toes packages which, upon close ex-
amination, proved to be a miscella-
neous assortment of vegetables, in-
cluding a few green tomatoes and
red paint, the whole having the ap-
pearance of ripe tomatoes.

Agents detailed to investigate
found that red paint was used to a
great extent in coloring worthless
and unripe tomatoes, and that other
coloring matter was also used to
give a ripe appearance to worthless
canned vegetables of various kinds.

LA GRANDE LAND DISTRICT.

Umatilla County the Largest in the
District.

The La Grande land office district,
in which Umatilla county is located,
contains in round numbers, \$43,000
acres of land, and is comprised of the
counties of Umatilla, Grant, Morrow,
Union, Baker and Wallawa.

Umatilla county is the largest in
the district and contains 2,000,000
acres of land of all descriptions. The
Umatilla Indian reservation contains
151,360 acres, in the heart of the
county. There are 800,000 acres of
vacant land in the county, about 200-
000 acres of farming land, and nearly
1,000,000 acres of wooded mountain
and pasture land.

Morrow is the smallest county in
the district, containing only a total
of 511,000 acres, 230,000 acres of this
being vacant and 280,000 deeded land,
being vacant and 280,000 deeded land.
The district is well watered, con-
taining the Umatilla river and tribu-
taries, John Day river, Grande Ronde,
Burns, Wallawa, Powder river, almost
river and numerous streams almost
as large as rivers, well distributed
throughout the entire district. It is
thought that this is the greatest num-
ber of beautiful mountain streams in
any land district on the Pacific coast.

UNITED STATES COURT
SUSTAINS THE MERGERHill Wins Unqualified Victory in Case of State of Minnesota
Vs. The Northern Securities Company.

Decision Holds That Securities Company Was Not Formed to Control
Majority of Stock of the Two Roads, or That Either Road Was a Party
to the Formation of the Securities Company.

St. Paul, Minn., Aug. 1.—A decision
was handed down this morning in
the case of the State of Minnesota
vs. The Northern Securities Company,
by which the promoters of the
merger gain the suit. James J.
Hill's victory is comprehensive and
substantial.

The decision was filed this morning
by Judge William Leeson of the
United States circuit court. The
state loses on every point it made
against the merger. The decision is
a sweeping victory for the owners of
the securities, and Great Northern
and Northern Pacific stocks.

The court holds that the evidence
fails to show that the Securities Com-
pany was formed for the purpose of
holding a majority of the Great Nor-
thern as well as Northern Pacific stock.
The state anti-trust act is practically
a copy of the Sherman act, and re-
lates only to railroads, and the Se-

curities Company is not a railroad.
Neither road was a party to forming
the Securities Company.

Judge Leeson says: "The Securities
Company is but an investment of
stockholders in railways without
power to consolidate them, or to in-
terfere with their management or
control. That is my judgment, and it
leads me to the conclusion that none
of the defendants have violated the
Minnesota anti-trust act.

"The conclusion is apparently con-
trary to the case of the United States
vs. The Northern Securities, but the
right of litigants and my own sense
of duty alike require this decision.

"A decree is perforce entered dis-
missing the state's bill of complaint."

Effect on Stocks.

New York, Aug. 1.—Northern Se-
curities stock advanced four points—
to 93 1/4, then reacted to 90. Forty
thousand shares changed hands.

TO SET ASIDE A WILL.

Alleged That the Document Was
Made by One of Unsound Mind.

John R. Morrison, Richard Morri-
son and Grace E. Hales have insti-
tuted proceedings to force G. M. Mor-
rison, Robert Morrison, Eliza G. Mor-
rison and William Morrison to show
cause why the will of their father,
John Morrison, should not be set
aside and the property be redistrib-
uted.

The contestants allege that at the
time of the death of John Morrison,
he was of advanced age and was of
unsound mind and not capable of
making a will or of attending to busi-
ness, and had been in such a condi-
tion for some time. That he was
easily led, and that the respondents
secured an undue influence over him
and led him to make an unfair divi-
sion of the property.

Morrison died February 8, 1903, on
his ranch near Adams, leaving an
estate valued at \$40,000, and this was
divided in the will in such a manner
as to lead to discord in the family,
and the action is the result.

The contestants ask the court to
cancel the letters testamentary and to
declare the will to be fraudulent and
to set it aside.

The court has set September 7 as
the date upon which the respondents
are to appear and show cause, if any,
why the prayer of the contestants
should not be granted.

IMPORTANT TRANSFER.

Expected That the Golden Rule Will
Be Traded for Farming Property.

There is a deal on the boards to
trade the Golden Rule hotel for prop-
erty in the Despain gulch. For some
time the deal has been on, and it is
not now settled, though it is practi-
cally so.

Conrad Koehler is the owner of the
hotel, and has been offering it for
sale for some little time. T. K. Beard
is the man who wants the property
and is willing to trade for it. He is
the owner of a thousand acres of
land in the gulch, and will trade 640
acres for the property here, besides
giving a lot of cash.

