FINEST IN THE CITY

BOWMAN IS BUILDING A STRICTLY MODERN BLOCK.

Equipped With Cold Storage, Sample Rooms, Furnaces, Light and Air Shafts—Every Room in the Building Will Have an Exterior Frontage—Will Have an Elevator.

The workmen are now doing the excavating for the basement of the new Purl Bowman building, and as soon as the dirt is out of the way the construction of the building will be started. When the place is done it will be the largest and the most modern of all of the business blocks in the city.

Modern and Substantial.

Commencing at the basement the house will be built on a solid and substantial plan. The foundation will be built of native stone and will be massive in proportion. The space in the basement will be divided into several sections, and in the middle will be located the furnaces and the machinery for the proper ventilation of the building. The floors of the basement will be made of cement. The front part of the basement will be given to the store rooms above them for their use, and the back part will be used as storage rooms, or sample rooms.

The first floor will be divided into store and sample rooms. In the part of the building fronting on Main street will be two rooms, one of which has been engaged for a saloon and the other for a retail establishment.

On the other end of the same floor will be two large sample rooms, 16x50 feet and a cold storage room 60x60 feet in size.

The second and third floors are duplicated in arrangement, the second having 42 rooms and the third 44. All of the rooms will be large and commodious, and will be modern in every way. There will be lavatories in each room, with hot and cold water; also electric lights and telephone service.

Light and Air Shafts.

In the middle of the building will be an air shaft extending from the basement to the roof, and into this will be let the ventilating apparatus of the house, so arranged that every room will be continually supplied with fresh air. At the back will be a light shaft which will extend the full length of the north side of the building, which will give light for the store rooms and the side rooms in the event of the erection of another building along the side. Besides this light shaft there will be a large skylight that will give light for the inside rooms.

Will Have an Elevator.

It is according to the plans as now drawn to have an elevator in the center of the building for the accommodation of the guests and the convenient handling of the baggage.

The building proper will face the depot grounds and will be built of pressed brick on the Main street and south sides. In the center of the south side will be the main entrance, which will be a large arch supported on granite columns and opening into a marble vestibule. From this vestibule will rise the stairway. Taken from all standpoints the Bowman building will be the largest and the finest in the city when it is finished, which will be as soon as the work can be done.

Reported to Be Shot.

George Jones, an employe of the O. R. & N., left this morning for Portland, called by the news that his brother had been shot. It cannot be learned where the accident took place, if it was an accident; but it is known that the place is the other side of Portland. The impression is that the man was shot by another man, but whether accidentally or not could not be learned.

Agency for Rex Rings.

Louis Hunziker, the jeweler and optician, has been appointed exclusive agent in this city for the celebrated Rex Rheumatic Rings. Booklets may be had on application to him.

The National White Wyandotte Club will hold its 1904 annual meeting at St. Louis during the World's Fair. The club will make liberal provision for World's Fair special poultry prizes for that variety.

PERSONAL MENTION.

James Hill, of Helix, spent yesterday in the city on business.

Ben Marlin, of the Cottage hotel at Meacham, is a visitor today.

Joseph Cunha, of Echo, was in the city today on a short business trip.

J. W. Chandler, of La Grande, transacted business in the city yesterday.

William Giles, of Heppner, was a business visitor in the city yesterday.

Mrs. Mary Bridges, of Freewater, is in the city visiting friends for a few days.

Lester Swaggart went to Athena this morning on a short business visit.

J. R. Kligore, of Weston, was in the city yesterday for a short time on business.

Mrs. R. W. Parker and daughter, of Umatilla, spent the day in the city yesterday.

G. W. Bradley, of Athena, was in Pendleton yesterday on a short business trip.

Grant Horn, the sheepman, of Pilot Rock, is in the city today on a short business trip.

Miss Anna Ames, of Walla Walla, is the guest of friends in the city for a short visit.

Mrs. M. J. Provines, of Freewater, is in the city the guest of friends for a short time.

F. Myers, of Sumpter, is in the city today on business. He will return home tonight.

A. Gustafson and family will visit friends in La Grande and Union a few days this week.

C. R. Dutton has returned to Lehman Springs, after a short business visit in the city.

Mr. and Mrs. J. H. Parker, of Galloway, are visiting Pendleton friends for a short time.

