The East Oregonian is on sale at B. H. Beck's News Stand at Hotel Portland and Hotel Deskins, Portland, Oregon.

Member Pacific Mail News Association.
 San Francisco Bureau, 408 Fourth St.
 Chicago Bureau, 900 Security Building.
 Washington, D. C. Bureau, 507 14th St., N. W.

Entered at Pendleton postoffice as second class matter.

They are slaves who fear to speak.
 For the fallen and the weak.
 They are slaves who will not choose.
 Hated scolding and abuse.
 Rather than in silence sit.
 From the truth they never must shrink.
 They are slaves who dare not be in the right with two or three.
 —James Russell Lowell.

It has been cruelly suggested by an enthusiastic ex-miner that the Interior department favors the expenditure of vast sums of money on irrigation schemes in Nevada, Arizona and New Mexico in hopes of building up the republican vote there.

The Evangelical Lutheran Synagogue in session at Asbury Park, New Jersey, has refused to pass a resolution asking congress to end Reel Smoot from the United States senate. The Lutherans evidently believe that there are more timely topics for discussion in church assemblies than this crumpled question of polygamy.

The total number of pensioners now on the rolls is 896,547, of which 725,456 are soldiers and 247,189 are widows and dependents. In 1902 the cost of the pension system was \$1.75 per capita for the entire population of the United States, having been reduced from \$2.24 per capita in 1893. The total annual value of the Spanish war pension roll has now reached \$1,785,310.

The resignation of Rev. R. W. King from the pastorate of the Baptist church in this city, leaves a vacancy in ministerial circles which cannot be easily filled. Mr. King has been a zealous church worker, a progressive, public-spirited citizen, and has built up an excellent congregation, placed the Baptist church on a good financial basis and has made a record of which he may be justly proud, during his two years' residence in this city.

It may be unjust to the street sprinkling committee and to the street commissioner to kick about dusty streets one week, and muddy streets the next, but it happens that it is timely to do so. Before another dusty season arrives, Pendleton must be prepared to sprinkle all her residence streets alike, and before another muddy season arrives, either pavement or crushed rock should ornament Main street. The sewer system will soon be completed and nothing in future will interfere with the paving.

The Dallas Times-Mountaineer says the East Oregonian failed to give a hearty support to the Mountaineer's demand for an Eastern Oregon man for senator last winter. The East Oregonian recognized the futility of all efforts in that direction under the present rule of the thing in Oregon, and believes the quickest way to get recognition for Eastern Oregon is to let the present political domination of Portland end. Its course in hopes that Eastern Oregon will be benefited by the reaction which is sure to come sooner or later. In the present whipped condition of the Oregon delegation, Eastern Oregon feels proud to think that she is not responsible for the choice.

BENEFITS OF COLD STORAGE.

The first outside parties to take advantage of Pendleton's excellent cold storage facilities, is the Echo Cold Storage and American Hare Packing Company.

This enterprising company today placed two herds in cold storage in this city, as an experiment, and if the results are satisfactory, the entire output of the company, including probably 250 head of beef cattle and great numbers of sheep will be butchered now, while the stock is fat from the summer range, placed in cold storage here and shipped to market as ordered by its patrons.

This is one of the most promising branches of the livestock industry yet developed in the Inland Empire.

The farmer or stockman can butcher his stuff at this season of the year, while the meat is in excellent condition, place it in cold storage at a nominal cost, ship it to market whenever the price suits, whether it be one month or three, and the feed in the country can be used in keeping over calves and feeders for next season, and in putting fat on more stock for later markets.

The great saving to be made to the stockman by marketing his stuff in this manner is in transportation and the profits of middlemen.

In shipping live animals, 24 to 26 miles up a railroad, by shipping cold storage stuff in refrigerator cars, 20 tons or more 120 animals makes up a carload, of course at a great saving rate than that obtained for live stock.

But this is the golden opportunity of the stockman of the Inland Empire. He can butcher his stuff when stock is cheap and hay is high, and save all the profit now made by commission men. He can use his feed in keeping over calves for next year's best crop, and in this manner the number of stock fed and marketed can be greatly increased and the profits to the grower enhanced.

Not only beef can be treated in this manner, but mutton, pork, butter, cheese and poultry, and the cold storage facilities of this city should start in motion a dozen thriving industries not now in existence in this Inland county.

Before the combined harvesters has cut the Timathia county wheat field, the combined mule team and gang-plow crews to prepare for another crop. There is a perpetual motion in the Inland Empire which the scientists have not yet discovered.

WHAT! NO COURTING?

The Kansas schoolma'ams and masters who "view with alarm" the tendency of school boards in that state to "torrid courting by teachers during school terms" are quite right in denouncing this as unbearable tyranny. Affirming that "a large percentage of teachers are of marriageable age," they decline to surrender their "sacred and unalienable right to court and be courted."

