## GRAIN MARKETS.

Quotations Furnished by Coe Commis-  
sion Company—B. E. Kennedy, Lo-  
cal Manager.

Chicago, Aug. 29.—Cables this  
morning were indifferent. Liverpool  
dull and 1/4 lower than yesterday's  
market. Opened about the same as  
yesterday's closing. Market early  
ruled strong, sold up to 82 1/2 for  
Minneapolis September and 81 1/2 for  
Chicago September. The weather  
conditions prevailing throughout the  
Northwest much better than yester-  
day. Predictions for fine weather to-  
morrow induced profit taking at the  
close on part of the long realizing  
on moderate reactions. Receipts for  
Minneapolis and Duluth show a  
slight increase over a year ago, 379  
cars against 378 last year. Chicago  
receipts 130 cars, against 227 a year  
ago.

At this writing the market is a  
little firmer but very dull. The big  
bulls have apparently sold out their  
holdings on the bad weather bulge  
of the past few days, hoping for clear  
weather and a consequent break to  
replace their holdings. We do not  
look for much of a break although  
increased receipts may result in  
some recession of prices.

Wheat—	Opening.	Close.

Chicago, Aug. 29.—Wheat opened 81 1/2 and closed 81.		

## SPANISH CONSPIRACY.

Army Officers Arrested for Trying to  
"Shake" the Queen.  
Madrid, Aug. 29.—Thirty officers  
have been arrested charged with being  
implicated in a plot to prevent  
the queen mother returning to Spain  
from Vienna where she is now visit-  
ing Maria Teresa, her daughter. The  
officers are confined at San Sebastian.  
The queen mother is very un-  
popular. The army blames her for  
the loss of Cuba and the Philippines.

## TODAY'S RACE CALLED OFF

### HEAVY STORM RAGING ON THE JERSEY COAST.

Sir Lipton Declares That England  
Cannot Compete Against American  
Yacht Builders—Wishes That Re-  
liance Had Won Last Race.

Highlands, Aug. 29.—There will be  
no yacht race today because of a  
heavy storm which is raging off the  
coast. The crews lay tugging at  
their moorings, under double an-  
chors, their crews awaiting official  
notice of the call-off. At midnight  
the wind was 37 miles, which speed  
had decreased but little by 8 this  
morning, at which hour the race was  
called off.

Lipton Gives it Up.  
Sir Lipton, aboard his yacht Erin,  
said: "American brains and develop-  
ment have us beaten. If the day  
ever comes when England produces  
a Herreshoff then I will challenge for  
the cup again. It will not be until  
then. It is unpleasant to be compelled  
to admit it, but the brains in boat-  
building are on this side of the wa-  
ter."

"Herreshoff is a wizard. His work  
is wonderful. None can have admired  
Reliance more than I have. She is  
the best boat by all odds, and has  
won on strict merit."  
"Thursday's fluke only prolonged  
the agony for me. I do not want to  
win on any slips, and I regretted Re-  
liance's failure to get over the line  
as much as any one else could."

Will Race Monday Next.  
New York, Aug. 29.—The regatta  
committee of the New York Yacht  
Club, announced this afternoon that  
Reliance and Shamrock will race  
Monday next and every day there-  
after until the series for the cup be  
concluded.

## ADELBERT ABROAD.

Kaiser Wilhelm's Third Son Will  
Visit America.  
Berlin, Aug. 29.—Prince Adalbert,  
the kaiser's third son, according to  
the plans made public for his forth-  
coming visit, will cross America,  
arriving at New York and embarking  
for the warship Hertha at San Fran-  
cisco. He will visit several promi-  
nent cities en route.

Henrik Ibsen Dying.  
Berlin, Aug. 29.—Die Vossische Zeit-  
ung says Henrik Ibsen is worse and  
the end is near. His relatives are at  
the bedside.

## STRIKERS MAY BE SUCCESSFUL

### Believed in Seattle That the Teamsters Will Win All Their Contentions.

### WANT SHORTER HOURS WITH HIGHER WAGES.

Their Remuneration Has Up Till  
This Time Not Exceeded That of  
the Plain Laborers and the Gen-  
eral Public Sympathizes With Them  
—Business Generally Is Tied Up.

Seattle, Aug. 29.—Over 750 team-  
sters are now out. Fifteen small  
firms have signed the agreement,  
while the big ones ask for arbitra-  
tion. The strikers turn them down  
and insist on their original demands.  
The transfer companies have asked  
for police protection, but as the  
demand is refused, it looks as if  
the men would win everything asked.

