

Can anyone suppose that we would double the necessary cost of our brewing without a vital reason?

Would we spend so much on cleanliness? Would we cool the beer in plate glass rooms? Would we filter all the air that touches it? Would we age it for months? Would we sterilize every bottle?

We do it to attain absolute purity—to avoid the remotest possibility of germs—to make Schlitz Beer healthful.

Why accept a common beer, brewed without any of these precautions, when Schlitz Beer costs no more?

Your dealer may prefer to furnish a beer that pays a little more profit; but does it pay you to permit it? Isn't pure beer—Schlitz Beer—worth asking for?

Ask for the Brewery Bottling.

PORTLAND'S MILK

CITY CONSUMES 7500 GALLONS PER DAY.

Tacoma Uses 9200 Gallons Daily and Spokane 2500 Gallons—In Portland Are 240 Dairy Cows in 45 Herds.

Washington, D. C., Aug. 10.—The department of agriculture recently issued an interesting bulletin on the milk supply of the 200 largest cities in the United States, considerable information having been collected to show wherein dairy methods may be improved and wherein the milk may be delivered from the dairy to the consumer not only at less cost, but in more sanitary ways than those now in vogue. Referring to the milk supply of Portland, the report says: "The daily consumption of milk is estimated at 7500 gallons, or an average of 0.66 pint per capita. Milk is sold from 25 stores and 150 wagons. Only a very small portion of the milk supply is delivered in bottles, and these are filled in the city. Little or no milk is pasteurized. The retail price is 5 cents per quart in summer and 5 to 7½ cents per quart in winter, producers receiving 2½ cents in summer and 2½ to 3 cents in winter. There are no 'model dairies' near the city. Within the city limits there are 45 herds, including 240 cows, and milk is brought in wagons from dairy farms within a radius of eight miles.

"The city makes no appropriation for the milk supply being regulated by state laws.

"The city makes no appropriation for the supervision of its milk supply. The little work accomplished along this line is done by the state dairy and food commission. During the past year 75 milk samples were examined by the Babcock test and gravimetric analysis; no bacteriological examinations were made; 29 of the 45 city herds and 15 dairy farms were inspected.

"The commissioner believes that the daily press, by arousing an interest in the subject, might bring about a much needed improvement in the milk supply."

No details were gathered regarding the milk supply of Tacoma, but of Seattle the following is said:

"The daily consumption of milk is estimated at 9200 gallons, or an average of 0.91 pint per capita, beside 400 gallons of skimmed milk and 700 gallons of cream. Milk is sold from 142 stores and 87 wagons. A very limited amount of milk is delivered in glass bottles, and these are filled in the city. Only one firm pasteurizes milk, and the practice is not increasing. The retail price of milk is 5 cents per quart in summer and 7 cents in winter, producers receiving 2½ cents and 3½ cents in the two seasons. There are no 'model dairies' near the city. Within the city limits there are 21 herds, including 400 cows, and milk is sent in from 76 dairy farms. About two-thirds of the total milk supply is received by railway, the longest shipment being about 44 miles.

"The milk standard is said to be 3 per cent fat, 9 per cent other solids.

"About \$1200 is expended annually in the supervision of the city milk supply, one official—a milk and dairy inspector—giving his entire time to this work. During the past year 2400 milk samples were examined by the Babcock test; 117 samples were analyzed gravimetrically; no bacteriological examinations were made; all the city herds and all the dairy farms were inspected.

"Recently there has been a marked decrease in the sale of adulterated milk. Needed improvements, as given, include better dairy buildings and greater care in the production and handling of milk."

The following are the comments on the milk situation in Spokane:

"The estimated daily consumption of milk is 2,500 gallons, or 0.51 pint per capita; also 200 gallons of cream. Milk is sold from eight stores and 45 wagons. About one-fifth of the milk is delivered in glass bottles, filled in the city, by three or four dealers.

"One dairy during the hot months pasteurizes milk. The retail price of milk is 6 cents per quart in summer and 8 cents in winter, producers receiving 3½ cents in the summer season. There are no 'model dairies' near the city. Within the city limits there are six herds, including 200 cows. The longest shipment of milk to the city is 50 miles.

"During the past year 650 samples of milk were examined by the Babcock test; all of the city herds but none of the dairy farms were inspected; and one cow was examined for tuberculosis."

Put an End to it All.