Shades of John Brown and Dan Anthony—the apostle of freedom and the champion of the anti-triangular—we should hope so! If 20 schoolmasters had ever "sparked" and no schoolma'ams had been courted what would Kansas be today? A half-conquered desert!

What would these school boards have? Race suicide, or marriage without courting? Would they have the stalwart young husbandmen of Kansas get wives as the Roman raiders obtained them among the Sabine virgins—by carrying them off in their arms? And shall the male teachers, deprived of the delights of propinquity and the advantages of natural selection in the choice of wives, be cast into the dreary lottery of matrimonial advertisements to secure life partners?

However, there is little danger. A pope's "bull against the comet" would be actual "government by infantery," compared with a school board's edict against Cupid.—New York World.

INTEGRITY OF COURTS.

"A man with whom I was talking on this subject said in reply that the courts are in the hands of corporations, are dominated by them. 'Then,' I queried, 'our system of government is a failure?' But I do not believe either the one proposition or the other. I do not believe that our courts are corrupt. I believe that the judges who preside over our state and federal courts are as honorable and high-minded as any men in the country. It is one of the evils of this era of journalistic demagoguery that our courts, the very basis of our social fabric, are thus cheaply vilified and constantly proclaimed as unworthy."

"To get around Governor Crocker's of Texas's government by injunction is of this category. I do not believe there ever was an injunction issued in this country that harmed anyone. I believe that they have all done good. An injunction is nothing but a writ of safety. It simply says 'Hold on a minute; stop where you are until we look into this thing.' If we find the injunction is not justified under the law by the facts, it will be null and permanent. Who is to be harmed by an act so fair and just as that?"—Ex-Senator Marlon Butler.

S. Murfrees, of Vancouver, B. C., committed suicide, Friday, by tying a rope to his neck and limboing from a high tree.

MISS ELIZABETH UBER ALBANY N.Y.

MRS. WILLIAM DEWEY SARATOGA LAKE N.Y.

MISS ROSA GERBING CROWN POINT IND.

BEAUTIFUL WOMEN WHO USE PE-RU-NA.

HEALTHY WOMEN

Praise Pe-ru-na as a Preventative of Catarrhal Disorders.

Miss Elizabeth Uber, No. 67 street, Albany, N. Y., writes: "I have always dreaded it and winter because of my inability to catch cold, when a trouble would quickly through any entire system would take weeks to drive a man thankful to say that since taken Peruna, I do not have to dread this any more, fall when I suffered with a trouble I took Peruna and it was completely cured at that time, if I have been exposed to the damp, wet weather, I take a dose or two of Peruna and it throws out any sickness from my system, I endorse it."—Miss Elizabeth Uber.

Mrs. Wm. Dewey, Saratoga, N. Y., second cousin of Admiral Dewey, in a recent letter she says: "Peruna is the most valuable remedy that I have ever known for colds, coughs, etc. I cheerfully recommend it as a certain cure according to directions."—Mrs. Dewey.

Miss Rosa Gerbing, a society woman of Crown Point, Ind., writes: "Last winter I took a bad cold in the country, and being too tired to catch a cold which on my lungs, and which I could not seem to shake off. I had a great deal of Peruna for colds, coughs, and I bought a bottle of Peruna, and I am pleased that I did for it brought me a speedy relief. It only took me a few days and I consider this a great benefit."

"You have a firm friend and I not only advise its use to my friends, but have purchased bottles to give to those who mean to buy, and have without exception that it has brought about a speedy cure wherever used."—Miss Rosa Gerbing.

To neglect a cold is to invite catarrh. As soon as anyone has the first symptoms of catarrh, should at once begin the use of Peruna according to directions on the box, and the cold is sure to pass off, leaving any bad effects.

Unless this is done the cold is sure to end in the second week, which is making so miserable. If Peruna was taken from the first, a cold or cough or catarrh would be practically known disease.

If you do not derive prompt relief from the use of Peruna, write at once to Dr. Hartman, full statement of your case and he will be pleased to give you his advice gratis.

Address Dr. Hartman, The Hartman Sanitarium, Chicago.

Monday, Tuesday and Wednesday Special

Monday morning and the two days following will be great bargain days for the careful buyers of Pendleton and vicinity. We would like you to kindly read every word in this add and then compare our goods and prices with other stores. We know what the result will be. Our store will be crowded on these three days. Our stock is three times larger than it was two years ago and four times larger than it was five years ago. Why is this? We will tell you, we have been selling good honest goods at the smallest living profit and this fall our store is crowded with good reliable merchandise that will be sold as before, on a close margin. We know this pays. WATCH US GROW. Read on.