There are in Seattle over 1,200  
teamsters, about one-half of whom  
belong to the union, so nearly 200  
non-union men are striking in addition  
to almost the solid membership of  
the union.  
The prophecy of success, freely  
indulged in by all classes in the  
city, really has its origin in a wide-  
spread and deeply rooted conviction  
that the teamsters should be better  
paid. The most skilful receive but  
350 per month and no allowance for  
overtime, and ask but 325 per day  
for a 10-hour day, which is hardly in  
proportion to the general average of  
wages received in this city except by  
those who do the physical and least  
skilled labor.

Continuing overwork, the teamsters  
have not received more than the di-  
vina and sweepers, and have begun  
to urge the public to their ex-  
ecution, which they believe is a  
capital crime, than better pay and  
shorter hours.

If the teamsters' demands are al-  
literated, business will be practically  
at a standstill for an indefinite length  
of time, as the teamsters do not lack  
for the sinews of war and moral sup-  
port as well.

## PARDONS BLIND CHINAMAN.

Governor Chamberlain Exercises  
Clemency Toward Aged Murderer.

Salem, Aug. 29.—Wong Long, a  
Chinaman sent up from Clatsop  
county for 12 years for manslaughter,  
was pardoned yesterday after-  
noon by Governor George E. Cham-  
berlain. He was received in 1900  
and still had nine years to serve.  
He was pardoned on the recom-  
mendation of the prison physician,  
Dr. John D. Shaw, who called Dr. A.  
B. Gillis, an eye specialist, to exam-  
ine him, and the latter pronounced  
him incurable and would soon be  
blind, therefore the governor exer-  
cised executive clemency in his be-  
half, in order that his people  
might have an opportunity to care  
for him and give him what medical  
aid is necessary. If left where he  
was, he would be a permanent bur-  
den to the state.

## BALL PLAYERS WRECKED.

Teams of Cleveland and St. Louis in  
a Smashup.  
Napoleon, O., Aug. 29.—A Wabash  
special, carrying Cleveland and St.  
Louis ball clubs, was ditched here  
this morning. None were fatally  
hurt, but several were painfully in-  
jured. Mercer, of St. Louis, had  
several ribs fractured; Lajoie, of  
Cleveland, was badly cut and his  
kneecap sprained; Sudhoff, of St.  
Louis, had a wrist fractured. Several  
others were bruised and cut so  
that they will not be able to play  
for some time.

## Kentucky Railroad Wreck.

Turner, Ky., Aug. 29.—One man  
was killed and 14 injured by the col-  
lision of an accommodation with a  
mail train near Newberg Junction,  
this morning. The dead man was  
unidentified.

## Dyking at Kansas City.

Kansas City, Aug. 29.—The Kaw  
is rising slowly and the packing  
houses are throwing up dykes.

## O. R. & N. FIREMAN MEETS DEATH

### Crown Sheet on Freight En- gine No. 304 Explodes With Fatal Results.

### ENGINEER AND BRAKEMAN SEVERELY BRUISED.

The Train Was Approaching  
Weatherby Station at 10 O'Clock  
Last Night When Accident Occur-  
ed—Plenty of Water and Full  
Head of Steam—No Cause Assign-  
ed for the Accident.

La Grande, Aug. 29.—Fireman F.  
B. Faust was instantly killed last  
night at Weatherby Station on the  
O. R. & N., 12 miles west of Hunting-  
ton, by the explosion of the boiler of  
freight engine No. 304.

Engineer Harry C. Gilman was  
blown out of the cab window and se-  
verely bruised, and William Wade,  
head brakeman on the train, who was  
sitting on the fireman's seat at the  
time, was also blown out of the win-  
dow and sustained severe bruises.  
The engine was attached to train  
No. 21, and was just coming into the  
yards at Weatherby Station at 10  
o'clock when, without a second's  
warning the crown sheet of the boiler  
burst, and the boiler head in the  
cab lodged on, blowing out the grates  
in the boiler, tearing the fire door  
from its hinges, and wrecking the in-  
terior of the cab.

The fireman was blown violently  
against the coal chute on the tender,  
and was instantly killed. The force  
of the explosion threw engineer Gil-  
man out of the window, and he struck  
upon his head, but was able to crawl  
out of the cab on the distant passenger  
train this morning and walk home  
from the depot. Brakeman Wade is  
not seriously injured and will be  
ready for duty in a few days. Fire-  
man Faust was a new man on the  
division, his first trip  
west of the road. He leaves a wife and  
seven children.

