LARGE MINING DEAL

TREADWELL COMPANY MAKES BIG PURCHASE.

Over Three Million Dollars Paid for Valuable Property—Will Add 750 More Stamps to Largest Quartz Mill in the World.

One of the biggest deals of Alaskan mineral property ever consummated in this city was closed this morning when the Treadwell Mining Company purchased from the receiver of the Nowell Mining Company 50 quartz claims, situated at Berners' bay, 62 miles north of Juneau, says the Spokane Press. The deal is said to involve the transfer of \$3,000,000 worth of property and machinery. The Nowell company, besides its mineral properties, owns a 40-stamp mill. Joe McDonald, general superintendent of the Treadwell company; F. W. Bradley, general manager of the Bunker Hill & Sullivan mine and consulting engineer for the Treadwell, and W. R. Rust, manager of the Tacoma smelter, which treats the Treadwell concentrates, were here this morning arranging negotiations with F. D. Nowell, receiver for the Nowell Mining Company, operating at Silver Bow basin, four miles from Juneau.

Superintendent McDonald said today: "The consideration for the purchase of the Nowell Mining Company's property will not be made public. The deeds have been signed and I am going from here to San Francisco to place orders for additional machinery."

F. D. Nowell, receiver for the Nowell Mining Company, was equally reticent.

The Nowell Mining Company has been in existence for over 10 years. Some years ago the company, through reckless management, went into the hands of a receiver and since then the property has remained idle. The Treadwell people will add 750 stamps to the mill at Berners' bay and immediately proceed with a resumption of the development of the big quartz ledges. The deal has been pending since August 15.

California Grape Yield Large.

Fresno, Cal., Sept. 2.—Picking in the California wine grape belt begins today and all indications point to a large crop. A large quantity of the wine made last year is still unsold and much of it remains in the hands of the producers. Many small producers paid such high prices for grapes that they could sell their wine only at a loss and therefore acid it. Such producers will buy few grapes this season, possibly none at all.

Don't undo the good your vacation has done you by drinking poor water or putting inferior ice into the iced water.
