## NO RURAL ROUTE

RESIDENCES ON BIRCH AND M'KAY OFF MAIN ROAD.

Postal Regulation Will Not Permit of Delivery ON Main Roads—Patrons Could Build Lanes or Put Up Boxes—The Route is Badly Needed.

A movement to secure a free rural mail delivery route from Pennington up Birch and McKay creeks, has been on foot for some time, and on investigation the postal regulations it is found that no carrier on a rural route is required to pass through a gate, or deliver mail off the main traveled road.

It happens that almost the entire settlement which would be included in the proposed route, lives back from the main road, in low fields, with private roads and gates leading to the residences.

This being the case, it will be necessary for residents on this proposed route, to build lanes from the main road into the fields and to residences which stand off the main road, or place boxes opposite their homes on the main road.

It would be very easy to secure the requisite number of applicants to establish this route, if the conditions were such that there was any possibility of its establishment. The roads are good, the settlement is well located with reference to being contiguous to the main road and all the requirements, except that the houses stand back in the fields in many instances, are favorable. If the patrons wish to make lanes into the residences and put up boxes on the main road, there is no doubt about securing the route. But under present conditions there would be no use to send in a petition, for the inspector could not recommend its establishment.

This rural route would bring fully 100 more families into direct touch with the city, and as the district which would be embraced, is constantly developing, the settlement will soon demand more conveniences.

### SURVEYORS NEAR THE DALLES.

Railroad Engineers Are Supposed to Be Employed by Northern Pacific.

The Dalles, Aug. 14.—A camp of railroad engineers, established about five miles above The Dalles, is giving considerable uneasiness to railroad men interested in that section of the state. Both the O. R. & N. and the Columbia Southern, having interests in the country which the party is working, are watching the progress of the surveys closely.

Though nothing has been done thus far to indicate the road interested in the surveys railroad men believe that the Northern Pacific is behind the work. That neither the O. R. & N. nor any of its allied corporations has undertaken the work seems certain. The Northern Pacific is the only other line near enough to this territory to be seriously considered in the speculations.

The interest of the Northern Pacific in such a survey is explained by railroad men to be the same as that which induced the Mellen system to survey a line down the north bank of the Columbia river. At present the Northern Pacific line is but 40 miles from the point where the surveyors are working, and a line down the Columbia would bring them much closer.

Just above The Dalles there is an ideal place for the construction of a railroad bridge. Three 90-foot spans would allow the Mellen line to put in a substantial bridge. Natural abutments are to be had on each side of the river and the cost of building a bridge would be light.

Basing their predictions on the assumption that the Northern Pacific is soon to build down the north bank of the Columbia railroad men insist that it is most likely this road has sent the party of surveyors into the field which is working above The Dalles. It is figured that the road is looking over the Eastern Oregon country having in view the possibility of entering that district when its other system is completed.

### Suicide Prevented.

The startling announcement that a preventative of suicide had been discovered will interest many. A run down system, or dependency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self-destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Tallman & Co., druggists.

### DRAWS PAY IN PRISON.

Spokane Gambler Made Arrangements for Salary Before Opposing Law. Spokane, Aug. 14.—Fritz Dietrich, who, for a consideration, offered himself as a vicarious sacrifice for his brethren of the green cloth, will do a stint of 10 months in the Walla Walla penitentiary as the result of the supreme court's decision in the anti-gambling case. Under the new law the sentence of felons begins to run from the time they reach the penitentiary. The old scheme of using

up a year or two in the county jail pending an appeal, does not work any more. The new law went into effect the same day the gambling law did.

Convicted felons are allowed two months for good behavior during the first year of their incarceration. Dietrich got a year's sentence, and if he behaves himself he will be out at the end of 10 months.

It is stated on good authority that Dietrich gets \$6 a day, while in duration from the gamblers who put up the money to fight the law. This \$6 a day will be turned over to him on his release from the penitentiary. It will date from June 14 last, when he was first arrested, until his 10 months are up.

### YAKIMA LAND SCHEME.

New York Capitalists Engaged in Surveying Desert Tract.

Senator A. J. Splawn, of North Yakima, who represents the Fifteenth district in the state legislature, has been in Spokane for the past two days in the interest of the state fair to be held at Yakima September 28 to October 4, says the Spokane Press. He met the chamber of commerce and urged them to interest themselves in Yakima's fair.

The senator has a world of statistics at his finger's end relative to the Yakima valley, which he characterizes as one of the garden spots of earth. Said the senator:

"Our fruit yield this year will net our people \$1,000,000, several hundred thousand over any previous year. The alfalfa crop is worth a million and a half more. We grow hops worth \$900,000 and potatoes valued at \$700,000.

"Three corps of surveyors are now at work on an irrigation scheme, which, if successful, will open up a million and a quarter more acres to cultivation. The representatives of New York capitalists have just returned to New York after investigating a railroad scheme which will open up to transportation three of the most fertile valleys diverging from Yakima. The report will be favorable. The line will be in three divisions, totaling 75 miles in length."

Senator Splawn is a rancher owning about 3,000 acres of land, upon which he raises famous Hereford cattle. He is a democrat and was elected in the face of an overwhelming republican majority, of which fact he is justly proud.

Contracts for new hops are now being made at 20 cents in the Tacoma yards.

## Ask Your Doctor

He will tell you— That barley-malt is a half-digested food, as good as food can be.

That hops are an excellent tonic.

That the little alcohol in beer—only 3 1/2 per cent—is an aid to digestion.

But Purity is Essential

But he will tell you that beer must be protected from germs, and brewed in absolute cleanliness.

He'll say, too, that age is important, for age brings perfect fermentation. Without it, beer ferments on the stomach, causing biliousness.

Schlitz beer is brewed with all precautions. It is the recognized standard all the world over, because of its purity.

Ask for the Brewery Bottling.

Phone 51 Main, H. Kopitke, 507 Main St., Pendleton

## ACKER'S DYSPEPSIA TABLETS

cure dyspepsia and all disorders arising from indigestion. Endorsed by physicians everywhere. Sold by all druggists. No cure, no pay. 25 cents Trial package free by writing to W. H. Hooker & Co., Buffalo, N. Y. F. W. Schmidt & Co.
