electricity with electric lights and electric call bells in every room, and these lights make it one of the most brilliant beacons on the entire coast. The entire lower floor is thrown open to the public, and being beautifully carpeted, the spacious reception room and large airy halls always form favorite gathering places for guests. The billiard and pool room is also quite popular for merry gatherings. An Aeolian and Pianola in the commodious parlor furnished with delightful music at all times, and musicals are pleasant features during the entire season. The Breakers has a regular orchestra which furnishes music for informal dances and balls, and the large dining room, with its smooth, hard floor, makes an ideal hall for regular dancing parties. An abundance of fresh and salt water fish, clams, oysters, crabs and other sea food is always on our menu; our entire supply of milk, butter and cream comes from our own herd of Jersey cows and poultry and eggs are supplied from the hotel farm adjoining the grounds. There are hot and cold, fresh and salt water baths in the house, with private baths and toilets. The waves of the ocean at high tide roll within 200 feet of the hotel, and the beach in front is superb for surf bathing. On the grounds are bowling alleys, golf links, tennis courts and croquet sets; on the lakes, just back of the hotel, is a fleet of sail and rowboats, and on Shoalwater Bay, just east of the lakes, is a gasoline launch for parties of fishermen, picnickers or others who prefer the warm, still-water bathing to the tumbling of the surf. All trains stop at the railroad station in the hotel grounds, and no crowding into hotel omnibuses or walking in sand is necessary since the hotel ground is a perfect velvety lawn, where the guests are practically landed at the hotel door. The Breakers Hotel is located at Breakers Station, a regular ticket office, where all trains stop. It is one and a half miles from Long Beach Station. In purchasing tickets see that they read to Breakers, Wash and have baggage checked through to that point. Telegraph and telephone connections in the hotel.
