DUMP CART.

City Will Invest in One and Systematize the Street Cleaning.

It is the intention of the city government to put a city dump cart into service in the near future as a measure of economy. All this summer it has cost the city near the \$100 mark to keep the dirt off the streets with the means that have been employed. At the last session of the council a measure was introduced providing for the furnishing of a cart, and it was referred to the street committee for a week's consideration. As it will be possible to get a man to take the cart and make it his business to see that the streets are kept clean for about \$60 a month, it will be plainly seen that the measure will redound to the benefit of the city treasury.

It is expected that the next session of the council will authorize the purchase of the cart, and as soon as it is possible to get the vehicle the work will be started and will be kept going all the year.

NOT GOOD, NOT HERE

They Lead the Procession

The popularity of Swift's products among all classes is very largely due to the absolutely clean and hygienic conditions under which each carcass is dressed, and the meat and the food products prepared and inspected. This is particularly true of Swift's Premium Ham and Bacon. From the sleek, corn-fed hogs in the pens, the carefully selected hams and bacon in the smokehouse, the final expert inspection by the U. S. government, and, lastly, the dainty wrapping in parchment paper, each step in the evolution of these nutritious and appetizing products is a guarantee that they will always please.

UMATILLA AT OGDEN

WILL COMPETE FOR PRIZES AT IRRIGATION CONGRESS.

Movement on Foot to Have the County Properly Represented—Mayor Hailey Has Been Appointed as a Delegate by Governor Chamberlain—The County's Quota is Not Yet Full.

R. C. Judson, the industrial agent of the O. R. & N., was in the city today for a few minutes while waiting for a change of trains. Mr. Judson is now traveling in the interest of the fruit exhibit of the state, for the National Irrigation Congress to be held in Ogden soon.

There are several cups and medals to be given to the best exhibits, and it is the wish of the gentleman that Umatilla county have a chance at them, along with the rest of the country. There is one cup in particular that the people of this county should get after, and that is the \$500 loving cup to be given by Senator W. A. Clark for the best county exhibit of fruits grown on irrigated lands. If the fruit raisers of the county would make an effort to get an exhibit together it would be sure to take the cup, for there is not another county in any of the irrigated districts where such a variety of fruit can be raised.

Another thing is the individual medals offered by the managers of the exhibit for the best display of certain fruit, such as apples, pears, or peaches grown by the aid of irrigation. If the men of the county along Butter creek and around Milton would take an interest in the matter they would be sure to have the best of the bargain, for there is no other district that can grow the fruit that is grown in the orchards of that section.

While in the city Mr. Judson had a talk with T. G. Halley and C. B. Wade and it is his wish that the Commercial Association take hold of the matter at once and see that the farmers of the county are interested in the exhibit and that they take the time and the trouble to put samples of their fruits in the hands of the association for transportation to Ogden, and exhibition at that place.

Mr. Halley will take the matter up and will also see that the things are well placed when they are at the congress, for it is his intention to attend the meeting as an appointee of the governor. Mr. Halley wishes to go for several reasons; one, that he is interested in the development of the country and wishes to do all in his power for the advancement of irrigation; and again, as an irrigator, he wished to visit the model farm that is near Ogden, and see how the work is carried on in a large way. He is also anxious to see how the alfalfa fields are arranged in that country for the betterment of the conditions on his own farm here and those of his neighbors.

The delegates of the various organizations that have power to appoint men to attend the meeting are now being considered by the officers of the orders, and will be appointed in a short time. It is the intention of the men interested in the subject to send a strong representation to the convention, and with the delegation will be sent the finest lot of fruit that will be seen in Ogden this or any other year.

GOVERNOR CANNOT GO.

Writes to Mayor Hailey That His Law Partner is Ill.

Some time ago, at the instance of various men of this part of the state, who are interested in the question of irrigation here, Mayor T. G. Halley addressed a letter to Governor Chamberlain, calling his attention to the importance of the congress to be held soon at Ogden, and of the prestige it would give the Oregon delegation to be headed by the governor, and asking that he find time if possible, to attend the meeting.

The mayor has received a letter from the governor in which he regrets in sincere terms that it will be impossible for him to attend the congress as desired by the people of this part of the state, owing to the serious illness of his law partner at this time, and the consequent fact that he will have to attend to the

business coming before the courts at the same time as the congress.

The governor expresses the highest concern as to the outcome and the importance of the irrigation question, and thinks that in time it will be the means of transforming the eastern part of Oregon into a section of country entirely different from what is now found here.

Owing to the number of the persons who have signified their intention to take part in the procession Monday with floats and other means of representing their business, and with a view of making the matter a success, it has been decided that it would be necessary to have a new line of march in some particulars, and the following course has been selected:

Thirty Years of Housekeeping

In my experience of over 30 years of housekeeping I have used many kinds of soap, but Lifebuoy is the king of all. I have used it for the past four years and would not be without it for any price. Throughout the house I used nothing else but Lifebuoy. I also find that for toilet and bath it cannot be excelled. Lifebuoy Soap is surely worth its weight in gold.