Engine No. 304 was one of the new  
compound freight engines which  
were put in service on the La Grande  
division two years ago, and was con-  
sidered one of the best freight en-  
gines on the mountain. The train  
was traveling about 25 miles an hour  
and there was plenty of water in the  
tender, and a full head of steam and  
no reason can be given for the acci-  
dent other than that the constant  
strain of the heavy steam pressure  
on the boiler had slowly and imper-  
ceptibly developed a weakness at  
some rivet or seam. These boilers  
carry 200 pounds of steam and are  
well constructed. It is the first acci-  
dent of the kind ever occurring on  
the mountain division.

The train, was in charge of Con-  
ductor James A. Connors, who, with  
Rear Brakeman Ed Cross, escaped in-  
jury.

## RECEPTION TONIGHT.

### Party of Distinguished Gentlemen Can Be Met at Commercial Asso- ciation Parlors.

This evening the Commercial As-  
sociation will hold a public reception  
in their rooms in order that those  
in the city interested in the subject  
of irrigation will be able to meet the  
gentlemen of the government sur-  
vey who have the work in hand. A  
party consisting of F. H. Newell, the  
chief, H. M. Savage and J. T. Whis-  
ler, of the survey, and Congressmen  
M. A. Moody and J. N. Williamson  
are in Echo today looking over the  
ground, and will be in this city this  
evening, where they will remain over  
Sunday.

As the subject is of such impor-  
tance to the people of this country,  
it has been deemed best for the  
people of the city to have an oppor-  
tunity to meet the men who have the  
reporting on the advisability of the  
subject, and therefore the associa-  
tion will receive this evening in hon-  
or of the gentlemen, that all those  
who have the matter at heart will  
have a chance to see and converse  
with them.

Carl R. Schultz, aged 27, has just  
been elected president of the Equi-  
table National Bank of New York.  
He is the youngest bank president in  
New York City, and the second  
youngest in the United States.

## NEW CANADIAN LINE.

### Railroad Projected to James Bay From Lake Superior.

Ottawa, Ont., Aug. 29.—Details  
have just been learned of the plans  
of the newly-incorporated Lake Su-  
perior, Long Lake & Albany River  
Company for the construction of a  
railroad through Canada from Penin-  
sula Harbor, on the northern shore  
of Lake Superior, to a point adjoin-  
ing the mouth of the Albany river, on  
the southern shore of James Bay,  
and a branch line from Long Lake to  
the Albany river.

According to the statements of its  
projectors the new railway line will  
open the heart of the western part  
of the "great clay belt," of the James  
Bay slope, said to be as capable of  
growing grain as Manitoba, and af-  
ford access to great timber and pulp-  
wood resources. It will also, by  
reaching James Bay, make feasible  
the creation of a great fishery trade,  
especially in white fish, superior to  
those of the great lakes, and salmon,  
declared in a recent geological sur-  
vey to be better in color and flavor  
than those of British Columbia.

The main line of the road is to be  
150 miles in length. It will run in  
its southern section through a  
country rich in mineral deposits,  
and in its northern section through  
land admirably adapted for wheat  
growing.

## TURNED BACK.

### Point Barrow Cut Off From the World by Ice.

Seattle, Aug. 29.—Advices from  
Nome state that the revenue cutter  
Rush failed in an attempt to land  
mission and whaling station, and  
mats and supplies at Point Barrow  
was driven back after going 1,000  
miles, by ice packs when within 200  
miles of the destination, which is  
the most northerly point of Alaska,  
and to which mail goes only once a  
year.

## Beer Sympathizer Released.

London, Aug. 29.—Dr. Kraus, ex-  
governor of Johannesburg, who was  
convicted of inciting the murder of  
British sympathizers during the Beer  
war was released from prison this  
morning.

## MURDER IN FIRST DEGREE

### JURY FINDS THAT POWERS SHOT GOVERNOR GOEBEL.

The Third and Last Trial of This De-  
fendant—Others, Charged With Be-  
ing Accessories, Have Either Disap-  
peared or Migrated.

Georgetown, Ky., Aug. 29.—The  
jury in the Powers case this morning  
returned a verdict of guilty of mur-  
der in the first degree, and recom-  
mended that he be sentenced to  
death.

Caleb Powers' conviction the third  
time of the murder of Governor Goebel  
in 1900, is no surprise to those  
who have followed the progress of  
the case, as the evidence adduced at  
each trial has been more convincing  
as to his guilt than at preceding ef-  
forts by the state.

Goebel was shot in broad daylight  
at Frankfort while crossing the  
grounds of the state house. He was  
hit by a ball from a .44-caliber rifle  
fired from a second story window of  
the state house. A careful estimate  
of angles and relative positions dem-  
onstrated from which window the as-  
sassin fired, and gradually a chain of  
evidence was wound about Caleb  
Powers.

