# SCHOOL MERGER

THE STATE FEDERATION OF WOMEN'S CLUBS FAVORS IT.

Will Formulate Definite Plans of Action in October—Club Women Unanimously Favor Advanced School Privileges of Every Description—Prominent State Federationists Gives Her Opinion.

The matter of the consolidation of the districts adjacent to Pendleton into one school district for the betterment of the public school system, is arousing much interest among the people resident in the country to be affected by the change; but long before the question had been raised in this part of the country the ladies of the State Federation of Women's Clubs had taken the problem under their notice and had pledged their assistance to the state board of education.

Mrs. C. B. Wade, the ex-president of the State Federation, is much interested in the matter, and talks very interestingly about the situation. In the East it has been the custom for years to merge the outlying high school territory with the district of some central town, and by that means to raise the standard of the central school; and if that could be done in that part of the Union it would be practical in relation to the public schools of all grades here.

At the last meeting of the State Federation, Professor Ackerman, of the state board of education, brought the matter of the Kuykendal law before the meeting and asked the cooperation of the ladies throughout the state in bringing its provisions into general use. The ladies at that time pledged themselves to do all in their power to make the law operative, and in line with that pledge will make this year a study of the civil government of the state, and particularly will pay attention to the part that treats of the school system.

This is the vacation time of the club, and all of the members are at the coast or otherwise engaged, and no plans for the fall work have been made. The new president of the federation is Mrs. T. T. Geer, and as yet she has not named her committees, or taken any definite action for the coming campaign, but in a general way the matter has been under discussion, and when the club work begins in the first of October, some plan of action will be shaped.

One of the first things that the ladies will do will be to become thoroughly conversant with the provisions and the limitations of the law, that they may work intelligently for the achievement of their purposes. Then plans will be taken to throw the influence of the federation for the locally, Mrs. Wade is much in favor of the consolidation, as are all of the club women who have expressed themselves on the matter, for they see in the accomplishment of the scheme better schools and better teachers, and from that, better foundations of education for the children of the city and the territory adjacent.

It is time that something was done for the betterment of the city schools, and past time. Long ago the buildings should have been enlarged and room provided for the accommodation of the growing number of pupils; and with all the added revenue gained by the change the schools of the city could be made the best in the state. The high school building on the hill should be remodeled and made modern in every way, and given over to the higher grades of the system. Other and commodious buildings should be constructed in the city for the accommodation of the rest of the pupils, and the best teachers obtainable should be provided to have charge of them.

With the closing of all of the little schools in the vicinity of the city, the money spent in salaries for the teachers thus discontinued, could be added to the salary fund for the city schools, and a position here be made a thing sought after by the best instructors in the state. In every light and from every point of view the law is desirable and its provisions should be taken advantage of by the people of not only the city, but of the surrounding districts as well.

As soon as the time of vacation is over and the club women of the city return to their work, the matter will be taken up, and the united effort of the ladies will be turned toward the consummation of the movement.

### Will Board it Out.

John Burns paid the city a visit the other day, and while here took too much of the hospitality that was extended to him, and as a result he was up before the city court this morning charged with being drunk on the streets in violation of the law as made and provided. He was fined \$5 by the court, but owing to the fact that he was broke, will board for three days in the city hotel.

### Will Go to Alaska.

A. C. Funk left this morning for Portland, where he will visit for a few days, and will then go to Seattle for a visit with friends. After a time spent in that city he will leave for Alaskan points. His trip will occupy about two weeks.

## COW DAY AT THE FAIR

TEST OF BEEF AND MILK BREEDS TO BE MADE.

Period of Tests Will Last During 100 Days of the St. Louis Fair—Novel Feature Not Heretofore Introduced at Any Exposition.

The cow demonstration as one feature of the World's Fair cattle exhibits at St. Louis next year has been definitely arranged, and on a much broader scale than anything of the sort heretofore attempted. It has been designated as a "cow demonstration," because, while not in any way neglecting the dairy test idea developed at former world's fairs, it is intended to illustrate in a comprehensive way the practical adaptabilities of the pure-bred cow.

The strictly dairy breeds are given opportunities for making a large showing, while features not in the least conflicting with their privileges enable the dual-purpose breeds to demonstrate their value for both dairying and beef production. This means a demonstration rather than a competitive test, and will enable each breed participating to show its own peculiar advantages.

The Jersey, Shorthorn, Brown Swiss and Canadian associations have already entered. Entries will be permitted from individuals on behalf of other breeds if received before December 1. Prizes will be awarded to herds and to individual cows, and entries of from five to 25 cows may be made by representatives of any one breed. The same cows may compete for herd and individual prizes.

The tests will continue 100 days, beginning Monday, May 16, 1904, and will be conducted in four classes, designated as Tests A, B, C and D. Test A is for the demonstration of the economic production of butter-fat and butter; B, of milk for all purposes related to dairying; C, of all the products of the cow; and D, for demonstrating the greatest net profit for its

beef merits. A cow may be entered in more than one class. Copies of the rules may be had by applying to F. D. Coburn, chief of department of livestock, World's Fair, St. Louis, Mo.

For Rent. I have remodeled the upstairs of the Despain block and have some of the nicest suite rooms in the city. Call and see them. C. C. BERKELEY.

Five hundred sheriffs are assembled in convention at Omaha for a three days' session.