A grievous wall of time comes as a result of unbearable pain from over-taxed organs. Dizziness, headache, liver complaint and constipation. But thanks to Dr. King's New Life Pills, they put an end to it all. They are gentle, but thorough. Try them. Only 25c. Guaranteed by Tallman & Co.'s drug store.

Lodging House for Sale.

Best in the city; 20 complete furnished rooms. A lease for eight years and nine months. It is subject to mortgage and can be bought for cash only. Enquire at this office.

Over the Chess Board.

Chicago, Ill., Aug. 10.—The fourth annual tournament of the Western Chess Association, which opened today in the rooms of the Chicago Chess and Checker Club, bids fair to eclipse the previous meetings of the association. The program provides for three tournaments, the chief one to decide the Western championship. Minneapolis, St. Paul, Milwaukee, Chicago, St. Louis, the Tri Cities, Ohio, Kentucky and the South have sent their foremost experts to compete for the honors and the large cash prizes that will be distributed among the winners. The play will continue through the greater part of the week.

Suicide Prevented.

The startling announcement that a preventative of suicide had been discovered will interest many. A run down system, or dependency invariably precedes suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self-destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Tallman & Co., druggists.

Barriers Burned Away.

Newport, R. I., Aug. 10.—Mrs. William Astor has decreed that there shall no longer be any sets or cliques in Newport society if the social prestige of the great American resort is to be maintained. In the invitation list for her grand ball tonight she has included everybody who is spending the summer here with whom she has an acquaintance. As she is considered the real leader of society, the matter is regarded as very significant, and is taken to mean that she disapproves decidedly of what are commonly known as social barriers.

Test of Automatic Machine Guns.

Washington, D. C., Aug. 10.—The test of automatic machine guns under the auspices of the war department, which began today, will be followed with close attention in army circles. The test is to determine the design of automatic machine gun best adapted for the requirements of the military service, the design of mount and pack outfit best adapted for field service and the question of supplying ammunition for these guns.

Farms for Sale.

We now have listed for sale some of the best wheat farms and stock ranches in the county. The stock ranches can be sold either with or without the stock. All the places are well improved and well supplied with water. Also some very desirable city property, including new modern residence on north side of river. Call and get prices.

BENTLEY & HARTMAN.

Moki Tea positively cures Sick Headache, Indigestion and Constipation.

A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion or money refunded. 25c and 50c. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. F. W. Schmidt & Co., druggists.

GARMENT WORKERS ORGANIZATION TO MEET IN INDIANAPOLIS.

Members Are Proud of the Record Made and Feel That the Union Sentiment Has Become a Controlling Factor in Trade—Will Hold for a Week.

Indianapolis, Ind., Aug. 10.—The United Garment Workers of America certainly have reason to feel proud of their annual convention which began in Indianapolis today.

The large assembly room of the Claypool hotel was filled with nearly 200 delegates when the gathering was called to order this morning. This number is nearly double the attendance at the last meeting of the organization. The annual address of General President Langer and the reports of Secretary White and the other officers show the organization to be in a highly flourishing condition. During the last fiscal year the membership has nearly doubled also, reaching the 60,000 mark. The income has been increased from \$67,000 to \$115,000.

The organization's leader, said the president in his annual address, has become one of the controlling factors in the manufacture of clothing, owing to the business-like methods of the general officers, the impressive advertising done, the wise discrimination made in granting it, and the judicious enforcement of the rules.

During the last year, in the principal clothing centers threatened strikes that seemed to be very costly and to involve great numbers and, which at times seemed inevitable, were avoided, and concessions gained through skillful negotiations. Wages have been increased, hours of labor reduced and the working conditions generally improved, while at the same time friendly relations have been maintained between the union and the employers.

The present convention will be in session a week or longer. The most important business to receive attention is the question of biennial sessions, the increasing of per capita tax and local dues, the establishment of the sick and death benefit system, and a uniform system of work for the tailoring branch of the trade.

Acker's Blood Elixir positively cures chronic Blood Poisoning and all Scrofulous affections.

At all times a matchless system tonic and purifier. Money refunded if you are dissatisfied. Fifty cents and \$1.00. F. W. Schmidt & Co., druggists.

Ringling Bros.' World's Greatest Show at Walla Walla, August 13.

For the above occasion the O. R. & N. Co. offers a reduced rate of \$1.50 for the round trip. Tickets on sale August 13, good until August 14th returning. For further particulars, call on or address F. F. Wansley, agent.

Captain Gus Soderman, of Seattle, has been suspended for a period of nine months, for conduct unbecoming a sea captain.

CANCEROUS ULCERS

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.