So many others were proven to be  
implicated that quite an exodus of  
more or less prominent men from the  
state took place not long thereafter.

## E. W. DAVIS FOR REGISTER.

### La Grande Land Office Job Did Not Go to Knowles.

E. W. Davis, mayor of Union, and  
one of the cleanest, most prominent  
young men of Eastern Oregon, has  
been appointed register of the La  
Grande land office, in place of E. W.  
Bartlett, against whom charges of  
drunkenness are said to have been  
made.

Mr. Davis has resided in Union for  
the past 25 years, and has been  
prominently identified with the busi-  
ness and political interests of the  
county. He has been mentioned for  
the legislature and is prominent in  
the councils of the republicans of  
Eastern Oregon. His appointment  
comes as a surprise to the Knowles  
forces, who have been very active  
lately in pushing the claims of their  
candidate.

An American company has been  
organized to build a railroad from  
Khabarovsk to the Gulf De Castris,  
Siberia.

## LEONG KAI CHEU IS IN THE CITY

### Will Address a Meeting of Chinamen at the Court House This Evening.

### IS ACCOMPANIED BY A SECRETARY, POW CHEE.

The Latter Gives a Most Interesting  
Outline of the Purposes of the  
Chinese Reform Association, and  
of Its History—Will Effect an Or-  
ganization in Pendleton.

Leong Kai Cheu, the vice-president  
of the Chinese Empire Reform Asso-  
ciation, accompanied by Pow Chee,  
the secretary of the association, is  
in the city in the interests of the or-  
ganization. Both of the gentlemen  
are well versed in the English lan-  
guage, and a conversation with them  
has none of the uncertainties of an  
attempt with the average Chinaman,  
met in this country. In fact, the only  
thing that would betray the fact that  
they are not Americans as far as  
their speech is concerned, is the oc-  
casional halting for a word, and the  
use once in a while of the pet phrase  
of the Chinaman, "by-and-bye."

Mr. Chee, in speaking of the pur-  
poses of their mission in this coun-  
try said: "We have been in this coun-  
try for the past four months, work-  
ing among our people in the behalf  
of the Reform Association, and are  
having good success. The associa-  
tion was formed by the reform or  
modern element of the people of our  
country in 1899, and was sanctioned  
by the emperor, Kwong Sun. For  
four months the government was  
carried on in accordance with the  
views of the association, and at the  
end of that time the Emperor Kwong  
Sun saw that the matchings of the  
association were not to her benefit,  
and not in accordance with her pol-  
icy, and she put a summary stop to  
it and put many of the leaders to  
death. Her policy is for her own  
power, regardless of the good of the  
country, and her party is too strong  
at this time to overturn.

"But understand, that the object  
of the association is not war, but  
peace. What we wish to secure we  
would accomplish in a peaceful way,  
and the time is coming when this  
will be feasible. If we could gain an  
audience with the Dowager we think  
that the matter would be arranged.  
We could retire her on a good allow-  
ance, so that she would be comfort-  
able for the rest of her days; or  
some plan could be adopted by which  
the rightful sovereign would be in  
power, and the good of the country  
would result. But might is right  
there, and the empress has always  
looked for her own good, and will  
continue to do, we fear.

"The last four years has seen the  
association grow at the rate of a  
million a year, until now it has  
branches in every country where  
there are any of our countrymen.  
The president of the association,  
Kang Yu Wei, is now in Burma,  
where he is carrying on the work,  
the same as we are in this country.  
We expect to be here about three  
months more, and will end our mis-  
sion in San Francisco.

"When we have grown sufficiently  
strong in numbers we hope that the  
reigning power in China will see  
that we have the right on our side,  
and we will be able to put the em-  
peror on the throne."

The gentlemen will address a  
meeting of all the Chinamen of the  
city at the courthouse this evening,  
where, in the language of their own  
country, the objects of the associa-  
tion and its principles will be made  
plain, and a branch organized here  
for the promotion of the tenets of the  
reform ideas.

## Festival of Swiss Singers.

Detroit, Mich., Aug. 29.—Many del-  
egates and visitors are arriving for  
the festival of the Swiss-American  
Central Singers' League, which is to  
be held in Detroit tomorrow and  
Monday. Swiss singing societies  
from Buffalo, Cleveland, Allegheny,  
Cincinnati, Chicago, Toledo, Colum-  
bus, Akron, Canton, Milwaukee and  
Hamilton, Ont., will take part. The  
concerts are on the program for to-  
morrow, and Monday will be devoted  
to the business sessions of the meet-  
ing.