Mrs. E. J. Garland and daughter, of Walla Walla, are in the city the guests of friends.

E. Sanderson, of Helix, spent Monday in Pendleton visiting friends and transacting business.

P. J. Taylor and family left last evening for Baker City, where they will open a vaudeville park.

Mr. and Mrs. B. F. Moslin, of Meacham, are in the city the guests of friends for a short time.

William Matson, of Northfield, Minn., is the guest of his cousin, G. A. Robbins for a short time.

Misses Maude Richards and Cecile Irwin, of Union, were the guests of friends in this city yesterday.

Mr. and Mrs. William Lane have gone to Lehman Springs for a vacation visit of a couple of weeks.

Mrs. Mattie LaDow has returned to her home in this city after a visit in the mountains near Meacham.

D. W. Jackson, of La Grande, is in the city to see A. Gustafson on the O. R. & N. engine for a few days.

O. D. Teel, a prominent stockman of Echo, left for his home this morning, after spending a day in the city on business.

O. D. Teel was in town yesterday looking after the construction of the residence that he is having built on East Alta street.

Mr. and Mrs. G. I. LaDow have gone to Meacham, where they will camp in the mountains for a couple of weeks' outing.

Rev. John Warren left this morning for Heppner, where he will assume charge of the Episcopal church now being built there.

Dr. and Mrs. W. R. Campbell and family, of Cold Springs, have gone to Lehman Springs for a rest from the work of harvest.

Mr. and Mrs. Richard Brown will leave Thursday morning for a six-weeks' visit at Spokane, Medical Lake and other Washington points.

R. B. Wilson, the traveling freight and passenger agent of the Burlington route, is in the city for a short visit in the interest of his road.

A. J. Jackson, who has been visiting his mother and sister the past six months in Cold Springs, left on the morning train for his home in Wisconsin.

Miss Anna Gregory, of Walla Walla, was the guest of friends in the city yesterday for a short time while en route home after a visit at Bingham Springs.

Mrs. W. C. Hoseason and children left this morning for the home of Mr. and Mrs. C. Morse, on McKay creek, where they will visit for the remainder of the warm weather.

Mr. and Mrs. John Kees, accompanied by Mrs. Thorne, the mother of Mrs. Kees, left this morning for Hiday Springs, where they will spend the remainder of the warm weather.

L. M. Barnes, of Walla Walla, was in the city yesterday to meet his brother, J. W. Barnes and his wife, Mrs. L. M. Barnes, who have been spending an extended visit at Bryn Mawr. They returned to their home at Walla Walla this morning.

Outing at Lehman Springs. Dr. W. R. Campbell, Misses Lucy and Margaret Campbell, of South Cold Springs, and Misses Bessie Campbell, Mary Lyons and Jay Campbell, of this city, composed a jolly party which left here at 3 o'clock this morning for a 10-days' outing at Lehman Springs.

LIGHT AND POWER CO

SPLENDID WATER POWER NEAR BINGHAM SPRINGS.

Force Will Be Used to Generate Electricity for the Weston Company—Route for a Pipe Line Now Being Located—Light and Power for Entire Northeastern and North Central Part of the County.

City Engineer G. N. Miller has returned from a trip to Weston and Bingham Springs, where he has been investigating the installation of a plant for the Weston Electric Light & Power Company.

Some time ago the company filed articles of incorporation in the office of the county clerk, and since that time they have been planning for a site for their power station, and it was to consult with them that Mr. Miller went to Weston. There they talked over the plans of the company and at last went to Bingham, where they looked for a suitable location for a power station.

A place was found about three miles above Bingham Springs where there was a volume of water sufficient to generate 1,500 horse power the year round. Mr. Miller says that there is five times as much water in the north fork of the Umatilla at the point of the proposed plant as there is in the river at Pendleton, and that in two miles they can get a fall of over 200 feet.

The water right has been secured by the company, and the plant will be put in as soon as the work can be done. It is probable that the lines will be run into this city inside of a year. Mr. Miller now has 12 men out locating the pipe line and surveying for the site of the building.

