Entered at Pendleton postoffice as second class matter.

Beloved, in the garden of my heart
 There fell one night a solitary seed,
 I knew not whence it came nor what its part,
 Nor of what nourishment it might have need.
 Wearied of wandering through the other side,
 It slept, and when its weariness was gone,
 Said, "In this pleasure spot I will abide.
 And with the fairest claim comparison."
 Startled, I watched with keen and constant eyes,
 The growth to bud and blossom of my guest,
 Like one to whom 'tis very Paradise,
 To see her infant drain her ample breast;
 And lo! I found one happy evening hour,
 My heart was harboring Love's immortal flower.
 —James Whitehead.

APPOINT YOUR DELEGATES.

On the action of Umatilla county, in the matter of irrigation, hangs the fate of Oregon.

If this county passes up the irrigation Congress without sending a solitary delegate, and proves to the national government, by her inactivity, that she is unconcerned about the matter good-bye government aid. The state will not receive the benefit of the \$900,000 now accumulated in the national treasury, to her credit, if this county, which is looked upon as the pivotal irrigation county in the state, does not show the proper spirit.

So far the only delegates appointed to which the county is entitled, are those named by Mayor Halley—Judge Hartman and E. J. Somerville. The Commercial Association, the county court, the Columbia River Irrigation Association and the Woolgrowers' Association are each entitled to two delegates. The time for the meeting is drawing near, and no definite arrangements have been made about sending these delegates, or any of them.

There is a difference between appointing delegates and sending delegates. It has been the custom in the state to make these appointments, without regard to the probability of having a representative in the congress. It has been looked upon as an empty honor, to be conferred upon someone, entitled to it.

This phase of the irrigation question has passed. The time for action has come. The money from the sale of public lands is now lying idle in the treasury, awaiting the action of the reclamation department of the government. Just in proportion to Oregon's activity and energy will be moved out to her the government's favor. Just as Oregon takes an interest in the subject and urges her claims before every possible authority, just in this proportion will she receive the munificent gift of government aid, in reclaiming her deserts.

The delegates appointed by Mayor Halley are practical men, highly fitted for the task of presenting the claims of the county. In addition to Judge Hartman and E. J. Somerville, appointed by the mayor, Governor Chamberlain has named Mr. Halley and Judge Hartman, as delegates at large from this state. Now let the county court, the Commercial Association and the Woolgrowers simply endorse these three men, and then let all these sources of authority raise funds and send them to the congress. This is the truly practical

way to secure a bona fide representation at the congress. There is no use to name 20 delegates and send none. It would be better to name but two, and send them, and to know that Umatilla county was actually represented at this important meeting, than to name a long list of delegates who cannot attend, while some other county in the state will send a delegation and carry of the laurels which rightfully belong to this district.

The first irrigation reservation made in Oregon was located in Umatilla and Morrow counties. The most feasible irrigation plans to be found in the west are situated in this county, and in view of the fact that government experts have been continually in the county for the past six months, making preliminary surveys and examining every possible plan, it is necessary that Umatilla county be represented at this congress.

Let us send these three men, or more if possible, to prove our faith. Let us have our name on the list of irrigation enthusiasts, and convince the national government that we are in the field to win. The records of this congress will go before the national government, and will have great weight in determining the future action of the government, in locating and completing reservoir and canal sites. The district making the best showing, having the most feasible plan, presented in the most attractive manner, will receive first attention.

Another reason why Umatilla county should be represented at this congress, is that the state association meets in this city in November and it would be humiliating to say to that association, that this county did not exhibit sufficient interest in the subject to send a delegate to Ogden. It would not be a winning card for another meeting of the state association.

Pendleton enjoyed an experience yesterday which passed unnoticed by most of her citizens but which had a deep significance to the close observer. A local employment agency wanted to hire a crew of men, at wages ranging from \$2.25 to \$3 per day, and hunted the city over without finding an idle man for the place. Everybody works in Pendleton. There are fewer idle men here now than ever known before. Wages are no temptation for men to change. They are contented and at work constantly. This is a condition that comes very seldom to the Western city and speaks well for Pendleton. There will be full purses and full larders among all classes to begin the winter.

