AT NEWPORT NEWS TODAY.

Nearly Seventy Feet and Weighs soop.m. About 15,104 Tons-Main Battery Consists of Four Eight-Inch Breach-Loading Rifles, and Fourteen Six-Inch Rapid-Fire Rifles.

Newport News, Va., Sout. I.E. There was launched from the ways at the big plant of the Newport News Shiptmilding and Drydork Company today the latest addition to Uncle Sam's new many the 15,000 con armoved cruiser Maryland, The launch the was in some respects the most notable in the history of the city; it was moreover, one of the most beau tiltui and imposing. There was some thing indescribably majestic in the sight of this tremendoms built, of starefully assembled steel descending with ranidly increasing speed down the long greased ways to the bright river, in which so many splendid ships have been christened.

The entirer Maryland was author-used by congress with the West Virginia, the Colorado, the South Dakota, the Nebraska and the California. The vessels represent a long step ahead for the navy. Practically no advance was made after the Brook-Cramps. The new ships have the in-vulnerability of a battleship, with the speed of a first-class cruiser, and compare favorably with the best ves-

of foreign powers. The principal dimensions of the Maryland are as follows: Length on load water line, 502 foet: extreme beam, 69 feet 615 inches; draft on the solution of the solution of the solution of the solution for the solution of the solution of the solution of the solution TIME CARD Arrive at Pendleton Monday, Wednes-day and Friday, 1.45 p. m.-Tues-the solution of the solution of the solution of the solution the solution of the solutio ammunilion and stores aboard, 15. 104 tons: designed indicated horse-power, 23,000; speed, 22 knots; coal supply, 1,850 tons; complement of of ficers, 47; complement of meamen, marines, etc., 783.