The hotel is valued at \$26,000, and
the section of land is held at \$14,000,
so that Mr. Beard will have to put up
\$12,000 in addition to the land. This
he has done, or will do, for the papers
are all drawn up and the transfer is
practically made.

Mr. Beard will make additions to
the place and have it overhauled,
making it one of the best hotels in
the eastern part of the state. New
furniture will be put in and the in-
terior thoroughly overhauled and re-
modeled and all the details of the
work will be attended to so that when
the place is opened it will be able to
attract and hold the best trade on
the road.

NATIVE OREGON PRODUCTS.

Beautiful Easel of Native Wood Pre-
sented to Information Bureau.

A huge easel, over eight feet in
height, containing one of the most
beautiful collections of Oregon woods
ever displayed in Portland, has just
been received from Coos Bay by the
Oregon Information Bureau, says the
Oregon Daily Journal. The collection
consists of 16 specimens, all beauti-
fully polished, and was presented to
the bureau by the Marshfield board of
trade.

The woods are for the most part
knotty specimens, much prized for
veneering purposes. The pieces are
horizontal cuts from the stumps and
the coloring and grain is well brought
out by the polishing. The most strik-
ing piece in the collection is a huge
myrtle slab, irregular in shape, of a
deep, rich mottled brown and black
color and over six feet broad. A
specimen of maple burl is a very
beautiful part of the huge easel.

The woods mounted on the easel
are: Maple burl, curly white maple,
chittim wood, alder, myrtle slab, cur-
ly red fir, vertical grain fir, curly red
maple, curly white cedar, slash grain
spruce, vertical grain red cedar, white
cedar burl, white cedar and black
myrtle, curly myrtle, slash grain fir.

Minerals From Baker County.

Office Secretary George G. Birrel
has received a cabinet of minerals
from the White Swan and Virtue
mining district in Baker county. The
collection consists of ores from 25
different properties, each labeled and
reposing in a bed of cotton. A box
of unlabeled ores from Baker county
was also received.

Among the recent vegetable addi-
tions to the bureau's rapidly growing
exhibits is a huge white radish from
Clackamas county. The monster
root is 19 inches in length and with
its top, extends over a yard along the
table. It is 1 1/2 inches in circumfer-
ence at the largest part.

TO "THE BREAKERS."

Contest for the Free Vacation Creat-
ing Great Interest.

In anticipation of spending two
weeks of the hot weather at the sea-
side the guest of the East Oregonian
and the choice of many admiring
friends, the young lady clerks are
greatly enjoying the friendly con-
test now in progress for this vaca-
tion.

"The Breakers" is one of the most
delightful places on the beach and
offers so many enjoyable features for
a seaside outing, that the trip is
worth the effort. Series "D" of the
coupons must be voted by noon next
Wednesday. Following is the vote
to date:

Elle Jean Frazier, People's Ware-
house, 253.

Bessie Hulse, Fair Store, 119.

Dora Myrick, St. Joe Store, 22.
Ruby Whittemore, The Delta, 21.
Anna Kennedy, Lee Tentach, 20.
Miss Newquist, Fair Store, 6.

DELEGATES TO OGDEN.

Mayer Thomas G. Hailey Appoints G.
A. Hartman and E. J. Somerville.

Mayer Thomas G. Hailey has ap-
pointed G. A. Hartman and E. J.
Somerville as delegates to the four-
teenth annual convention of the Na-
tional Irrigation Association, which
meets in Ogden from the 15th to the
18th of September.

It is provided that the mayor will
appoint two delegates, the county
court two, the president of the Com-
mercial Association two, the presi-
dent of the County Irrigation Asso-
ciation two, and the president of the
Woolgrowers' Association two. The
other men who have the appointing
power have as yet not made up their
minds whom they would name as
delegates, but will do so in the near
future.

TEACHERS' EXAMINATION.

Will Commence August 12—Exam-
ining Board Not Appointed.

The teachers' examinations for state
and county papers will be held in
the circuit court room of the court
house beginning August 12, and last-
ing until the 15th. The examinations
for the state papers will commence
on the 12th and will continue until
the 15th, while the trials for county
papers will continue from the 13th
to the 15th.

At this time all of the teachers in
the county who are desirous of taking
the examinations will be expected to
appear and take their trials with the
rest. It is expected that there will
be quite a number here when the
papers are given out.

The examining board has not as
yet been decided upon, but will be in
the next few days.

Hobbes Get Free Ride.

An O. R. & N. labor contractor
who was in the city yesterday hiring
men to go to Weatherby to work on
the railroad, related an instance of
the dishonesty of a gang that he en-
gaged in Portland. There were 15
of them and they claimed to have
bedding. They showed up at the de-
pot next morning on time with what
appeared to be their bedding, but
which turned out to be old straw in
side of gunny sacks. They were
passed over the road, but not a single
man of them ever landed at
Weatherby, most of them getting off
at Pendleton and Baker City.—Baker

RUSSIA PLAYING HER HAND

ADOPTS CLOSED POLICY IN
RELATION TO MANCHURIA.