John D. Hammond, the defaulting manager of the San Francisco branch of the American Bible Society, is a saint, compared to some of the enterprising missionaries sent out by this great concern. It has been but a short time since the senate committee visiting the Hawaiian Islands, found that some of these missionaries had actually traded written passports

It is a great affliction for a woman to have her face disfigured by pimples or any form of eruptive disease. It makes her morbid and sensitive, and robs her of social enjoyment. Disfiguring eruptions are caused by impure blood, and are entirely cured by the great blood-purifying medicine—Dr. Pierce's Golden Medical Discovery. It removes from the blood the poisonous impurities which cause disease. It perfectly and permanently cures scrofulous sores, eczema, tetter, boils, pimples and other eruptive diseases which are caused by the blood's impurity. It increases the action of the blood-making glands and thus increases the supply of pure rich blood.

"For about one year and a half my face was very badly broken out," writes Miss Carrie Adams, of 115 West Main Street, Battle Creek, Mich. "I spent a great deal of money with doctors and for different kinds of medicines, but received no benefit. At last I read one of your advertisements in a paper, and obtained a bottle of Dr. Pierce's Golden Medical Discovery. Before I had taken one bottle of this medicine I needed a change, and after taking three bottles, I was entirely cured. I can well recommend Dr. Pierce's Golden Medical Discovery to any one similarly afflicted."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery." The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

PE-RU-NA NECESSARY TO THE HOME.

A Letter From Congressman White, of North Carolina.

HON. GEORGE H. WHITE.

Congressman George Henry White, of Barbours, N. C., writes the following letter to Dr. Hartman in regard to the merits of the great catarrh cure, Peruna: House of Representatives, Washington, Feb. 4, 1899. Peruna Medicine Co., Columbus, O.: Gentlemen—"I am more than satisfied with Peruna, and find it to be an excellent remedy for the grip and catarrh. I have used it in my family and they all join me in recommending it as an excellent remedy."

Very respectfully,
 George H. White.

Mrs. Nannie Wallace, Tullare, Cal., President of the Western Baptist Missionary Society, writes:

"I consider Peruna an indispensable article in my medicine chest. It is a sure remedy in every case that has been in my home for five years. I consider it of special value to weakly women, as it builds up the general health, drives out disease and keeps you in the best of health."—Mrs. Nannie Wallace.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

to heaven to the natives for deeds to real estate, and had taken possession of the land. Not all the rogues are in the worldly corporations.

The Bonta Electric railroad people of Baker county, are either in dead earnest or they are running an awful bluff. They have advertised for bids for the construction of 60 miles of grade, beginning 20 miles southwest of Baker City, and extending in the direction of Prairie City. This looks like there might be something in the balloon which the Baker City Herald has been pumping full of gas for the past month or more. Here's to all real railroads!

Suitable Glasses.

Cannot be secured by simply looking through two or three pairs at some type and selecting those which seem best. Such glasses may do more harm than good. Perhaps cause permanent injury where there was some temporary trouble only.

OUR TESTS ARE MADE with scientific instruments and are accurate. The Large Stock of Optical Goods enables us to fit all sights and fill oculists prescriptions promptly.

DISTILLED WATER ICE

The New York Times has the Following to say in Regard to Ice

"Probably no bacteriological fact is better established than that much of the ice of commerce is dangerously impure. The assumption that water purifies itself in freezing was long ago shown to have but a limited basis in truth. The individual crystals are likely to be purer than the mother liquid from which they are formed; but ice is a mass of crystals in which may be entangled all kinds of impurities. The germs are not only killed in the process of manufacturing the ice, but the condensed water passes through two coke, two charcoal and one sponge filter, leaving it absolutely pure to go into the cans."

The Delta

The Delta is better prepared than ever before to supply high grade ice cream and candy. We have secured the services of Mr. C. H. Mall, of San Francisco, an expert candy maker and ice cream man, and we are turning out a grade of ice cream that can not be excelled in the city. We want to say a few words about our soda fountain. We use in our tanks pure spring water from Fanning Spring, and when ice is used in our cold drinks we use ice frozen from pure mountain water. We keep all kinds of cold drinks, including Phosphates, Sundaes, crushed fruit preparations and Plain Sodas.
