GENERAL NEWS.

The Hebrew population of London has more than doubled during the last 20 years. It is now estimated at between 100,000 and 120,000. Italy and Spain have the fewest dwellings in proportion to their population of any civilized countries, and the Argentine Republic the most. The Russian government gives a golden medal to every couple that celebrates its golden or diamond wedding. Last year 614 couples received medals. The publishers of Professor Richard T. Ely's "Outlines of Economics" have received a large order for the book from Japan to be printed in the Japanese language. William Amory, a New Yorker, has several rooms of his residence papered with United States bonds intrinsically worthless now, but which once had a face value of \$200,000. Pichacho, a small town near the Colorado river in California, was struck by a hurricane a few days ago and nearly destroyed. The wind was a straight gale and came down a defile in which the town is built. Ella Wheeler Wilcox is fast getting the reputation of being a "has been." Most critics and the general public as well are accumulating the conviction that her genius has burned out and that she is trying to palm off her wares for the artistic fame of posterity.

PUBLIC LAND SALES

OREGON LEADS ALL STATES FOR THE PAST YEAR.

Over \$800,000 More Money Turned From Any Other State Through National Treasury by Oregon—Washington Receipts Doubled.

A complete statement of money received from the disposal of public lands in the United States for the fiscal year ended June 30, 1903, shows that Oregon turned into the federal treasury practically \$800,000 more than any other state in the Union. North Dakota, which was first last year, takes second place. The two states respectively contributed \$2,015,526 and \$1,319,835. These enormous aggregates of cash receipts are accounted for by the unprecedented activity on the part of timber entrymen, the land office reporting that never before in the history of the far West have timber lands been taken up so readily as during the past 12 months, and this notwithstanding extra precautions are taken to head off operations of speculative entrymen.

In both Washington and Idaho there was a great boom in public land business during the year but on a lesser scale than in Oregon. These two states show marked gains in the number of entries and amount of lands entered as compared with 1902, and even greater increases in the amounts derived from sales of lands. In fees and commissions, Washington more than doubled its receipts of the preceding year. There were 14,085 entries made in Washington under the several laws during the year embracing 1,416,157 acres, as against 11,500 entries, embracing 1,230,112 acres in 1902. Last year the amount collected in Washington from sales, fees and commissions was \$1,194,716, as against \$523,812 in 1902.

In Idaho 8,473 entries were made last year covering 709,472 acres, as against 7,129 entries, embracing 671,227 acres in the preceding year. The aggregate amount derived from the disposal of public lands was \$322,326, or nearly double the receipts of a year ago \$200,962.

Washington contributed the third largest amount to the reclamation fund last year, approximately \$1,000,000, which makes its total contribution to date nearly \$1,500,000. Idaho now has contributed about \$1,100,000, exact figures not being available until costs of conducting the land office and the 5 per cent for educational purposes are deducted.

There has been but slight increase in the land business in Alaska, only 102 entries, covering 1,723 acres, being reported. This is an increase of 44 entries and 382 acres over the preceding year. Up to the close of the past fiscal year there had been no opportunity to observe the workings of the Alaskan homestead and other land laws passed by the last session of congress.

Britishers Touring Canada, Montreal, Que. Aug. 24.—The British delegates who attended the conference last week of the chambers of commerce of the empire left Montreal today on an extended tour of the Dominion. The party will travel 10,000 miles and will visit in the order named the following places: Ontario, Manitoba, the Northwest Territories, British Columbia, Quebec, New Brunswick and Nova Scotia. The primary object of the trip is to better acquaint the visitors from England elsewhere with the unbounded resources of the Dominion.

TRIB.

The World's Greatest Cure for the Liquor and Tobacco Habits.

We are speaking truthfully when we make the statement that a failure to obtain a cure with Trib is the fault of the person taking it and not the fault of the remedy. There are some who lapse; this fact cannot be denied by any truthful advertiser, but in no instance will a patient say that they fell because of the craving for liquor or tobacco. And there never has been and never will be a case registered where a patient has been cured of the liquor habit that his health has not been much improved, instead of being entirely wrecked, as in many cases of much advertised treatments for the liquor habit. This fact is worth your especial attention. Again a person who takes Trib is cured; then if he lapses he is only one who would part easily with the great moral, religious or physical benefits of life in exchange for the world's so-called pleasures, and it is our belief that he should be cared for and furnished as an example for others. Not all who lapse are in this class, but the greater majority of them are. He may fall through over-confidence, thinking he can indulge with moderation, an act that can hardly be excused. Others by accident or by medicines used that contain a large per cent of alcohol. This class is entitled to much consideration and should at once commence another treatment of Trib. But anyone who after a cure with Trib, deliberately commences the use of tobacco or liquor, forfeits all confidence to the public and is only to be pitied. We do not desire as patients the class who only take Trib to sober up and please the pleadings of some dear friend and regain their confidence until they secure some personal gain. Trib does not change in-born dispositions, but in so far as the normal nature has been led by alcohol and tobacco using, Trib by restoring the brain to its normal condition, also restores the desire for those things, which experience has taught us, are healthful, good and proper, and embrace a full appreciation of the duties and responsibilities of life. Price per treatment, \$12.50. For sale by all druggists.

A NEW UNION.

How to Join and Get Quick Results at Small Cost.

Why not join our union of piano purchasers and have a hundred dollars? You can do it and we can help you. This is how it is done: We can well afford to sell ten or more pianos cheaper than one, so have organized a union of ten members. You join and pay \$10.00 down and \$10.00 a month, the piano is yours. Now here is the best part of it. Every time a new member joins the price of your instrument depreciates in price \$10. In other words, when the union is filled every member gets his instrument \$10 less than regular price. For example, a regular \$300.00 instrument can be had for \$290.00 by joining the union. Don't delay taking advantage of this great opportunity, as it will only last a few weeks of the dull season. This, combined with our easy payment plan and exchange contract makes it possible for everyone to have an instrument. Therkelsen's Piano House, 315 E. Court street. Everything musical.
