SPORTSMEN HAVE TAKEN SMALL BAGS OF GROUSE.

Plentiful on High Mountains, But Few in Valleys and River Bottoms-Association Responsible for Good Hunting and Fishing.

Just at this time grouse is the topic of conversation among the members of the Sportsmen's Association and they are interested in the number, size and condition of the birds. Already most of the membership has taken a try at the fleet-winged game in the foothills of the mountains, but they have come back for the most part with few birds.

If you ask them what they killed, they will look wise and tell you that the figure was enormous, but at last will own that the actual capacity of their game bags was not the uttermost and that the limit is safe for the most of them so far

Some of them say that the birds are searcer this year than they last and the rest will tell you that the number is as great if not greater. This disparity of opinion is due in part to the country visited by the Those who went back on hunters. the foothills saw more game than those who were content to remain in escape valleys and limbing of the mountain sides

Grouse breed and grow on high mountains and foothills and to find them at their best it is necessary to seek them in their native haunts. This has not been done to any grea extent so far for the reason that hunters had not the time to go so far away from the city.

As a matter of fact, the birds are as plentiful as they were last year, but they are back in the hills and are therefore not easy to find. They are small and young and lively and make the gunners polish their sights them.

Hunters who have gone out since the opening of the season and before have seen shells in the hills and around the feeding grounds grouse, and these had been used over week before the season opened,

judging from their appearance, Of course, it is not known these shells had been shot at grouse, but the inference is obvious and it is thought that one of the reasons that the birds are shy is that they have already smelled the powder of

the pot hunter.
If this is so, there is work for the warden though it is almost impossible to detect irregularities Wanted—To borrow \$1600 on good this kind in the sparsely settled dis-real estate security at not over 8 per cent. Address box 563. Pendleton, occur.

The association wishes and attempt to see to it that the law is observed in all of its details and they will prosecute any person found bag-ging more than the limit of 10 birds or infringing on the provisions of the game law in any manner. The is liberal in all of its provisions law and there is no reason that any one should disregard it

The season has opened very satis factorily and the sportsmen of the ed with the records that they have made so far.

It is largely through the efforts of the Sportsmen's Association that the game birds have been rescues from total destruction in Umatilia county and it is wholly due to their activity and spirit that the fine fish-ing streams of the county are being constantly stocked with trout.

They are determined that the fish and game laws shall be strictly ob-served and to that end will work and act on all occasions

DOG POISONING

H. J. Stilling Yesterday Despite All That Could Be Done.

The dog poisoner is again at his contemptible work, and as usual be has picked out the best that he could has picked out the best that he counted find to work upon. Ginger, the blood-ed and well-trained bird dog belong-ing to H. J. Stillman, was poisoned yesterday, and in spite of the efforts of Mr. Stillman, died.

William Hughes, a native of Great
Britain, has filed his intention of becoming a citizen of this country with
the country cierk.

Of Mr. Stillman, died.

The dog was with Mr. Stillman Saturday and Sunday on his hunting
trip, and was tired and sore when the
party returned. Monday morning
when Mr. Stillman of the dog when Mr. Stillman got up the dog was on the back porch eating and seemed all right. About noon when Mr. Stillman returned home from the city he found the dog in convul-sions and attempted to relieve him.

The dog was a valuable one, not only from the standpoint of breed, but it was one of the best hunters in the state. The owner had refused several offers of \$100 and more for his pet. This is the second or third dog that Mr. Stillman has lost in the same manner.

LARGEST BUSINESS

HOUSE IN THE CITY.

Will Be Fifty by Two Hundred Feet in Size and Three Full Stories in Height Besides a Full Basement-One Hundred Rooms for a Lodging House-Will Be Modern in Every

Purl Bowman has at last decided to build the brick building on his property that he has had in mind for so long, and work on the basement foundation will be commenced next week if the plans now under consid-

cration are carried out as intended.

The place will be a structure of pressed brick, and will be 50x200 feet in dimensions. It will face Main street, and will be three stories high. and will have a basement as good as another floor, making it practically

The front rooms will be used for store rooms, and the rear and the basement will be fitted up for store On the side next to the de rooms. pot will be two sample rooms 20x50

There will be about 100 rooms in the upper part of the building, and these will be fitted up as a lodging house. The rooms will all have hot and cold water, and the entire house and cold water, and the entire house will be heated by steam. It will be modern in every particular, and when done will be the largest business building in the city.

The brick have been contracted for, and the work will commence as soon as the foundation can be built. Once the construction is begun the work will be pushed as fast as is possible.

will be pushed as fast as is possible in order that the house may be at least enclosed by the time the cold weather comes.