Announces That the Doors Will Be
Open in Six Years—Fleet of War
Vessels Ordered to Korean Waters
Is it a Bluff?

Berlin, Aug. 1.—The Cologne Ga-
zette today reports that Russia has
a tight grip upon Manchuria and has
ordered all foreigners to remain out
of the country for the present.

The Gazette adds that at the end of
six years, when Russia expects to
have restored order in Manchuria the
country will be opened to free com-
merce. Russia has formally notified
China of orders to this effect.

Preparing to Back it Up.

St. Petersburg, Aug. 1.—That Rus-
sia is preparing to meet any trouble
regarding Korea was manifested to-
day when it was announced that the
two biggest battleships, two cruisers
and four torpedo boats have been or-
dered to proceed immediately to the
Far East.

Administratrix Appointed.

Delilah Hill, of Athena, appeared be-
fore the probate court this morning
with a petition in which she asked
for the appointment of an adminis-
tratrix for the estate of William T. Hill,
deceased. She represented that Wil-
liam Hill had died at Athena, June
7, 1902, leaving an estate of the rea-
sonable value of \$12,500, and asked
that she be appointed to administer
the estate. The prayer of the peti-
tioner was granted, and it was or-
dered that papers be issued to her upon
her taking the oath and furnishing
bonds in the sum of \$25,000.

Putting in Ten-Inch Piping.

The O. R. & N. are putting larger
pipe in the yards at the depot in or-
der that the trains can take water
more quickly when they come to the
station. The new pipe is 10 inches in
diameter, and when it is in place one
of the big tanks can be filled in half
the time that it takes at the present
time with the smaller piping. The
work is tedious, as all of the excava-
tion has to be made under the tracks
without disturbing the ties or rails
or interfering with the traffic on the
main line or the work of the yards.

BRIDGE FALLS
AT PORTLANDMain Structure Uninjured, But
Footpath Laden With Peo-
ple Went Down.ONE HUNDRED TWENTY-
ONE WERE INJURED.

Six Persons Are Missing. All of
Whom Are Believed to Be Drowned
—Fifty Were Seriously Injured, of
Whom Some Will Die—Seven Un-
conscious at Hospital.

L. B. Reeder returned from Port-
land this morning, where he has been
for the last week attending the state
meeting of the Red Men. Mr. Reeder
was selected one of the delegates for
the state to attend the national meet-
ing which will be held in Atlantic
City the latter part of September.
There are two delegates from the
state, and they are elected for a term
of two years. Mr. Reeder was elected
for the two year term, and there-
fore will have two trips to the East
instead of one. The order is strong-
est in the East, and the conventions
never get very far West. This gives
the Western men a good chance to
have an Eastern trip.

Mr. Reeder was an eye-witness of
the collapse of the Morrison street
bridge at Portland yesterday after-
noon, and says that the reports pub-
lished in the papers of that city were
exaggerated as to the numbers that
went down with the section that fell.
He was standing on the runway at
one of the wharves on the west side
watching the swimmer make his way
across the river, when all at once
the structure gave way and hurled
the people into the river below.

The bridge was crowded, and the
walk along the side was filled with
men, women and children all attempt-
ing to get near enough to the railing
to see into the water below, and as
they stood a section of the eastern
end of the walk, without warning,
literally dropped from the bridge, as
clearly broken as though it had been
cut out with a saw. At the point
where the structure gave way it was
about 15 or 20 feet above the water,
and directly underneath was a boat
house upon which the wreckage fell.

About 50 people were on the walk
when it went down, and most of
those were not fatally hurt, though a
great many were painfully and some
seriously injured. If the walk had
fallen in the river instead of on the
boat house, fewer people would have
received injuries, for as it was they
were mixed up in all kinds of shapes
in the double wreck of the bridge and
the house.

Four people were known to be dead
last night when Mr. Reeder left for
home.

Mr. Reeder was one of the first on
the scene, and was there before any
of the people had been taken from
the place, and it was his opinion that
all of those who had fallen had been
recovering, though it was very likely
that some of them had fallen between
some of the houses and boats under
the bridge at that place, and had
drowned.

The Morrison street bridge has
long been considered to be in an un-
safe condition, and such crowds
should have been kept off the struc-
ture by the authorities, for the whole
thing is rotten, and that was the
cause of the accident. This happen-
ing will, in all probability, have some
effect in causing the city to take
measures to have the bridge rebuilt,
as has been urged for some years
past.

Earliest Reports Confirmed.

Portland, Aug. 1.—Six persons are
still missing and all are believed to
be drowned. The only names of those
who actually met death are Ed
Shanks, aged 13, and Lottie Cameron,
aged 16.

One hundred and twenty-one were
more or less seriously injured. Of
this number 50 must be regarded as
"serious" cases, of whom several will
undoubtedly die. At St. Vincent's
hospital seven now lie unconscious.

The patients are scattered all about
the city, at hospitals and private
homes.

The sacred college at Rome has
audited the bills for medical attend-
ance upon Leo XIII and allowed \$10-
000.