The plant will cost \$300,000, and it is intended to supply all of the country between the plat and Weston on the one side, and Pendleton on the other. The distance of the plant from this city will be about 30 miles, but it will not be so far over the mountains to Weston.

It is the intention of the company to put in a night and day service, and to feed all of the little towns along the line. As soon as the site of the power station has been surveyed, the men will start on the work of running the line for the poles to Pendleton and Weston. It is now an assured fact that inside of a year this city will have an all night service, and power for all of the motors that the various concerns of the city demand, and that at a reduced cost to the consumer.

Pleased With Umatilla County.

H. H. Gilbert, who bought the Rork farm, near Pilot Rock, is in the city today. Mr. Gilbert came to Umatilla county from Western Iowa, last March, having known Judge W. R. Ellis in Iowa since his boyhood. He is well pleased with the county and is trying to induce more of his neighbors to come West. He and his friends in the Birch Creek country are greatly interested in the proposed rural mail route from Pendleton to the McKay and Birch Creek settlements.

Remodeling a Residence.

Mrs. M. A. Thompson is remodeling her home on Madison street, across the river. The house has been moved back from the street and raised, and another story added to it, increasing the size of the house by four rooms. It has been remodeled and renovated both inside and out, and will be practically a new house when it is finished. The work put on it will amount to \$1,500 and is being superintended by C. E. Troutman.

Mrs. Thomas McKay is Dead.

The wife of Thomas McKay, formerly of this city, died at the Portland Sanatorium yesterday morning of consumption. Mr. McKay is well known in this city, where he formerly resided. He married his wife in Bakersfield, California, and since that time has been living in Oregon City.

Return to California.

Mr. and Mrs. E. R. Bishop, of Bakersfield, Cal., left for their home this morning, after a visit in this city with their mother, Mrs. B. B. Bishop, and other relatives and friends. Mr. and Mrs. Bishop were formerly residents of this city and of Heppner, and are well known here.

Miss Marie Ware in the City.

Miss Marie Ware, of Eugene, is a guest of Mr. and Mrs. Casper Van Dran, at the Pendleton. Miss Ware has stopped off in the city en route home from a trip to Denver, and will visit relatives and friends here for a short time before returning to her home in Eugene.

Will Return in a Short Time.

Fred Crawford has gone to Albany, where he will meet his family and spend a short vacation, after which all will return to this city to their home. Mrs. Crawford has been in the valley the guest of relatives, for some time.

Printing Plant Sold.

A bill of sale was filed this morning in the office of the county clerk, transferring the plant of the Pilot Rock Record from the possession of C. E. Brown to John P. McManus, who is at the present time the editor. The consideration was \$500.

LARCENY BY BAILEE.

Grant County Man and Woman Under Arrest for Crime.

A few days ago William P. Anderson, of Dale, came to Long Creek and caused a warrant to be issued for the arrest of Mr. and Mrs. Thomas Tuttle, charging them with larceny by bailee, says the Long Creek Light. Deputy Sheriff M. N. Bonham went to Ukiah Sunday where Mr. and Mrs. Tuttle at present reside and placed them under arrest, returning with Mr. Tuttle Monday. The day for trial in the justice court at this place was set for August 31. Mr. Tuttle was released on a \$300 bond being given for his appearance for trial on that date. Julius Shields and H. R. Dustin are his bondsmen. Mr. Bonham did not bring Mrs. Tuttle as four of her children are quite sick in Ukiah. A sufficient bond was given at Ukiah for her appearance for trial in the justice court here on August 31.

Mr. Anderson claims that he deposited between \$400 and \$500 with Mr. and Mrs. Tuttle for safe keeping and that he is unable to recover it.

Pope Pins has given \$20,000 to the poor of Rome.

NOT GOOD, NOT HERE

They Lead the Procession

The popularity of Swift's products among all classes is very largely due to the absolutely clean and hygienic conditions under which each carcass is dressed, and the meat and the food products prepared and inspected. This is particularly true of Swift's Premium Ham and Bacon. From the sleek, corn-fed hogs in the pens, the carefully selected hams and bacon in the smokehouse, the final expert inspection by the U. S. government, and, lastly, the dainty wrapping in parchment paper, each step in the evolution of these nutritious and appetizing products is a guarantee that they will always please.
