SHY WHEAT MARKET

RUNS FROM SIXTY-NINE TO SIXTY-NINE ONE-HALF CENTS.

Heavy Roads, Unfinished Harvest and Dissatisfaction With Prices Account for the Languor—Seventy-one Cents Has Been Paid, But it Was an Exceptional Price.

The wheat market is still a closed book, and not much of the grain has found its way into the warehouses. In fact, the warehouse men say that there is less grain in the houses this year than has been for years past. At this time in the season in former years it has been common for nearly all of the wheat to be in the houses by this time, but this year the floor space is not as yet full. This condition is due to several causes. One is that the roads are so dusty that the teams cannot haul a full load, and therefore are waiting for a rain to settle the roads. Another is that the harvest is not yet over, and many of the teams are busy, and the farmers have not the extra horses to move the grain. And the last, and perhaps the chief reason is that the growers are not satisfied with the prices that are quoted by the mills and the export men.

Wheat has gone as high as 71 cents, but this was a special price made by the mill for a special lot of wheat, and does not hold in all of the market. In fact, the mills place the average price that they want to pay at 69 and 69½ cents. Of course, if they have to pay more to get the wheat that they want, they will pay a little more, but they claim that the price is at this time as quoted above.

The export price is quoted at 69½ cents, but there is little that will come in at that figure, and the market is hanging dead as a result.

The harvest of this part of the county is about over, and if the weather holds fair as it is now, all of the wheat will be in the sack by the last of the week. When the combines are put in the sheds and the teams are without so much to do, then the market may loosen up and the stream will begin to pour into the city and the places along the roads where the grain is held for sale or stored.

Union County Yield Good.

La Grande, Aug. 20.—The wheat yield on the Sand Ridge, the best wheat belt in the county, is good, so far as harvest has progressed. The lowest average yet reported is 19 bushels and the highest 41. Several of the largest farms have yielded 37 bushels.

Forty-One Bushels Per Acre.

Sig Pennington yesterday finished threshing and found that from a field of 40-fold wheat containing 107 acres he had an average of 41 bushels. This is a gain of 3½ bushels per acre on the same field over last year.—La Grande Observer.

Gypsy Exodus.

The gypsies who have been making themselves such a nuisance around the town moved on this morning, by the invitation of the marshal. They packed their wagon and pulled out for Portland this morning. Whether or not they get to the city is a problem, but that is their destination.

TIME LIMIT ENDS RACE.

(Concluded.)

lead and is within five miles of the outer mark and hauling westward.

The haze has shut in thick southward, making it impossible to see the yachts from the highlands. When last seen Reliance had a comfortable lead. Only light it now has to make against the time limit. The wind suddenly springing up, headed Shamrock off the course, giving Reliance a still greater lead. Reliance is but two miles from the outer mark.

At 2:25 the yachts are again visible on the starboard tack, making little headway and continually slanting, the wind being out of their sails and in the pitch of the sea. Reliance is making best headway in the doldrums. At 2:45 the conditions were the same.

At 3 Reliance went about one tack. Both have taken in their baby jib topsails and are now carrying small balloon topsails to get the southwest breeze. Reliance is a mile and a half in the lead with an hour and a half to finish the race, and the outer mark not turned. Seems there is little likelihood of a finish within the time limit.

Called Off.

At 3:37:35 Reliance rounded the outer mark and at 3:45 the race was called off, there being no wind, and the time limit being reached.

RELIEF COMMITTEE

HEPPNER FUND IS NOT ALL DISPOSED OF YET.

Final Balances Will Be Struck as Soon as the Treasurer of the Fund is Able to Do Business—Twelve Hundred Dollars in Round Numbers Was Spent for Labor and Provisions.

The committee who have charge of the relief fund raised by the people of the city for Heppner sufferers have not made their final report, but will, as soon as all of the business is wound up and the members of the committee are gathering together.

It has taken so long owing to the fact that the members were so busy that they had not the time to close up the books, and now the treasurer, E. Marshall, is sick with the fever and nothing will be done until he recovers.

The committee spent, in round numbers, \$1,200 for work and provisions. The work was what was done by the men from here when they went there in answer to the call for help in cleaning up the city, and the provisions are those sent over by the firms of this town at the first. There was \$2,250 sent from the direct subscription list to the help of the city. There is now between \$150 and \$75 in cash in the hands of the treasurer, and from that there remain about 30 bills to pay. As soon as Mr. Marshall recovers from his sickness the committee will audit all of the accounts and make a general report.

An Expert Fireman.

Fred Waggoner returned to Portland this morning, after having superintended the laying of the tiles in the operating room at the new hospital. Mr. Waggoner is a member of the Portland fire department, and is one of the best men in the service. He holds the record for climbing the 70-foot ladder, having gone up and over and down in 32½ seconds, thereby breaking the record by a little over four seconds. He was also the first man to the top of the building in the Dekum building fire.

WHAT MADE IT SO?

Many people are coming in with the report that the wheat is better than they thought, large, plump and fine. Many people are coming in with the report that the shoes sold at the big Boston Store are better than others and they want some of them. They are large, plump and fine. It is a fact we do pay the manufacturer more for a shoe to sell at a given price than others do, and thus we secure greater value. We sell shoes at a less expense per dollar's worth than any other concern in the city, and therefore we can afford to handle such lines as the Douglas for men, Gloria for women, and Red School House for children.

Douglas is the largest manufacturer of welt shoes to sell at \$3, \$3.50 and \$4 in the world, and we certainly have a representative line, one that will astonish you. The Gloria \$3.50 shoe for women is the best shoe at this price sold the American public today. We find each season an increase of trade—why is it? Merit that confirms buying opinion. Good wear combined with good looks and comfort. Oh yes, we must not overlook the Red S. H. shoes. They fit the school boys and girls. We have kinds for each. I believe you had better get the next pair at the

Changing Smoke Stacks.

The O. R. & N. Co. is experimenting with diamond stacks on their compound engines on this division to take the place of the straight stack. A diamond stack was placed on compound No. 400 yesterday, and if it proves a success they will be placed on all compounds as fast as they come into the shops. It is thought that the use of diamond stacks will increase the steaming capacity of the big engines, and prevent throwing of fire from the stacks.
